SUBJECT INDEX

Aquaculture, volumes 76–100

A

Abalone

see *Haliotis* spp.

Abdominal distension

Distended, water-filled stomach in sea-farmed rainbow trout, 90 (1990) 333

Abramis brama

Effect of a synthetic LHRH analogue and dopamine antagonists on the maturation of bream, *Abramis brama* L., 95 (1991) 373

Acanthopagrus cuvieri

Vibriosis outbreak among cultured seabream (*Acanthopagrus cuvieri*) broodstock in Kuwait, 76 (1989) 189

Acanthopagrus schlegeli

Annual cycle of gonadal histology and steroid profiles in the juvenile males and adult females of the protandrous black porgy, *Acanthopagrus schlegeli*, 91 (1990) 179

Effects of LHRH-A and HCG on the steroid profiles of bisexual and mature male and female protandrous black porgy, *Acanthopagrus schlegeli*, 92 (1991) 83

Acartia tsuensis

Dynamics of exploited populations of the calanoid copepod, *Acartia tsuensis*, 84 (1990) 27

Acetate

Etude du développement larvaire de l'Éperlan, *Osmerus mordax*, en eau pure et dans deux milieux de matière organique, le glucose et l'acétate (A study of the larval development of smelt, *Osmerus mordax*, in pure water and in two organic media, glucose and acetate), 80 (1989) 351

Acethylcholinesterase

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

Acipenser baeri

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. I. Utilization of digestible carbohydrates by sturgeon, 76 (1989) 97

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. II. Utilization of dietary non-protein energy by sturgeon, 93 (1991) 143

Acipenser ruthenus

Possibilities of sturgeon culture in Central Europe, 89 (1990) 101

***Acipenser* sp.**

Genome analysis of rainbow trout and sturgeon with restriction enzymes and hybridization with a ZFY gene derived probe to identify sex, 81 (1989) 245

Acipenser transmontanus

Growth of juvenile white sturgeon (*Acipenser transmontanus*) fed different proteins, 76 (1989) 303

Choline requirement of hatchery-produced juvenile white sturgeon (*Acipenser transmontanus*), 78 (1989) 183

Growth and feed efficiency of white sturgeon (*Acipenser transmontanus*) sub-yearlings at different feeding rates, 80 (1989) 147

Salinity tolerance and seawater survival vary ontogenically in Florida red tilapia, 87 (1990) 311

Aeromonas salmonicida

Quantitative and qualitative differences in the antibodies produced by immunosuppressed rainbow trout, *Oncorhynchus mykiss*, to *Aeromonas salmonicida*, 88 (1990) 205

***Aeromonas* sp.**

The continuous feeding of turbot larvae, *Scophthalmus maximus*, and control of the

bacterial environment of rotifers, 89 (1990) 139

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Aeschna grandis

Predation on larvae of the noble crayfish, *Astacus astacus* L., 86 (1990) 155

Alfalfa leaf protein concentrates

The use of alfalfa leaf protein concentrates as a protein source in diets for tilapia (*Oreochromis mossambicus*), 90 (1990) 291

Algae

Growth and ω3 fatty acids and amino acid composition of microalgae under different temperature regimes, 77 (1989) 337

Biomass production and variation in the biochemical profile (total protein, carbohydrates, RNA, lipids and fatty acids) of seven species of marine microalgae, 83 (1989) 17

Bacterial flora associated with a trophic chain consisting of microalgae, rotifers and turbot larvae: influence of bacteria on larval survival, 83 (1989) 237

Biochemical composition and growth of the marine microalga *Dunaliella tertiolecta* (Butcher) with different ammonium nitrogen concentrations as chloride, sulphate, nitrate and carbonate, 83 (1989) 289

An intensive continuous culture system using tubular photobioreactors for producing microalgae, 87 (1990) 381

Cyanobacteria in fish ponds, 88 (1990) 1

Continuous culture of the marine microalga *Tetraselmis* sp. — productivity analysis, 90 (1990) 75

Abundance, effects and management of epiphytism in intertidal cultures of *Gracilaria* (Rhodophyta) in southern Chile, 92 (1991) 7

Biochemical quality of marine unicellular algae with special emphasis on lipid composition. I. *Isochrysis galbana*, 97 (1991) 61

The evaluation of fresh algae and stored algal concentrates as a food source for Sydney rock oyster, *Saccostrea commercialis* (Iredale and Roughley), larvae, 99 (1991) 277

Alkalinity

Production of sunfish (*Lepomis* spp.) and channel catfish (*Ictalurus punctatus*) in acidified ponds, 94 (1991) 381

Alligator mississippiensis

Dietary energy sources for the American alligator, *Alligator mississippiensis* (Daudin), 89 (1990) 245

Lipid composition of fat trimmings from farm-raised alligator, 91 (1990) 339

Aluminium

Effects of acid water and aluminium on smolting and seawater tolerance in Atlantic salmon, *Salmo salar* (abstract), 82 (1989) 383

The localisation of aluminium in the tissues of the rainbow trout (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 323

Amberjack

see *Seriola dumerili*

Ammonia

The comparison of two simple protocols designed to initiate and stimulate ammonia oxidation in closed aquaculture systems, 88 (1990) 179

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

Anabas testudineus

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Anaesthetics

Triploidy induction in recently fertilized Atlantic salmon ova using anaesthetics, 78 (1989) 229

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

The physiologic effects of the anesthetic ketamine hydrochloride on two salmonid species, 90 (1990) 323

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Anarhichas lupus

Start-feeding and on-growing of wolffish (*Anarhichas lupus*) in the laboratory, 77 (1989) 221

New marine fish species for cold-water farming, 85 (1990) 235

Weaning of wild-caught common wolffish (*Anarhichas lupus*) larvae, 91 (1990) 77

Anguilla anguilla

Some properties of the blood of European eel (*Anguilla anguilla*) and the possible relationship with *Anguillicola crassus* infestations, 76 (1989) 203

Utilization of dietary protein by the eel (*Anguilla anguilla*): optimum dietary protein levels, 79 (1989) 53

The use of fish silage as an ingredient for eel fingerling nutrition, 80 (1989) 135

Mebendazole treatment of pseudodactylogyrosis in an intensive eel-culture system, 86 (1990) 139

The suitability of experimental inoculations with infective larvae of *Anguillicola crassus* and their effects on the growth and mortality of the European eel (*Anguilla anguilla*), 87 (1990) 111

European eel (*Anguilla anguilla* L.) farming technologies in Europe and in Japan: application of a comparative analysis, 87 (1990) 209

The effect of different infection levels with infective larvae of *Anguillicola crassus* on haematological parameters of European eel (*Anguilla anguilla*), 87 (1990) 243

Mebendazole treatment against *Pseudodactylogyrus* infections in eel (*Anguilla anguilla*), 91 (1990) 15

Experimental transmission of *Anguillicola crassus* (Nematoda, Dracunculoidea) larvae from infected prey fish to the eel *Anguilla anguilla*, 92 (1991) 115

Disposition of flumequine in plasma of European eel (*Anguilla anguilla*) after a single intramuscular injection, 99 (1991) 213

Anguilla japonica

Induction and development of bacterial gill disease in the eel (*Anguilla japonica*) experimentally infected with *Flexibacter columnaris*: pathological changes in the gill vascular structure and in cardiac performance, 78 (1989) 1

The effects of *Vibrio anguillarum* extracellular products on Japanese eels, 80 (1989) 201

Plasma kinetics of growth hormone in the Japanse eel, *Anguilla japonica*, 95 (1991) 179

Stimulation of pituitary gonadotropin and ovarian development by chronic administration of testosterone in female Japanese silver eel, *Anguilla japonica*, 96 (1991) 87

Anguillicola crassus

Some properties of the blood of European eel (*Anguilla anguilla*) and the possible relationship with *Anguillicola crassus* infestations, 76 (1989) 203

Detection of larvae of *Anguillicola crassus* (an eel swimbladder nematode) in freshwater fish species, 87 (1990) 103

The suitability of experimental inoculations with infective larvae of *Anguillicola crassus* and their effects on the growth and mortality of the European eel (*Anguilla anguilla*), 87 (1990) 111

The effect of different infection levels with infective larvae of *Anguillicola crassus* on

haematological parameters of European eel (*Anguilla anguilla*), 87 (1990) 243

Experimental transmission of *Anguillicola crassus* (Nematoda, Dracunculoidea) larvae from infected prey fish to the eel *Anguilla anguilla*, 92 (1991) 115

Anisakis simplex

A report on some metazoan parasites of wild marine salmon (*Salmo salar* L.) from the west coast of Norway with comments on their interactions with farmed salmon, 98 (1991) 311

Anorexia

Lipid malabsorption as a possible cause of anorexia in Zn-deficient juvenile common carp, *Cyprinus carpio*, 89 (1990) 327

Antibiotic resistance

Antibiotic resistance in Gram-negative bacteria from cultured catfish and aquaculture ponds, 99 (1991) 203

Antibiotics

The effect of feeding antibiotics on growth and body composition of carp (*Cyprinus carpio*), 77 (1989) 211

Effect of oxolinic acid on fecal microflora of goldfish (*Carassius auratus*), 80 (1989) 163

Degradation of oxytetracycline in seawater at two different temperatures and light intensities, and the persistence of oxytetracycline in the sediment from a fish farm, 83 (1989) 7

Transfer of the gene for neomycin resistance into goldfish, *Carassius auratus*, 85 (1990) 21

Apparent digestibility of canthaxanthin in rainbow trout: effect of dietary fat level, antibiotics and number of pyloric caeca, 99 (1991) 323

Aphanomyces astaci

Signal crayfish as vectors in crayfish plague in Britain, 86 (1990) 3

Aquaculture potential

Growth potentialities of the giant tropical prawn, *Macrobrachium rosenbergii* (De Man), in waste-heat discharge waters of a thermoelectric power station, 81 (1989) 111

Mytilus californianus, a new aquaculture species?, 81 (1989) 275

Preliminary investigation into rearing santer seabream *Cheimerius nufar* Ehrenberg, 1830 (Pisces: Sparidae), 81 (1989) 285

Propagation of the Manila clam (*Tapes semidecussatus*) in the effluent of fish aquaculture ponds in Eilat, Israel, 90 (1990) 113

Larval biology and mariculture of the angelwing clam, *Cyrtopleura costata*, 95 (1991) 257

Argopecten irradians

Nursery culture of the bay scallop, *Argopecten irradians irradians*, in suspended mesh nets, 99 (1991) 257

Argulus foliaceus

Rainbow trout culture failure in a small lake as a result of massive parasitosis related to careless fish introductions, 89 (1990) 123

Aristichthys nobilis

LHRH-a and domperidone-induced oocyte maturation and ovulation in bighead carp, *Aristichthys nobilis* (Richardson), 93 (1991) 87

Optimum dietary protein level for growth of bighead carp (*Aristichthys nobilis*) fry in a static water system, 93 (1991) 155

Growth and reproductive performance of bighead carp (*Aristichthys nobilis*) reared with or without feeding in floating cages, 96 (1991) 109

Artemia franciscana

Rapid growth of the brine shrimp, *Artemia franciscana* Kellogg, in xenic cultures of *Chlorella* sp. (Chlorophyceae), 81 (1989) 185

***Artemia* sp.**

The effect of breeding two prey organisms, nauplii of *Artemia* and rotifers, *Brachionus plicatilis* (Muller), upon survival and growth of larval marine shrimp, *Penaeus semisulcatus* (de Haan), 77 (1989) 11

Joint action of ammonia and nitrite on *Artemia* nauplii, 77 (1989) 329

Response of striped bass larvae fed brine shrimp from different sources containing different fatty acid compositions, 90 (1990) 49

Survival and growth of larval striped bass (*Morone saxatilis*) fed *Artemia* enriched with highly unsaturated fatty acids (HUFA), 99 (1991) 117

Artificial insemination

Cytological observations on fertilization in the Chinese fresh-water crab, *Eriocheir sinensis*, by artificial insemination (in vitro) and incubation, 76 (1989) 347

A new sperm diluent for the artificial insemination of rainbow trout (*Salmo gairdneri*), 83 (1989) 367

Ascorbic acid

Relationship between diet and immune response in Atlantic salmon (*Salmo salar* L.) after feeding various levels of ascorbic acid and omega-3 fatty acids, 98 (1991) 363

Ascorbic sulfate

Requirement and utilization of ascorbic acid and ascorbic sulfate in juvenile rainbow trout, 91 (1990) 317

Astacus astacus

Effect of indoor, culture conditions on maturation and fecundity of wild-caught female noble crayfish, *Astacus astacus* L., 81 (1989) 1

Predation on larvae of the noble crayfish, *Astacus astacus* L., 86 (1990) 155

The crayfish pathogen *Psorospermium haeckeli* activates the prophenoloxidase activating system of freshwater crayfish in vitro, 99 (1991) 225

Astacus leptodactylus

Isolation of *Saprolegnia parasitica* from the crayfish *Astacus leptodactylus*, 92 (1991) 121

Astaxanthin

Pigmentation of salmonids: interactions of astaxanthin and canthaxanthin on pigment deposition in rainbow trout, 79 (1989) 363

The effect of feeding astaxanthin to *Oreochromis niloticus* and *Colisa labiosa* on the histology of the liver, 79 (1989) 381

Dose response to astaxanthin and canthaxanthin pigmentation of rainbow trout fed various dietary carotenoid concentrations, 81 (1989) 69

Intestinal absorption of astaxanthin, plasma astaxanthin concentration, body weight, and metabolic rate as determinants of flesh pigmentation in salmonid fish, 90 (1990) 313

ATP

ATP in blood of rainbow trout determined by firefly bioluminiscent assay (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 325

Austopotamobius pallipes

Signal crayfish as vectors in crayfish plague in Britain, 86 (1990) 3

B

Bacteria

Bacterial flora associated with a trophic chain consisting of microalgae, rotifers and turbot larvae: influence of bacteria on larval survival, 83 (1989) 237

The comparison of two simple protocols designed to initiate and stimulate ammonia oxidation in closed aquaculture systems, 88 (1990) 179

The continuous feeding of turbot larvae, *Scophthalmus maximus*, and control of the bacterial environment of rotifers, 89 (1990) 139

Effect of oxolinic acid on bacterial flora and hatching success rate of rainbow trout, *Oncorhynchus mykiss*, eggs, 91 (1990) 205

Vaccination of Atlantic salmon (*Salmo salar* L.) against cold-water vibriosis — duration of protection and effect on growth rate, 92 (1991) 99

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Investigation of the relationship between the presence of a Gram-positive bacterial infection and summer mortality of the Pacific oyster, *Crassostrea gigas* Thunberg, 94 (1991) 1

The effect of three strains of lactic bacteria on the production rate of rotifers, *Brachionus plicatilis*, and their dietary value for larval turbot, *Scophthalmus maximus*, 96 (1991) 335

Antibiotic resistance in Gram-negative bacteria from cultured catfish and aquaculture ponds, 99 (1991) 203

Bacterial gill disease

Induction and development of bacterial gill disease in the eel (*Anguilla japonica*) experimentally infected with *Flexibacter columnaris*: pathological changes in the gill vascular structure and in cardiac performance, 78 (1989) 1

***Bacteroides* type A**

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Baculovirus penaei

Prevalence of *Baculovirus penaei* in experimentally infected white shrimp (*Penaeus vannamei*) relative to age, 87 (1990) 237

Barramundi

see *Lates calcarifer*

Bass

see *Dicentrarchus labrax*, *Lates calcarifer*, *Morone saxatilis*

Behaviour

The role of learning and stress in predator avoidance of hatchery-reared coho salmon (*Oncorhynchus kisutch*) juveniles, 76 (1989) 209

Cannibalism as a factor affecting the survival of intensively cultured sea bass (*Dicentrarchus labrax*) fingerlings, 77 (1989) 135

A behavioural method to test feeding responses of fish to pelleted diets, 79 (1989) 303

Time pattern analysis of swimming activity and heart rate under the influence of chloramphenicol in carp (*Cyprinus carpio* L.) and rainbow trout (*Salmo gairdneri* R.), 80 (1989) 315

Social control of growth in *Macrobrachium rosenbergii*. I. The effect of claw ablation on survival and growth communally raised prawns, 80 (1989) 325

Physiological and behavioural changes in the accelerated underyearling broodstock masu salmon, *Oncorhynchus masou*, during smoltification, 82 (1989) 21

Migratory behaviour of underyearling *Oncorhynchus tshawytscha* and survival to adulthood as related to prerelease gill (Na^+-K^+)-ATPase development, 82 (1989) 339

The use of a simulated redd for incubating Baltic salmon (*Salmo salar*) and trout (*Salmo trutta*) alevins, 83 (1989) 261

Phenotypic correlations among behaviour and growth variables in tilapia: implications for domestication selection, 85 (1990) 177

Quantitative male sexual behavior of guppy varieties (*Poecilia reticulata*) under competitive and non-competitive environments (abstract), 85 (1990) 319

Feeding stimulation in sea bream, *Pagrus major*, fed diets supplemented with Antarctic krill meals, 89 (1990) 43

Food consumption in 24 hours by Atlantic salmon (*Salmo salar* L.) in a sea cage, 90 (1990) 41

Effects of transfer to seawater on growth and feeding in Atlantic salmon smolts (*Salmo salar* L.), 94 (1991) 309

Growth, survival and cannibalism of cod juveniles (*Gadus morhua*): effects of feed type, starvation and fish size, 97 (1991) 41

The influence of wave frequency and wave height on the behaviour of rainbow trout (*Oncorhynchus mykiss*) in cages, 97 (1991) 143

Differences in life history and migratory behaviour between wild and hatchery-reared Atlantic salmon in nature, 98 (1991) 69

Spawning migratory behaviour of coastal-released Baltic salmon (*Salmo salar*). Effects on straying frequency and time of river ascent, 98 (1991) 79

The spawning behaviour of escaped farmed and wild adult Atlantic salmon (*Salmo salar* L.) in a northern Scottish river, 98 (1991) 97

Competition between hatchery and wild coho salmon (*Oncorhynchus kisutch*): genetic variation for agonistic behaviour in newly-emerged wild fry, 98 (1991) 161

Atlantic salmon in duoculture with Arctic charr: decreased aggression enhances growth and stocking density potential, 98 (1991) 355

Benthos

Environment and development of benthos in earthen trout ponds in Central Scotland, 97 (1991) 335

Benzocaine

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

Betaine

Choline–betaine requirements of rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 107

Bighead

see *Aristichthys nobilis*

Biotin

Studies on biotin supply to mirror carp (*Cyprinus carpio*, L.), 84 (1990) 49

Boleophthalmus pectinirostris

Studies on induced ovulation, embryonic development and larval rearing of the mudskipper (*Boleophthalmus pectinirostris*), 83 (1989) 375

Bonamia ostreae

The life cycle of the oyster pathogen *Bonamia ostreae* with a presumptive phase in the ovarian tissue of the European flat oyster, *Ostrea edulis*, 84 (1990) 189

The detection of *Bonamia ostreae* (Pichot et al. 1980) in frozen oysters (*Ostrea edulis* L.) and the effect of the parasite on condition, 97 (1991) 311

Bothriocephalus scorpii

Anthelminthic activity of praziquantel, niclosamide, netobimin and mebendazole against *Bothriocephalus scorpii* naturally infecting turbot (*Scophthalmus maximus*), 76 (1989) 199

Bovine somatotropin

Growth acceleration of coho salmon (*Oncorhynchus kisutch*) following oral administration of recombinant bovine somatotropin, 91 (1990) 197

Brachionus plicatilis

The effect of breeding two prey organisms, nauplii of *Artemia* and rotifers, *Brachionus plicatilis* (Muller), upon survival and growth of larval marine shrimp, *Penaeus semisulcatus* (de Haan), 77 (1989) 11

The effects of feeding rotifers (*Brachionus plicatilis typicus*) on the yield and growth of tilapia (*Oreochromis spilurus*) fry, 77 (1989) 353

The effect of enrichment diets on the fatty acid composition of the rotifer *Brachionus plicatilis*, 79 (1989) 157

Laboratory studies on the use of rotifers (*Brachionus plicatilis*) as start-feed for cod larvae (*Gadus morhua* L.), 79 (1989) 345

An intensive chemostat culture system for the production of rotifers for aquaculture, 81 (1989) 291

Bacterial flora associated with a trophic chain consisting of microalgae, rotifers and turbot larvae: influence of bacteria on larval survival, 83 (1989) 237

Larval rearing of the gudgeon, *Gobio gobio* L., under optimal conditions of feeding with the rotifer, *Brachionus plicatilis* O.F. Müller, 83 (1989) 305

Preparation of oils, enhanced in highly unsaturated fatty acid (HUFA) content, by low temperature crystallization separation, for rotifer (*Brachionus plicatilis*) enrichment, 88 (1990) 69

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

Factors affecting survival of rotifers (*Brachionus plicatilis* O.F. Müller) at 4°C, 91 (1990) 23

Cryopreservation of the euryhaline rotifer *Brachionus plicatilis* embryos, 91 (1990) 385

Viral infection associated with rotifer mortalities in mass culture, 93 (1991) 1

Selective feeding and prediction of food consumption in turbot larvae (*Scophthalmus maximus* L.) reared on the rotifer *Brachionus plicatilis* and natural zooplankton, 93 (1991) 35

The effect of three strains of lactic bacteria on the production rate of rotifers, *Brachionus plicatilis*, and their dietary value for larval turbot, *Scophthalmus maximus*, 96 (1991) 335

Influence of the biochemical composition of food on the biochemical composition of the rotifer *Brachionus plicatilis*, 97 (1991) 181

Brachydanio rerio

Homeobox sequences of Atlantic salmon (*Salmo salar*) and zebrafish (*Brachydanio rerio*), 85 (1990) 51

Family studies on genetic variability in growth and reproductive performance between and within test fish populations of the zebrafish, *Brachydanio rerio*, 85 (1990) 307

Bream

see *Acanthopagras schlegeli*, *Diplodus vulgaris*, *Pagrus major*, *Sparus auratus*

Breeding plans

Breeding plans for rainbow trout, 100 (1992) 73

C

Calcification

Anomalies de calcification chez la palourde japonaise *Ruditapes philippinarum*: caractérisation et comparaison des compositions en acides aminés de différentes parties de la coquille analysée par HPLC (Abnormal calcification in the shell of the Manila clam, *Ruditapes philippinarum*: characterization and comparison of amino acid content in different shell parts analysed by HPLC), 81 (1989) 169

Calcium

Responses of red drum (*Sciaenops ocellatus*) to calcium and magnesium concentrations in fresh and salt water, 76 (1989) 21

Dietary calcium, phytate and zinc interactions in channel catfish, 79 (1989) 259

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Caligus elongatus

The role of saithe, *Pollachius virens* L., as a host for the sea lice, *Lepeoptheirus salmonis* Krøyer and *Caligus elongatus* Nordmann, 89 (1990) 201

Cancer irroratus

Mass-culture of *Cancer irroratus* larvae (Crustacea, Decapoda): adaptation of a flow-through sea-water system, 97 (1991) 25

Cancer magister

A natural source of megalopae for the culture of dungeness crab, *Cancer magister* Dana, 86 (1990) 7

Cannibalism

Cannibalism as a factor affecting the survival of intensively cultured sea bass (*Dicentrarchus labrax*) fingerlings, 77 (1989) 135

Growth, survival and cannibalism of cod juveniles (*Gadus morhua*): effects of feed type, starvation and fish size, 97 (1991) 41

Canthaxanthin

Pigmentation of salmonids: interactions of astaxanthin and canthaxanthin on pigment deposition in rainbow trout, 79 (1989) 363

Dose response to astaxanthin and canthaxanthin pigmentation of rainbow trout fed various dietary carotenoid concentrations, 81 (1989) 69

Dynamics of dietary canthaxanthin utilization in sexually maturing female rainbow trout (*Salmo gairdneri* Rich.) compared to triploids, 83 (1989) 359

Apparent digestibility of canthaxanthin in rainbow trout: effect of dietary fat level, antibiotics and number of pyloric caeca, 99 (1991) 323

Carapace mineralization

The effect of water hardness on growth and carapace mineralization of juvenile freshwater prawns, *Macrobrachium rosenbergii* de Man, 95 (1991) 329

Carassius auratus

Lack of antigenicity of human chorionic gonadotropin in silver carp (*Hypophthalmichthys molitrix*) and goldfish (*Carassius auratus*), 78 (1989) 81

Effect of oxolinic acid on fecal microflora of goldfish (*Carassius auratus*), 80 (1989) 163

Studies on the evolution of bisexual reproduction in crucian carp (*Carassius auratus gibelio* Bloch), 84 (1990) 235

Transfer of the gene for neomycin resistance into goldfish, *Carassius auratus*, 85 (1990) 21

Carbohydrates

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. I. Utilization of digestible carbohydrates by sturgeon, 76 (1989) 97

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

Effect of digestible carbohydrates on protein/energy utilization and on glucose metabolism in rainbow trout (*Salmo gairdneri* R.), 79 (1989) 63

Biomass production and variation in the biochemical profile (total protein, carbohydrates, RNA, lipids and fatty acids) of seven species of marine microalgae, 83 (1989) 17

Hepatic and intestinal histology of juvenile white sturgeon fed different carbohydrates, 87 (1990) 349

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

Effects of meal frequency on growth performance of hybrid tilapia, *Oreochromis niloticus* × *O. aureus*, fed different carbohydrate diets, 92 (1991) 343

Apparent digestibility of diets with various carbohydrate levels and the growth response of *Penaeus monodon*, 95 (1991) 89

The effect of dietary carbohydrate on the stress response in cod (*Gadus morhua*), 95 (1991) 319

Effects of dietary lipid and carbohydrate levels on growth and body composition of juvenile red drum, *Sciaenops ocellatus*, 97 (1991) 383

Carbon

Spatial and temporal variation of water column measurements in aquaculture ponds, 78 (1989) 253

Carcass composition

Prediction of carcass composition in Atlantic salmon by computerized tomography, 99 (1991) 35

Cardiac–somatic index

The effect of constant 12-hour light and simulated natural light on growth, cardiac–somatic index and smolting in the Atlantic salmon (*Salmon salar*), 82 (1989) 127

Carnitine

Preliminary study on the effect of short-term carnitine treatment on nucleic acids and protein metabolism in sea bass (*Dicentrarchus labrax* L.) fry, 87 (1990) 85

Carotenoids

Pigmentation of prawn (*Penaeus japonicus*) with carotenoids. I. Effect of dietary astaxanthin, β-carotene and canthaxanthin on pigmentation, 87 (1990) 323

Absorption and distribution of ^{14}C-labeled canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 87 (1990) 331

Effects of dietary canthaxanthin level and lipid level on apparent digestibility coefficients for canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 88 (1990) 351

Response to carotenoids by rainbow trout in the sea: resorption and metabolism of dietary astaxanthin and canthaxanthin, 91 (1990) 153

Utilization of microalgal astaxanthin by rainbow trout (*Oncorhynchus mykiss*), 94 (1991) 79

Flesh pigmentation of rainbow trout fed astaxanthin or canthaxanthin at different feeding rates in freshwater and saltwater, 95 (1991) 289

Pigmentation of rainbow trout with astaxanthin at different water temperatures, 97 (1991) 203

Pigmentation of rainbow trout, 100 (1992) 209

Carp, general

Effective population size and rate of inbreeding in aquaculture of Indian major carps, 85 (1990) 293

Study of clones of commercial fish (abstract), 85 (1990) 327

Production of all-female carp and its applications in fish cultivation (abstract), 85 (1990) 327

Cassava leaf meal

The nutritive value of cassava leaf meal in pelleted feed for Nile tilapia, 83 (1989) 45

Catfish

see *Chrysichthys nigrodigitatus*, *Clarias* spp., *Heteropneustes fossilis*, *Ictalurus punctatus*, *Orconectes virilis*

Catla catla

Preliminary observations on induced polyploidy in Indian major carps, *Labeo rohita* (Ham.) and *Catla catla* (Ham.), 87 (1990) 279

Quantitative essential amino acid requirements for growth of catla, *Catla catla* (Hamilton), 96 (1991) 281

On the comparative karyomorphology of three Indian major carps, *Catla catla* (Hamilton), *Labeo rohita* (Hamilton) and *Cirrhinus mrigala* (Hamilton), 97 (1991) 7

Catunaregam spinosa

Piscicidal plants of Nepal: ripe fruit of *Catunaregam spinosa* (Thunb.) (Rubiaceae) and leaves of *Polygonum hydropiper* L. (Polygonaceae) as fish poisons, 78 (1989) 293

Cellulose

Effects of dietary α-cellulose levels on the juvenile tilapia, *Oreochromis mossambicus* (Peters), 91 (1990) 311

Chaetoceros gracilis

Chaetoceros gracilis as the exclusive feed for the larvae and postlarvae of the shrimp *Metapenaeus ensis*, 83 (1989) 281

***Chaetoceros* spp.**

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Channa gachua

Combined effects of quality and quantity of food on growth and body composition of the air-breathing fish *Channa gachua* (Ham.), 76 (1989) 79

Channa punctatus

Effects of constant photoperiod–temperature regimes on ovarian activity during the annual reproductive cycle in the murrel, *Channa punctatus* (Bloch), 96 (1991) 383

Chanos chanos

Milkfish (*Chanos chanos*) fingerling production in freshwater ponds with the use of natural and artificial feeds, 77 (1989) 307

Tolerance level and histopathological response of milkfish (*Chanos chanos*) fingerlings to formalin, 78 (1989) 135

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

An economic analysis of the modular pond system of milkfish production in the Philippines, 83 (1989) 249

Mercury levels in the sediment, water, and selected finfishes of Laguna Lake, The Philippines, 84 (1990) 277

Release rates of steroids from silastic tube implants in vitro and in vivo with juvenile milkfish, *Chanos chanos*, 87 (1990) 91

Quantitative lysine requirement of milkfish (*Chanos chanos*) juveniles, 87 (1990) 341

Survival and growth of milkfish (*Chanos chanos*) larvae in the hatchery. I. Feeding, 89 (1990) 233

Studies on the digestive lipases of milkfish, *Chanos chanos*, 89 (1990) 315

Evaluation of different supplemental feeds for milkfish (*Chanos chanos*) reared in brackishwater ponds, 93 (1991) 177

Arginine and threonine requirements of milkfish (*Chanos chanos* Forsskal) juveniles, 93 (1991) 313

Lipid and fatty acid composition of brackishwater- and freshwater-reared milkfish (*Chanos chanos* Forskal), 96 (1991) 241

Economic analysis of an integrated milkfish broodstock and hatchery operation as a public enterprise, 99 (1991) 235

Char

see *Salvelinus* spp.

Cheimerius nufar

Preliminary investigation into rearing santer seabream *Cheimerius nufar* Ehrenberg, 1830 (Pisces: Sparidae), 81 (1989) 285

Cherax destructor

The effect of yield and price variability on the economic feasibility of freshwater crayfish *Cherax destructor* Clark (Decapoda: Parastacidae) production in Australia, 81 (1989) 225

Cherax tenuimanus

Growth and pigmentation of marron (*Cherax tenuimanus*) fed a reference ration supplemented with the microalga *Dunaliella salina*, 99 (1991) 285

Chlamys islandica

The Iceland scallop, *Chlamys islandica* (O.F. Müller) in Breidafjördur, west Iceland. I. Spat collection and growth during the first year, 97 (1991) 13

Chlamys varia

Triploidy induction in the black scallop (*Chlamys varia* L.) and its effect on larval growth and survival, 77 (1989) 103

Chloramphenicol

Time pattern analysis of swimming activity and heart rate under the influence of chloramphenicol in carp (*Cyprinus carpio* L.) and rainbow trout (*Salmo gairdneri* R.), 80 (1989) 315

***Chlorella* sp.**

Rapid growth of the brine shrimp, *Artemia franciscana* Kellogg, in xenic cultures of *Chlorella* sp. (Chlorophyceae), 81 (1989) 185

Chlorobutanol

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

Chlorophyll

Water quality conditions and particulate chlorophyll α of new intensive seawater fishponds in Eilat, Israel: daily and diel variations, 80 (1989) 63

Cholesterol

Combined effects of dietary phosphatidylcholine and cholesterol on the growth, survival and body lipid composition of marine shrimp, *Penaeus penicillatus*, 96 (1991) 167

Choline

Choline requirement of hatchery-produced juvenile white sturgeon (*Acipenser transmontanus*), 78 (1989) 183

Choline–betaine requirements of rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 107

Chromium

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

Chromobacterium violaceum

The ingestion of bacteria in suspension by the tilapia *Oreochromis niloticus*, 81 (1989) 373

Chrysichthys nigrodigitatus

Influence of salinity on survival of fingerlings of the estuarine catfish *Chrysichthys nigrodigitatus* (Lacépède), 99 (1991) 157

Chrysophrys major

Metabolic and osmoregulatory changes during temperature acclimation in the red sea bream, *Chrysophrys major*: implications for its culture in the subtropics, 87 (1990) 197

Cichlasoma urophthalmus

Vitamin C requirement of the Mexican native cichlid *Cichlasoma urophthalmus* (Gunther), 86 (1990) 409

The effects of salinity on the survival and growth of juvenile *Cichlasoma urophthalmus*, 91 (1990) 65

Cirrhinus mrigala

On the comparative karyomorphology of three Indian major carps, *Catla catla* (Hamilton), *Labeo rohita* (Hamilton) and *Cirrhinus mrigala* (Hamilton), 97 (1991) 7

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Clam

see *Mercenaria mercenaria*, *Tapes* spp., *Tridacna* spp.

Clarias batrachus

Piscicidal plants of Nepal: toxicity to air-breathing predatory fish (*Ophiocephalus punctatus*, *Clarias batrachus* and *Heteropneustes fossilis*) and the duration of risk to cultivated fish, 78 (1989) 285

Induction of maturation and ovulation by pimozide–LHRH analogue treatment and resulting high quality egg production in the Asian catfish, *Clarias batrachus* (L.), 83 (1989) 193

Hatchery techniques for egg and fry production of *Clarias batrachus* (Linnaeus), 89 (1990) 9

Triploidy induced by cold shock in the Asian catfish, *Clarias batrachus* (L.), 94 (1991) 377

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Clarias fuscus

The effects of water exchange rate and density on yield of the walking catfish, *Clarias fuscus*, 78 (1989) 267

Clarias gariepinus

Growth performance and nutrient utilization of fingerling *Clarias gariepinus* (Burchell) fed raw and cooked soybean diets, 76 (1989) 119

The effect of different protein levels and temperatures on feed utilization, growth and body composition of *Clarias gariepinus* (Burchell 1822), 76 (1989) 293

Weaning time in *Clarias gariepinus* (Burchell) larvae, 83 (1989) 81

The chemical nature of sex attracting pheromones from the seminal vesicle of the African catfish, *Clarias gariepinus*, 83 (1989) 137

Steroid glucuronides of the seminal vesicle as olfactory stimuli in African catfish, *Clarias gariepinus*, 83 (1989) 153

Induction of gonadotropin release and ovulation by pheromones in the African catfish, *Clarias gariepinus*, 83 (1989) 167

Effects of 17α-methyltestosterone and 11β-hydroxyandrostenedione on gonad differentiation in the African catfish, *Clarias gariepinus*, 83 (1989) 179

Karyological analysis of three strains of the African catfish, *Clarias gariepinus* (Clariidae), used in aquaculture, 87 (1990) 271

Pheromonal stimulation of ovarian recrudescence in hatchery-raised adult African catfish, *Clarias gariepinus*, 90 (1990) 369

Male-induced shifts in pattern of vitellogenesis during puberty and recrudescence of female African catfish, *Clarias gariepinus*, 94 (1991) 99

Plasma androgen levels in castrated adult male African catfish, *Clarias gariepinus*, in relation to pheromonal stimulation of ovarian growth in pubertal conspecifics, 97 (1991) 97

Clostridium

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Clupea harengus

Lethal and sub-lethal effects of the salmon delousing agent dichlorvos on the larvae of the lobster (*Homarus gammarus* L.) and herring (*Clupea harengus* L.), 98 (1991) 331

Cobalt

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

Cobalt chloride

Growth responses of *Tilapia zillii* fed diets containing various levels of ascorbic acid and cobalt chloride, 88 (1990) 329

Cod

see *Gadus morhua*

Cold storage

Cold storage effects on setting of larvae of the Sydney rock oyster, *Saccostrea commercialis*, and the Pacific oyster, *Crassostrea gigas*, 92 (1991) 179

Cold tolerance

Cold tolerance in maternal mouthbrooding tilapias: phenotypic variation among species and hybrids, 85 (1990) 271

Colisa labiosa

The effect of feeding astaxanthin to *Oreochromis niloticus* and *Colisa labiosa* on the histology of the liver, 79 (1989) 381

Colour pattern

Colour pattern inheritance in three domesticated varieties of guppy, *Poecilia reticulata* (abstract), 85 (1990) 320

Inheritance of white coloration of the prismatic layer of shells in the Japanese pearl oyster, *Pinctada fucata martensii*, and its importance in the pearl culture industry (abstract), 85 (1990) 331

Conversion efficiency

The effect of salinity and ration level on growth rate and conversion efficiency of Atlantic salmon (*Salmo salar*) smolts, 82 (1989) 173

Copper

Effects of various levels of dietary copper and zinc on channel catfish, 76 (1989) 127

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Copper levels in the muscle and liver tissue of farmed chinook salmon, *Oncorhynchus tshawytscha*, 99 (1991) 105

Concentrations of total dissolved copper in and near a copper-treated salmon net pen, 99 (1991) 269

Copper sulfate

Acute toxicity of formalin and copper sulfate to striped bass fingerlings held in varying salinities, 87 (1990) 255

Coracinus capensis

Sex determination of live galjoen (*Coracinus capensis* Cuvier) using a biochemical technique, 86 (1990) 283

Coregonus albula

The gastric evacuation rate of vendace (*Coregonus albula* L.) larvae predating on zooplankters in the laboratory, 96 (1991) 343

Coregonus clupeaformis

Intensive culture of lake whitefish (*Coregonus clupeaformis*) from larvae to yearling size using dry feeds, 96 (1991) 255

Coregonus lavaretus

Ascorbic acid status in the early life of whitefish (*Coregonus lavaretus* L.), 84 (1990) 61

Development of dry food for larvae of *Coregonus lavaretus* L. I. Growth, food digestion and fat absorption, 91 (1990) 101

Development of dry food for larvae of *Coregonus lavaretus* L. II. Liver histology, 91 (1990) 117

Coregonus muksun

Fatty acid composition of *Coregonus muksun* Pallas: changes during incubation, hatching, feeding and starvation, 79 (1989) 163

Cortisol

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Selection for high and low cortisol stress response in Atlantic salmon (*Salmo salar*) and rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 53

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Rainbow trout husbandry: management of the stress response, 100 (1992) 125

Coryphaena hippurus

The amino acid and fatty acid compositions of selected tissues of the dolphin fish (*Coryphaena hippurus*) and their nutritional implications, 80 (1989) 285

Fatty acid analysis of fish eggs without solvent extraction, 80 (1989) 371

Survival and bioconversion of *n*-3 fatty acids during early development of dolphin (*Coryphaena hippurus*) larvae fed oil-enriched rotifers, 89 (1990) 273

Cotton seed meal

Long-term evaluation of cotton seed meal as a protein source for Nile tilapia, *Oreochromis niloticus* (Linn.), 84 (1990) 315

Crab

see *Cancer* spp.

Crassadoma gigantea

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Crassostrea cucullata

Growth of *Crassostrea cucullata* Born (Bivalvia) at different levels in the intertidal zone, 88 (1990) 303

Crassostrea gigas

Gametogenesis of the European flat oyster (*Ostrea edulis*) and Pacific oyster (*Crassostrea gigas*) in warm water in Israel, 80 (1989) 343

Production model for suspended culture of the Pacific oyster, *Crassostrea gigas*, 87 (1990) 35

Genetic drift and effective population sizes of hatchery-propagated stocks of the Pacific oyster, *Crassostrea gigas*, 88 (1990) 21

Biochemical composition and energy reserves in *Crassostrea gigas* exposed to different levels of nutrition, 90 (1990) 157

Cooling and freezing tolerances in embryos of the Pacific oyster, *Crassostrea gigas*: methanol and sucrose effects, 92 (1991) 43

Cold storage effects on setting of larvae of the Sydney rock oyster, *Saccostrea commercialis*, and the Pacific oyster, *Crassostrea gigas*, 92 (1991) 179

The Pacific oyster, *Crassostrea gigas*, as a biological filter for a marine fish aquaculture pond, 92 (1991) 187

Nutritional value of spray-dried *Tetraselmis suecica* for juvenile bivalves, 92 (1991) 207

Polyculture of the Pacific oyster, *Crassostrea gigas* (Thunberg), with chinook salmon, *Oncorhynchus tshawytscha*, 92 (1991) 313

Influence of *Crassostrea gigas* mixed with *Ostrea edulis* on the incidence of *Bonamia* disease, 93 (1991) 263

Survival and aspects of metabolism in oysters, *Crassostrea gigas*, during and after prolonged air storage, 93 (1991) 389

Investigation of the relationship between the presence of a Gram-positive bacterial infection and summer mortality of the Pacific oyster, *Crassostrea gigas* Thunberg, 94 (1991) 1

Crassostrea rhizophorae

Predation on cultivated oysters, *Crassostrea rhizophorae* (Guilding), by the polyclad turbellarian flatworm, *Stylochus (Stylochus) frontalis* Verrill, 88 (1990) 145

Crassostrea tulipa

Cryopreservation of the spermatozoa of *Crassostrea tulipa* and three other oysters, 97 (1991) 259

Crassostrea virginica

Growth rate of two diverse populations of American oysters, *Crassostrea virginica*, and their reciprocal crosses (abstract), 85 (1990) 327

Growth of tray-cultured oysters (*Crassostrea virginica* Gmelin) in Chesapeake Bay, 87 (1990) 289

Influence of selective breeding, geographic origin, and disease on gametogenesis and sex ratios of oysters, *Crassostrea virginica*, exposed to the parasite *Haplosporidium nelsoni* (MSX), 88 (1990) 285

Crawfish (Crayfish)

see *Astacus* spp., *Cherax* sp., *Pacifastacus lenuisculus*, *Procambarus* spp.

Crocodilus niloticus

The effect of direct sunlight and temperature on growth and survival of captive young Nile crocodiles, *Crocodilus niloticus*, 94 (1991) 291

Crustaceans, general

Freshwater prawn culture: a review, 88 (1990) 99

Ctenopharyngodon idella

Effects of diet on consumption, growth and fatty acid composition in young grass carp, 81 (1989) 47

Egg fertility, early development and survival from crosses of diploid female × triploid male grass carp (*Ctenopharyngodon idella*), 86 (1990) 111

Problems associated with tetraploid induction and survival in grass carp, *Ctenopharyngodon idella*, 88 (1990) 273

Effects of diet and temperature on food consumption, growth rate and tissue fatty-acid composition of triploid grass carp, 88 (1990) 313

Studies on the digestive enzymes of grass carp, *Ctenopharyngodon idella* (Val.), 92 (1991) 21

Comparison of three live foods and two dry diets for intensive culture of grass carp and bighead carp larvae, 96 (1991) 269

Culture methods — algae

Continuous culture of the marine microalga *Tetraselmis* sp. — productivity analysis, 90 (1990) 75

Culture methods — crustaceans

Intensive shrimp growout trials in a round pond, 76 (1989) 215

Culture of *Penaeus monodon* in an intensified system in Taiwan, 77 (1989) 319

Effect of temperature on survival, growth and feed intake of postlarval spiny lobsters, *Panulirus argus*, 90 (1990) 1

Culture methods — fish

Extending the limits of fish production in manured static-water ponds, 89 (1990) 27

Possibilities of sturgeon culture in Central Europe, 89 (1990) 101

The effect of fish density and feeding regimes on individual growth rate and mortality in rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 225

Performance of rainbow trout and Snake River cutthroat trout reared in oxygen-supersaturated water, 90 (1990) 251

Factors affecting intensive larval rearing of striped mullet, *Mugil cephalus*, 91 (1990) 281

Relationships among nutrient inputs, water nutrient concentrations, primary production, and yield of *Oreochromis niloticus* in ponds, 92 (1991) 323

Production of sunfish (*Lepomis* spp.) and channel catfish (*Ictalurus punctatus*) in acidified ponds, 94 (1991) 381

Effects of water exchange on *Oreochromis niloticus* (L.) growth and water quality in outdoor concrete tanks, 95 (1991) 67

Continuous light increases growth rate of Atlantic salmon (*Salmo salar* L.) postsmolts in sea cages, 95 (1991) 281

Intensive culture of lake whitefish (*Coregonus clupeaformis*) from larvae to yearling size using dry feeds, 96 (1991) 255

Culture methods — molluscs

Larval and juvenile rearing of black-lip pearl oyster, *Pinctada margaritifera* (Linnaeus), 76 (1989) 43

Pilot hatchery for the queen conch, *Strombus gigas*, shows potential for inexpensive and appropriate technology for larval aquaculture in the Bahamas, 77 (1989) 277

Propagation of the Manila clam (*Tapes semidecussatus*) in the effluent of fish aquaculture ponds in Eilat, Israel, 90 (1990) 113

Mussel culture in Galicia (N.W. Spain), 94 (1991) 263

Optimum stocking density for nursery culture of Sydney rock oysters (*Saccostrea commercialis*), 96 (1991) 7

Culture methods — zooplankton

A technique for the intensive culture of *Paramecium* (group *caudatum*; Parameciidae) as a first food for ornamental fish fry, 95 (1991) 189

Cyanobacteria

Cyanobacteria in fish ponds, 88 (1990) 1

Cynoscion nebulosus

Dietary administration of an LHRH analogue induces spawning of spotted seatrout (*Synoscion nebulosus*), 80 (1989) 363

Cyprinids, general

Stochastic model of carp fingerling growth, 91 (1990) 87

The effect of manure application rate and frequency upon fish yield in integrated fish farm ponds, 91 (1990) 233

Microcomputer spreadsheets for the implementation of geographic information systems in aquaculture: a case study on carp in Pakistan, 92 (1991) 199

An evaluation of the growth of Indian and Chinese major carps in relation to the dietary protein content, 92 (1991) 237

Plankton intake as a function of body weight by common carp fry in different feeding conditions, 93 (1991) 21

Cyprinus carpio

Growth improvement in carp, *Cyprinus carpio* (Linnaeus), sterilized with 17α-methyltestosterone, 76 (1989) 157

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

The effect of feeding antibiotics on growth and body composition of carp (*Cyprinus carpio*), 77 (1989) 211

Supplementation of methionine to soy flour diets for fingerling carp, *Cyprinus carpio*, 77 (1989) 373

Observations on a possible pheromonal stimulation of milt production in carp (*Cyprinus carpio* L.), 77 (1989) 387

Effects of oral administration of 17α-methyltestosterone and 17β-estradiol on gonadal development in common carp, *Cyprinus carpio* L., 78 (1989) 349

Effects of metformin on plasma insulin, glucose metabolism and protein synthesis in the common carp (*Cyprinus carpio* L.), 80 (1989) 175

Time pattern analysis of swimming activity and heart rate under the influence of chloramphenicol in carp (*Cyprinus carpio* L.) and rainbow trout (*Salmo gairdneri* R.), 80 (1989) 315

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Studies on biotin supply to mirror carp (*Cyprinus carpio*, L.), 84 (1990) 49

The effects of inbreeding in gynogenetic carp, *Cyprinus carpio* L., and the production of homozygous and heterozygous clones (abstract), 85 (1990) 332

Comparison of electrophoretic allele frequencies and genetic variability of common carp stocks from Indonesia and Japan, 88 (1990) 263

Lipid malabsorption as a possible cause of anorexia in Zn-deficient juvenile common carp, *Cyprinus carpio*, 89 (1990) 327

Gynogenesis in common carp (*Cyprinus carpio* L.). II. The production of homozygous gynogenetic clones and F_1 hybrids, 92 (1991) 127

Supplementation of artificial diets for common carp (*Cyprinus carpio* L.) larvae, 93 (1991) 167

Genetic testing of common carp in cages. 1. Communal versus separate testing, 95 (1991) 215

Survival and integration rate of channel catfish and common carp embryos microinjected with DNA at various developmental stages, 99 (1991) 249

Cyrtopleura costata

Larval biology and mariculture of the angelwing clam, *Cyrtopleura costata*, 95 (1991) 257

Cytochalasin B

Induced triploidy in the European flat oyster, *Ostrea edulis* L., 90 (1990) 229

D

Daphnia magna

Experiences with wastewater-cultured *Daphnia* in the start-feeding of rainbow trout (*Salmo gairdneri*), 79 (1989) 337

Dentex dentex

Preliminary studies on reproduction and larval rearing of common dentex, *Dentex dentex* (Linaeus 1758), 77 (1989) 75

Desmoltification

Influence of the date and body size at smoltification and subsequent growth rate and photoperiod on desmoltification in underyearling masu salmon (*Oncorhynchus masou*), 86 (1990) 209

Dicentrarchus labrax

Studies on nutrient digestibility in European sea bass (*Dicentrarchus labrax*). 1. Methodological aspects concerning faeces collection, 77 (1989) 61

Studies on nutrient digestibility in European sea bass (*dicentrarchus labrax*). 2. Effect of sodium alginate on protein and lipid digestibility, 77 (1989) 71

Cannibalism as a factor affecting the survival of intensively cultured sea bass (*Dicentrarchus labrax*) fingerlings, 77 (1989) 135

Influence des anomalies de développement de la vessie natatoire sur la mortalité de *Dicentrarchus labrax* au cours du sevrage (The effects of abnormalities in the development of the swim bladder on the mortality of *Dicentrarchus labrax* during weaning), 78 (1989) 55

The effect of modifications in photoperiod on spawning time, ovarian development and egg quality in the sea brass (*Dicentrarchus labrax* L.), 81 (1989) 351

Preliminary study on the effect of short-term carnitine treatment on nucleic acids and protein metabolism in sea bass (*Dicentrarchus labrax* L.) fry, 87 (1990) 85

Energy sources during the early larval development of the European sea bass, *Dicentrarchus labrax* (L.), 87 (1990) 361

Isolation and characterization of an *Edwardsiella* sp. strain, causative agent of mortalities in sea bass (*Dicentrarchus labrax*), 88 (1990) 213

Reversibility of artificial feed-induced hepatocyte disturbances in cultured juvenile sea bass (*Dicentrarchus labrax*): an ultrastructural study, 88 (1990) 363

Annual and daily variations of plasma cortisol in sea bass, *Dicentrarchus labrax* L., 91 (1990) 171

Changes with different diets in plasma enzymes (GOT, GPT, LDH, ALP) and plasma lipids (cholesterol, triglycerides) of sea-bass (*Dicentrarchus labrax*), 93 (1991) 63

Optimal dietary lysine levels for growth and protein utilisation of fingerling sea bass (*Dicentrarchus labrax* L.) fed semipurified diets, 95 (1991) 297

Condition indices and RNA:DNA ratio in overwintering European sea bass, *Dicentrarchus labrax*, in salt marshes along the Atlantic coast of France, 96 (1991) 367

Viral infection (picorna-like virus) associated with mass mortalities in hatchery-reared sea-bass (*Dicentrarchus labrax*) larvae and juveniles, 97 (1991) 109

Osteological abnormalities in laboratory reared sea-bass (*Dicentrarchus labrax*) fingerlings, 97 (1991) 169

Influence of starvation at low temperatures on utilization of energy reserves, appetite recovery and growth character in sea bass, *Dicentrarchus labrax*, 99 (1991) 167

Organogenesis of the exocrine pancreas in the sea bass, *Dicentrarchus labrax* L., reared extensively and intensively, 99 (1991) 339

Dichlorvos

A study of dichlorvos (Nuvan; 2,2 dichloroethenyl dimethyl phosphate), a therapeutic agent for the treatment of salmonids infected with sea lice (*Lepeophtheirus salmonis*), 90 (1990) 101

Evaluation of the dispersion of treatment solutions of dichlorvos from marine salmon pens, 95 (1991) 15

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

Lethal and sub-lethal effects of the salmon delousing agent dichlorvos on the larvae of the lobster (*Homarus gammarus* L.) and herring (*Clupea harengus* L.), 98 (1991) 331

Diethylstilbestrol

Feminization of *Oreochromis mossambicus* by the administration of diethylstilbestrol, 80 (1989) 337

***Diphyllobothrium* sp.**

Diphyllobothrium sp. infections in freshwater-reared Atlantic salmon (*Salmo salar* L.), 95 (1991) 7

Diplodus puntazzo

Intergeneric hybridization in Sparidae. 1. *Sparus aurata* ♀ × *Diplodus puntazzo* ♂ and *Sparus aurata* ♀ × *Diplodus vulgaris* ♂, 86 (1990) 369

Diplodus vulgaris

Intergeneric hybridization in Sparidae. 1. *Sparus aurata* ♀ × *Diplodus puntazzo* ♂ and *Sparus aurata* ♀ × *Diplodus vulgaris* ♂, 86 (1990) 369

Diseases and their control — crustaceans

Characterization of male reproductive tract degenerative syndrome in captive penaeid shrimp (*Penaeus setiferus*), 78 (1989) 365

A preliminary study on the aerobic heterotrophic bacterial flora in giant freshwater prawn, *Macrobrachium rosenbergii*, hatcheries in Malaysia, 81 (1989) 213

Signal crayfish as vectors in crayfish plague in Britain, 86 (1990) 3

Prevalence of *Baculovirus penaei* in experimentally infected white shrimp (*Penaeus vannamei*) relative to age, 87 (1990) 237

Predation on cultivated oysters, *Crassostrea rhizophorae* (Guilding), by the polyclad turbellarian flatworm, *Stylochus (Stylochus) frontalis* Verrill, 88 (1990) 145

Inhibition of prawn pathogenic *Vibrio* spp. by a commercial spray-dried preparation of *Tetraselmis suecica*, 90 (1990) 389

Occurrence of luminous bacterial disease of *Penaeus monodon* larvae in the Philippines, 91 (1990) 1

Isolation of *Saprolegnia parasitica* from the crayfish *Astacus leptodactylus*, 92 (1991) 121

Detection of *Vibrio parahaemolyticus* biotype *alginolyticus* in penaeid shrimps using an amplified enzyme-linked immunosorbent assay, 93 (1991) 101

The occurrence, development and histopathology of monodon baculovirus in *Penaeus monodon* in southern Thailand, 96 (1991) 205

The crayfish pathogen *Psorospermium haeckeli* activates the prophenoloxidase activating system of freshwater crayfish in vitro, 99 (1991) 225

Diseases and their control — fish

Vibriosis outbreak among cultured seabream (*Acanthopagrus cuvieri*) broodstock in Kuwait, 76 (1989) 189

Anthelminthic activity of praziquantel, niclosamide, netobimin and mebendazole against *Bothriocephalus scorpii* naturally infecting turbot (*Scophthalmus maximus*), 76 (1989) 199

Some properties of the blood of European eel (*Anguilla anguilla*) and the possible relationship with *Anguillicola crassus* infestations, 76 (1989) 203

Induction and development of bacterial gill disease in the eel (*Anguilla japonica*) experimentally infected with *Flexibacter columnaris*: pathological changes in the gill vascular structure and in cardiac performance, 78 (1989) 1

Influence des anomalies de développement de la vessie natatoire sur la mortalité de *Dicentrarchus labrax* au cours du sevrage (The effects of abnormalities in the development of the swim bladder on the mortality of *Dicentrarchus labrax* during weaning), 78 (1989) 55

Tolerance level and histopathological response of milkfish (*Chanos chanos*) fingerlings to formalin, 78 (1989) 135

Effect of oxolinic acid on fecal microflora of goldfish (*Carassius auratus*), 80 (1989) 163

The effects of *Vibrio anguillarum* extracellular products on Japanese eels, 80 (1989) 201

Loma salmonae (Protozoa: Microspora) infections in seawater reared coho salmon *Oncorhynchus kisutch*, 80 (1989) 211

Lower prevalence of fin erosion in mature than in immature Atlantic salmon (*Salmo salar*) parr, 80 (1989) 223

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Vaccination against *Vibrio salmonicida*. The effect of different routes of administration and of revaccination, 83 (1989) 1

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

A survey on different procedures used for vaccinating salmonids against vibriosis in Norwegian fish-farming, 83 (1989) 217

A cost-effectiveness study on three different methods of vaccination against vibriosis in salmonids, 83 (1989) 227

A field trial of vaccination against cold-water vibriosis in Atlantic salmon (*Salmo salar* L.), 84 (1990) 1

Plasma concentrations of flumequine after intra-arterial and oral administration to rainbow trout (*Salmo gairdneri*) exposed to low water temperatures, 84 (1990) 355

Temperature-related absorption and excretion of oxytetracycline in rainbow trout (*Salmo gairdneri* R.), 84 (1990) 363

Transfer of the gene for neomycin resistance into goldfish, *Carassius auratus*, 85 (1990) 21

Genetics of resistance to disease in fishes, 85 (1990) 83

Epizootics of Malaysian cultured freshwater pond fishes by *Piscinoodinium pillulare* (Schaperclaus 1954) Lom 1981, 86 (1990) 127

Mebendazole treatment of pseudodactylogyrosis in an intensive eel-culture system, 86 (1990) 139

Utilization of antibacterial drugs in salmonid farming in Norway during 1980–1988, 86 (1990) 347

Residues of oxytetracycline in wild fish and sediments from fish farms, 86 (1990) 359

Initial swim bladder inflation in intensively reared Australian bass larvae, *Macquaria novemaculeata* (Steindachner) (Perciformes: Percichthyidae), 86 (1990) 431

Detection of larvae of *Anguillicola crassus* (an eel swimbladder nematode) in freshwater fish species, 87 (1990) 103

The suitability of experimental inoculations with infective larvae of *Anguillicola crassus* and their effects on the growth and mortality of the European eel (*Anguilla anguilla*), 87 (1990) 111

The effect of different infection levels with infective larvae of *Anguillicola crassus* on haematological parameters of European eel (*Anguilla anguilla*), 87 (1990) 243

Quantitative and qualitative differences in the antibodies produced by immunosuppressed rainbow trout, *Oncorhynchus mykiss*, to *Aeromonas salmonicida*, 88 (1990) 205

Isolation and characterization of an *Edwardsiella* sp. strain, causative agent of mortalities in sea bass (*Dicentrarchus labrax*), 88 (1990) 213

Rainbow trout culture failure in a small lake as a result of massive parasitosis related to careless fish introductions, 89 (1990) 123

The role of saithe, *Pollachius virens* L., as a host for the sea lice, *Lepeoptheirus salmonis* Krøyer and *Caligus elongatus* Nordmann, 89 (1990) 201

Virus-like particles in erythrocytes of coho salmon (*Oncorhynchus kisutch*), 89 (1990) 377

A study of dichlorvos (Nuvan; 2,2 dichloroethenyl dimethyl phosphate), a therapeutic agent for the treatment of salmonids infected with sea lice (*Lepeophtheirus salmonis*), 90 (1990) 101

Epitheliocystis disease in the cultured amberjack, *Seriola dumerili* Risso (Carangidae), 90 (1990) 197

Distended, water-filled stomach in sea-farmed rainbow trout, 90 (1990) 333

Mebendazole treatment against *Pseudodactylogyrus* infections in eel (*Anguilla anguilla*), 91 (1990) 15

Whirling disease: earliest susceptible age of rainbow trout to the triactinomyxid of *Myxobolus cerebralis*, 92 (1991) 1

Vaccination of Atlantic salmon (*Salmo salar* L.) against cold-water vibriosis — duration of protection and effect on growth rate, 92 (1991) 99

Does oral administration of oxolinic acid or oxytetracycline affect feed intake to rainbow trout?, 92 (1991) 109

Experimental transmission of *Anguillicola crassus* (Nematoda, Dracunculoidea) larvae from infected prey fish to the eel *Anguilla anguilla*, 92 (1991) 115

Distribution and elimination of oxolinic acid in rainbow trout (*Oncorhynchus mykiss* Walbaum) after a single rapid intravascular injection, 92 (1991) 297

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

Epitheliocystis in the wild and cultured amberjack, *Seriola dumerili* Risso: ultrastructural observations, 95 (1991) 1

Diphyllobothrium sp. infections in freshwater-reared Atlantic salmon (*Salmo salar* L.), 95 (1991) 7

Evaluation of the dispersion of treatment solutions of dichlorvos from marine salmon pens, 95 (1991) 15

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

Absorption, distribution and elimination of oxolinic acid in Atlantic salmon (*Salmo salar* L.) after various routes of administration, 95 (1991) 193

A comparison of the susceptibility of *Salvelinus alpinus* and *Salmo salar ouananiche* to proliferative kidney disease, 96 (1991) 1

Genetic variation in susceptibility of Atlantic salmon to furunculosis, 97 (1991) 1

Residues of oxolinic acid and oxytetracycline in fish and sediments from fish farms, 97 (1991) 85

Viral infection (picorna-like virus) associated with mass mortalities in hatchery-reared sea-bass (*Dicentrarchus labrax*) larvae and juveniles, 97 (1991) 109

Comparison of western blot, direct fluorescent antibody and drop-plate culture methods for the detection of *Renibacterium salmoninarum* in Atlantic salmon (*Salmo salar* L.), 97 (1991) 117

Osteological abnormalities in laboratory reared sea-bass (*Dicentrarchus labrax*) fingerlings, 97 (1991) 169

Bioavailability of oxolinic acid in Atlantic salmon (*Salmo salar* L.) from medicated feed, 97 (1991) 305

Diseases in wild and cultured salmon: possible interaction, 98 (1991) 277

The *Gyrodactylus* story in Norway, 98 (1991) 289

A review of the inter- and intraspecific variability in salmonid hosts to laboratory infections with *Gyrodactylus salaris* Malmberg, 98 (1991) 303

A report on some metazoan parasites of wild marine salmon (*Salmo salar* L.) from the west coast of Norway with comments on their interactions with farmed salmon, 98 (1991) 311

The effect of long term, low level *Eubothrium* sp. (Cestoda: Pseudophyllidea) infection on growth in farmed salmon (*Salmo salar* L.), 98 (1991) 325

Lethal and sub-lethal effects of the salmon delousing agent dichlorvos on the larvae

of the lobster (*Homarus gammarus* L.) and herring (*Clupea harengus* L.), 98 (1991) 331

Pasteurellosis in cultured gilthead seabream (*Sparus aurata*): first report in Spain, 99 (1991) 1

Antibiotic resistance in Gram-negative bacteria from cultured catfish and aquaculture ponds, 99 (1991) 203

Disposition of flumequine in plasma of European eel (*Anguilla anguilla*) after a single intramuscular injection, 99 (1991) 213

Circulating antibodies against *Vibrio anguillarum* 01 antigen from rainbow trout farmed in the Baltic (Diseases — Poster Abstracts), 100 (1992) 331

Characteristics of Birnaviruses isolated from fish in Spain (Diseases — Poster Abstracts), 100 (1992) 331

Diseases and their control — molluscs

Resistance to ozone of zoospores of the thraustochytrid abalone parasite, *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), 78 (1989) 147

Disinfectants and therapeutic agents for controlling *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), an abalone pathogen, 78 (1989) 207

The life cycle of the oyster pathogen *Bonamia ostreae* with a presumptive phase in the ovarian tissue of the European flat oyster, *Ostrea edulis*, 84 (1990) 189

Influence of selective breeding, geographic origin, and disease on gametogenesis and sex ratios of oysters, *Crassostrea virginica*, exposed to the parasite *Haplosporidium nelsoni* (MSX), 88 (1990) 285

Investigation of the relationship between the presence of a Gram-positive bacterial infection and summer mortality of the Pacific oyster, *Crassostrea gigas* Thunberg, 94 (1991) 1

The detection of *Bonamia ostreae* (Pichot et al. 1980) in frozen oysters (*Ostrea edulis* L.) and the effect of the parasite on condition, 97 (1991) 311

Diseases and parasites of rafted mussels (*Mytilus galloprovincialis* Lmk): preliminary results, 99 (1991) 17

Diseases and their control — rotifers

Viral infection associated with rotifer mortalities in mass culture, 93 (1991) 1

Distillers' grains

Evaluation of distillers' grains with solubles as a protein source in diets for channel catfish, 96 (1991) 179

DNA

Survival and integration rate of channel catfish and common carp embryos microinjected with DNA at various developmental stages, 99 (1991) 249

Domestication

Phenotypic correlations among behaviour and growth variables in tilapia: implications for domestication selection, 85 (1990) 177

Domoic acid

Domoic acid and the eastern Canadian molluscan shellfish industry, 77 (1989) 263

Dopamine antagonists

Effects of gonadotropin-releasing hormone agonists and dopamine antagonists on gonadotropin secretion and ovulation in Chinese loach, *Paramisgurnus dabryanus*, 95 (1991) 139

Dried-algae diets

Dried-algae diets and indoor nursery cultivation of Manila clam juveniles, 95 (1991) 75

Drum

see *Sciaenops ocellatus*

Dunaliella salina

Growth and pigmentation of marron (*Cherax tenuimanus*) fed a reference ration supplemented with the microalga *Dunaliella salina*, 99 (1991) 285

Dunaliella tertiolecta

Biochemical composition and growth of the marine microalga *Dunaliella tertiolecta* (Butcher) with different ammonium nitrogen concentrations as chloride, sulphate, nitrate and carbonate, 83 (1989) 289

E

Economics

The effect of yield and price variability on the economic feasibility of freshwater crayfish *Cherax destructor* Clark (Decapoda: Parastacidae) production in Australia, 81 (1989) 225

A cost-effectiveness study on three different methods of vaccination against vibriosis in salmonids, 83 (1989) 227

An economic analysis of the modular pond system of milkfish production in the Philippines, 83 (1989) 249

Economic assessment of a successful method for mass field cultivation of *Gracilaria* in Chile, 84 (1990) 101

The economics of producing algae and bivalve seed in hatcheries, 86 (1990) 163

Bioeconomic analysis of fish growth: effects of dietary protein and ration size, 88 (1990) 223

Response of tilapia yield and economics to varying rates of organic fertilization and season in two Central American countries, 90 (1990) 279

Economic feasibility analysis of the monoculture of mudcrab (*Scylla serrata*) Forsskal, 91 (1990) 223

A method of economic comparisons for aquaculture diet development, 99 (1991) 127

Economic analysis of an integrated milkfish broodstock and hatchery operation as a public enterprise, 99 (1991) 235

The development of trout markets and marketing with particular reference to the European experience, 100 (1992) 11

Economics of commercial trout production, 100 (1992) 25

Cultivation of rainbow trout in marine areas of the USSR (Economics and marketing — Poster Abstracts), 100 (1992) 47

Economics and marketing: Chairman's summary, 100 (1992) 49

***Edwardsiella* sp.**

Isolation and characterization of an *Edwardsiella* sp. strain, causative agent of mortalities in sea bass (*Dicentrarchus labrax*), 88 (1990) 213

Eel

see *Anguilla* spp.

Egg swelling

Effects of salinity on egg swelling in Atlantic salmon (*Salmo salar*), 76 (1989) 317

Elodea densa

The effect of *Elodea densa* on aquaculture water quality, 84 (1990) 267

Embryology

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. I. Gross embryology, temperature tolerance and rates of embryonic development, 87 (1990) 165

Combined effects of temperature and salinity on embryonic development and hatching of striped mullet, *Mugil cephalus*, 97 (1991) 281

Comparative study of the ontogeny of the lymphoid organs in three species of marine fish, 99 (1991) 143

Survival and integration rate of channel catfish and common carp embryos microinjected with DNA at various developmental stages, 99 (1991) 249

Organogenesis of the exocrine pancreas in the sea bass, *Dicentrarchus labrax* L., reared extensively and intensively, 99 (1991) 339

Endocrinology

Experimental administration of recombinant bovine growth hormone to juvenile rainbow trout (*Salmo gairdneri*) by injection or by immersion, 76 (1989) 145

Growth improvement in carp, *Cyprinus carpio* (Linnaeus), sterilized with 17α-methyltestosterone, 76 (1989) 157

The effects of naturally occurring androgens in practical diets fed to normal-sired and jack-sired progeny of coho salmon (*Oncorhynchus kisutch*), 77 (1989) 51

Dose-dependent spawning response of mature female sea bass, *Lates calcarifer* (Bloch), to pelleted luteinizing hormone-releasing hormone analogue (LHRHa), 77 (1989) 85

Gonadal differentiation in coho salmon, *Oncorhynchus kisutch*, after a single treatment with androgen or estrogen at different stages during ontogenesis, 77 (1989) 251

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish (*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Lack of antigenicity of human chorionic gonadotropin in silver carp (*Hypophthalmichthys molitrix*) and goldfish (*Carassius auratus*), 78 (1989) 81

Vitellogenin synthesis in Atlantic salmon (*Salmo salar*) at different acclimation temperatures, 79 (1989) 397

Feminization of *Oreochromis mossambicus* by the administration of diethylstilbestrol, 80 (1989) 337

Dietary administration of an LHRH analogue induces spawning of spotted seatrout (*Synoscion nebulosus*), 80 (1989) 363

Effects of rearing conditions on growth and thyroid hormones during smolting of Atlantic salmon, *Salmon salar* L., 82 (1989) 29

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Effects of photoperiod on smolting and hormonal secretion in masu salmon, *Oncorhynchus masou*, 82 (1989) 63

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 279

Plasma prolactin levels during smolting in Atlantic salmon, *Salmo salar*, 82 (1989) 297

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater, 82 (1989) 307

Thyroid hormones in migrating Atlantic salmon, 82 (1989) 319

Hormones in early development of salmonid fishes (abstract), 82 (1989) 375

Temporal aspects of thyroid control of smolting in chinook salmon, *Oncorhynchus tshawytscha* (abstract), 82 (1989) 376

Control of prolactin secretion from the developing pituitary of coho salmon (abstract), 82 (1989) 377

In vitro hormonal stimulation of Na^+, K^+-ATPase activity and ouabain binding in gill tissue of coho salmon (abstract), 82 (1989) 379

Asynchrony of changes in tissue and plasma thyroid hormone contents of coho salmon during parr–smolt transformation (abstract), 82 (1989) 380

Multihormonal control of the interrenal of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 381

Plasma levels of prolactin and growth hormone during parr–smolt transformation of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 382

Induction of gonadotropin release and ovulation by pheromones in the African catfish, *Clarias gariepinus*, 83 (1989) 167

Effects of 17α-methyltestosterone and 11β-hydroxyandrostenedione on gonad differentiation in the African catfish, *Clarias gariepinus*, 83 (1989) 179

Induction of maturation and ovulation by pimozide–LHRH analogue treatment and resulting high quality egg production in the Asian catfish, *Clarias batrachus* (L.), 83 (1989) 193

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

The effects of the synthetic steroid 17-alpha-methyltestosterone on the growth and organ morphology of the channel catfish (*Ictalurus punctatus*), 84 (1990) 81

Expression of human growth hormone gene in fertilized eggs from Atlantic salmon and rainbow trout (abstract), 85 (1990) 329

Hormonal content of commercial fish diets and of young coho salmon (*Oncorhynchus kisutch*) fed these diets, 86 (1990) 63

Release rates of steroids from silastic tube implants in vitro and in vivo with juvenile milkfish, *Chanos chanos*, 87 (1990) 91

Changes in ovarian unconjugated and conjugated steroid titers during vitellogenesis in *Penaeus monodon*, 89 (1990) 83

Clearance of 17α-ethynyltestosterone from muscle of sex-inversed tilapia hybrids treated for growth enhancement with two doses of the androgen, 89 (1990) 365

Annual and daily variations of plasma cortisol in sea bass, *Dicentrarchus labrax* L., 91 (1990) 171

Annual cycle of gonadal histology and steroid profiles in the juvenile males and adult females of the protandrous black porgy, *Acanthopagrus schlegeli*, 91 (1990) 179

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Effects of acute versus sustained administration of GnRHa on GtH release and ovulation in the rainbow trout, *Oncorhynchus mykiss*, 91 (1990) 373

Osmoregulation and circulating growth hormone and prolactin levels in hypophysectomized coho salmon (*Oncorhynchus kisutch*) after transfer to fresh water and seawater, 92 (1991) 33

Effects of LHRH-A and HCG on the steroid profiles of bisexual and mature male and female protandrous black porgy, *Acanthopagrus schlegeli*, 92 (1991) 83

LHRH-a and domperidone-induced oocyte maturation and ovulation in bighead carp, *Aristichthys nobilis* (Richardson), 93 (1991) 87

The neuroendocrinology of *Mytilus edulis*, 94 (1991) 213

Effects of gonadotropin-releasing hormone agonists and dopamine antagonists on gonadotropin secretion and ovulation in Chinese loach, *Paramisgurnus dabryanus*, 95 (1991) 139

Steroid profiles during maturation and induced spawning of the striped mullet, *Mugil cephalus* L., 95 (1991) 149

Serum prolactin and sex steroids in Atlantic salmon (*Salmo salar*) during sexual maturation, 95 (1991) 169

Plasma kinetics of growth hormone in the Japanse eel, *Anguilla japonica*, 95 (1991) 179

Effect of a synthetic LHRH analogue and dopamine antagonists on the maturation of bream, *Abramis brama* L., 95 (1991) 373

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Stimulation of pituitary gonadotropin and ovarian development by chronic administration of testosterone in female Japanese silver eel, *Anguilla japonica*, 96 (1991) 87

Plasma androgen levels in castrated adult male African catfish, *Clarias gariepinus*, in relation to pheromonal stimulation of ovarian

growth in pubertal conspecifics, 97 (1991) 97

Spermiation response of mature rabbitfish, *Siganus guttatus* Bloch, to luteinizing hormone-releasing hormone analogue (LHRHa) injection, 97 (1991) 291

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Response of epaxial muscle and liver to 17-β estradiol in fed and starved Atlantic salmon (*Salmo salar*), 99 (1991) 179

Disposition and elimination of 17α-methyltestosterone in Nile tilapia (*Oreochromis niloticus*), 99 (1991) 193

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Rainbow trout husbandry: management of the stress response, 100 (1992) 125

A selective survey of the endocrine system of the rainbow trout (*Oncorhynchus mykiss*) with emphasis on the hormonal regulation of ion balance, 100 (1992) 237

Effect of recombinant trout growth hormone on rainbow trout at growth-inhibiting temperatures (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 322

Photoperiod and the control of rainbow trout spawning time: endocrinological aspects (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 327

Energetics

Comparative study of energetic nucleotides in young and adult trout (*Salmo gairdneri* R.), 81 (1989) 91

Energy budget

An energy budget for the larvae of *Penaeus monodon* (Fabricius), 81 (1989) 13

Energy budget of a *Mytilus edulis* L. population during its first year on bouchots in the bay of Marennes-Oléron, 91 (1990) 49

Energy metabolism

Energy metabolism in *Oreochromis niloticus*, 79 (1989) 283

Comparative study of the energetic metabolism of Atlantic salmon (*Salmo salar*) parr and smolts, 82 (1989) 163

Effect of temperature on utilization of endogenous energy reserves during embryonic development of diploid and triploid rainbow trout (*Salmo gairdneri* R.), 84 (1990) 373

High stocking density alters the energy metabolism of brook charr, *Salvelinus fontinalis*, 88 (1990) 371

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. II. Utilization of dietary non-protein energy by sturgeon, 93 (1991) 143

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. II. Activity of key enzymes in energy metabolism, 93 (1991) 357

The physiological energetics of mussels (*Mytilus galloprovincialis* Lmk) from different cultivation rafts in the Ria de Arosa (Galicia, N.W. Spain), 94 (1991) 197

The effect of SDA, temperature and daily rhythm on the energy metabolism of the mullet *Mugil saliens*, 97 (1991) 353

Influence of starvation at low temperatures on utilization of energy reserves, appetite recovery and growth character in sea bass, *Dicentrarchus labrax*, 99 (1991) 167

Energy utilization

Effect of digestible carbohydrates on protein/energy utilization and on glucose metabolism in rainbow trout (*Salmo gairdneri* R.), 79 (1989) 63

Comparative energetics of striped bass (*Morone saxatilis*) and hybrid (*M. saxatilis* × *M. chrysops*) juveniles, 86 (1990) 387

Enteric redmouth disease

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia*

ruckeri, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Entobdella hippoglossi

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

Environmental factors

see also Salinity, Temperature

Environmental influences on growth and survival during the ocean-nursery rearing of giant clams, *Tridacna gigas* (L.), 80 (1989) 45

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Genotype–environment interactions for growth of blue, channel and hybrid catfish in ponds and cages at varying densities, 85 (1990) 143

Physiological ecology of mussel larvae, 94 (1991) 147

The ecology and cultivation of mussels: new advances, 94 (1991) 245

Enzymology

Partial purification and characterization of a triglyceride lipase from cod (*Gadus morhua*), 79 (1989) 177

Electrophoresis of isozymes in cultured *Penaeus vannamei* (abstract), 85 (1990) 330

A comparison of allozyme and mitochondrial DNA variation in Atlantic salmon (*Salmo salar*) (abstract), 85 (1990) 330

Variation of allozymic polymorphism in *Ostrea angasi* and *O. edulis* (abstract), 85 (1990) 331

Modified uptake of the protein antigen horseradish peroxidase (HRP), following oral delivery to rainbow trout, *Oncorhynchus mykiss*, 87 (1990) 373

Inheritance of allozymes in Atlantic salmon (*Salmo salar* L.), 88 (1990) 253

The role of exogenous enzymes in digestion in cultured turbot larvae (*Scophthalmus maximus* L.), 88 (1990) 337

Restriction site polymorphism of mitochondrial DNA of the gilthead sea bream (*Sparus aurata*) broodstock in Eilat, Israel, 89 (1990) 217

Studies on the digestive lipases of milkfish, *Chanos chanos*, 89 (1990) 315

Studies on the digestive enzymes of grass carp, *Ctenopharyngodon idella* (Val.), 92 (1991) 21

Changes with different diets in plasma enzymes (GOT, GPT, LDH, ALP) and plasma lipids (cholesterol, triglycerides) of sea-bass (*Dicentrarchus labrax*), 93 (1991) 63

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. II. Activity of key enzymes in energy metabolism, 93 (1991) 357

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

Genetic difference in trypsin-like isozyme pattern between two strains of Arctic charr (*Salvelinus alpinus*), 96 (1991) 227

Epiphytism

Abundance, effects and management of epiphytism in intertidal cultures of *Gracilaria* (Rhodophyta) in southern Chile, 92 (1991) 7

Epitheliocystis disease

Epitheliocystis disease in the cultured amberjack, *Seriola dumerili* Risso (Carangidae), 90 (1990) 197

Epitheliocystis in the wild and cultured amberjack, *Seriola dumerili* Risso: ultrastructural observations, 95 (1991) 1

Eriocheir sinensis

Cytological observations on fertilization in the Chinese fresh-water crab, *Eriocheir sinensis*, by artificial insemination (in vitro) and incubation, 76 (1989) 347

Esox lucius

Survival of pike (*Esox lucius* L.) broodstock in relation to type of reproduction, 83 (1989) 387

Growth patterns of pike (*Esox lucius* L.) larvae and juveniles in small ponds under various natural temperature regimes, 97 (1991) 155

17α-Ethynyltestosterone

Clearance of 17α-ethynyltestosterone from muscle of sex-inversed tilapia hybrids treated for growth enhancement with two doses of the androgen, 89 (1990) 365

***Eubothrium* sp.**

A report on some metazoan parasites of wild marine salmon (*Salmo salar* L.) from the west coast of Norway with comments on their interactions with farmed salmon, 98 (1991) 311

The effect of long term, low level *Eubothrium* sp. (Cestoda: Pseudophyllidea) infection on growth in farmed salmon (*Salmo salar* L.), 98 (1991) 325

Eucheuma denticulatum

Growth of the seaweeds *Kappaphycus alvarezii*, *K. striatum* and *Eucheuma denticulatum* as affected by environment in Hawaii, 84 (1990) 245

Eutrophication

Quantitative estimates of the eutrophication effects of fish farming on fjords, 90 (1990) 135

Loadings of nitrogen and phosphorus from a Northern Ireland fish farm, 96 (1991) 17

Fractionation of phosphorus and nitrogen loadings from a Northern Ireland fish farm, 96 (1991) 31

Evolution

Studies on the evolution of bisexual reproduction in crucian carp (*Carassius auratus gibelio* Bloch), 84 (1990) 235

Eye

Fatty acid profiles of eyes and epaxial muscle of coho (*Oncorhynchus kisutch*) parr and smolts, and of gills of post-smolts and stunts (abstract), 82 (1989) 380

Eyestalk ablation

Effects of unilateral eyestalk ablation on ovarian histology and oocyte size frequency of wild and pond-reared *Penaeus monodon* (Fabricius) broodstock, 93 (1991) 77

F

Fats and fatty compounds

Studies on nutrient digestibility in European sea bass (*dicentrarchus labrax*). 2. Effect of sodium alginate on protein and lipid digestibility, 77 (1989) 71

Effects of purified dietary fatty acids on the fatty acid composition of freshwater shrimp, *Macrobrachium rosenbergii*, 77 (1989) 157

Growth and ω3 fatty acids and amino acid composition of microalgae under different temperature regimes, 77 (1989) 337

Studies on the essential fatty acid requirement of channel catfish, *Ictalurus punctatus*, 79 (1989) 121

Different fats in feed for salmon: influence on sensory parameters, growth rate and fatty acids in muscle and heart, 79 (1989) 129

Haematological values and fatty acid composition of erythrocyte phospholipids in cod (*Gadus morhua*) fed at different water temperatures, 79 (1989) 137

Lipid requirements of some warmwater species, 79 (1989) 145

The effect of enrichment diets on the fatty acid composition of the rotifer *Brachionus plicatilis*, 79 (1989) 157

Fatty acid composition of *Coregonus muksun* Pallas: changes during incubation, hatching, feeding and starvation, 79 (1989) 163

Effects of reduced feed ration levels on fat content and fatty acid composition in white and red muscle from rainbow trout, 79 (1989) 169

Lipid and *n*-3 requirement of *Sparus aurata* larvae during starvation and feeding, 79 (1989) 185

The amino acid and fatty acid compositions of selected tissues of the dolphin fish (*Coryphaena hippurus*) and their nutritional implications, 80 (1989) 285

Fatty acid analysis of fish eggs without solvent extraction, 80 (1989) 371

Effects of diet on consumption, growth and fatty acid composition in young grass carp, 81 (1989) 47

Effects of dietary fatty acid composition on growth and smolting of underyearling masu salmon, *Oncorhynchus masou*, 82 (1989) 181

Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish, 82 (1989) 191

Effect of natural and artificial diets on seasonal changes in fatty acid composition and total body lipid content of wild and hatchery-reared Atlantic salmon (*Salmo salar* L.) parr–smolt, 82 (1989) 205

Fatty acid profiles of eyes and epaxial muscle of coho (*Oncorhynchus kisutch*) parr and smolts, and of gills of post-smolts and stunts (abstract), 82 (1989) 380

Biomass production and variation in the biochemical profile (total protein, carbohydrates, RNA, lipids and fatty acids) of seven species of marine microalgae, 83 (1989) 17

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Defatted and full-fat soybean meal as partial replacements for fishmeal in tilapia (*Oreochromis niloticus* x *O. aureus*) diets at low protein level, 86 (1990) 401

Preparation of oils, enhanced in highly unsaturated fatty acid (HUFA) content, by low temperature crystallization separation, for rotifer (*Brachionus plicatilis*) enrichment, 88 (1990) 69

Effects of diet and temperature on food consumption, growth rate and tissue fatty-acid composition of triploid grass carp, 88 (1990) 313

Effects of dietary canthaxanthin level and lipid level on apparent digestibility coefficients for canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 88 (1990) 351

Lipid class distribution and fatty acid composition of wild and farmed prawn, *Penaeus monodon* (Fabricius), 89 (1990) 65

Effects of dietary vegetable, animal and marine lipids on muscle lipid and hematology of rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 165

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

Survival and bioconversion of *n*-3 fatty acids during early development of dolphin (*Coryphaena hippurus*) larvae fed oil-enriched rotifers, 89 (1990) 273

Polyunsaturated fatty acid profiles as a comparative tool in assessing maturation diets of *Penaeus vannamei*, 89 (1990) 287

Lipid malabsorption as a possible cause of anorexia in Zn-deficient juvenile common carp, *Cyprinus carpio*, 89 (1990) 327

Response of striped bass larvae fed brine shrimp from different sources containing different fatty acid compositions, 90 (1990) 49

Improved larval survival at metamorphosis of Asian seabass (*Lates calcarifer*) using ω3-HUFA-enriched live food, 90 (1990) 63

The effect of dietary (*n*-3) polyunsaturated fatty acids on growth, survival and swim bladder development in *Sparus aurata* larvae, 91 (1990) 131

Lipid composition of fat trimmings from farm-raised alligator, 91 (1990) 339

Changes with different diets in plasma enzymes (GOT, GPT, LDH, ALP) and plasma

lipids (cholesterol, triglycerides) of sea-bass (*Dicentrarchus labrax*), 93 (1991) 63

Hatchery-reared landlocked Arctic charr, *Salvelinus alpinus* (L.), from Lake Takvatn reared in fresh and sea water. II. The effect of salinity on the digestibility of protein, lipid and individual fatty acids in a capelin roe diet and commercial feed, 93 (1991) 135

Effects of feeding supplementary diets containing varying levels of lipid on growth, food conversion, and body composition of Nile tilapia, *Oreochromis niloticus* (L.), 93 (1991) 323

Interactions of varying dietary protein and lipid levels in young red tilapia: evidence of protein sparing, 95 (1991) 305

Lipid and fatty acid composition of brackishwater- and freshwater-reared milkfish (*Chanos chanos* Forskal), 96 (1991) 241

Fatty acid composition of start-feeding salmon (*Salmo salar*) larvae, 96 (1991) 305

Biochemical quality of marine unicellular algae with special emphasis on lipid composition. I. *Isochrysis galbana*, 97 (1991) 61

Effects of dietary lipid and carbohydrate levels on growth and body composition of juvenile red drum, *Sciaenops ocellatus*, 97 (1991) 383

Relationship between diet and immune response in Atlantic salmon (*Salmo salar* L.) after feeding various levels of ascorbic acid and omega-3 fatty acids, 98 (1991) 363

Survival and growth of larval striped bass (*Morone saxatilis*) fed *Artemia* enriched with highly unsaturated fatty acids (HUFA), 99 (1991) 117

Apparent digestibility of canthaxanthin in rainbow trout: effect of dietary fat level, antibiotics and number of pyloric caeca, 99 (1991) 323

Effect of dietary fat level on weight gain, digestibility, and fillet composition of Atlantic halibut, 99 (1991) 331

Feather meal

Feather meal as a dietary protein source during parr–smolt transformation in fall chinook salmon, 89 (1990) 301

Feeding and nutrition — crustaceans

Effect of squid extracts on time course appearance of glucose and free amino acids in haemolymph in *Penaeus japonicus* after feeding: preliminary results, 76 (1989) 57

Response of juvenile freshwater crayfish (*Pacifastacus leniusculus* Dana) to several fresh and artificially compounded diets, 76 (1989) 67

The effect of breeding two prey organisms, nauplii of *Artemia* and rotifers, *Brachionus plicatilis* (Muller), upon survival and growth of larval marine shrimp, *Penaeus semisulcatus* (de Haan), 77 (1989) 11

Effects of purified dietary fatty acids on the fatty acid composition of freshwater shrimp, *Macrobrachium rosenbergii*, 77 (1989) 157

Effect of storage temperature on the quality of diets for the prawn, *Penaeus monodon* Fabricius, 80 (1989) 87

Influence du régime alimentaire sur la reproduction en captivité de *Penaeus vannamei* et *Penaeus stylirostris* (Diets in relation to reproduction of *Penaeus vannamei* and *Penaeus stylirostris* in captivity), 80 (1989) 97

Preliminary results of feeding aquatic macrophytes to *Penaeus monodon* juveniles, 80 (1989) 189

Comparative analysis of the growth and survival of *Penaeus monodon* (Fabricius) larvae, from protozoea 1 to postlarva 1, on live feeds, artificial diets and on combinations of both, 81 (1989) 27

Growth and mid-gut cells profile of *Penaeus monodon* juveniles fed water-soluble-vitamin deficient diets, 81 (1989) 137

Nutritional evaluation of crab protein for larval *Penaeus japonicus* fed microparticulate diets, 81 (1989) 145

Ingestion saturation and growth responses of *Penaeus monodon* larvae to food density, 81 (1989) 329

Influence du régime alimentaire sur la reproduction en captivité de *Penaeus indicus* (Influence of the diet on the reproduction of *Penaeus indicus* in captivity), 81 (1989) 337

Chaetoceros gracilis as the exclusive feed for the larvae and postlarvae of the shrimp *Metapenaeus ensis*, 83 (1989) 281

An evaluation of indigenous protein sources as potential component in the diet formulation for tiger prawn, *Penaeus monodon*, using essential amino acid index (EAAI), 83 (1989) 319

Feeding rhythms and food of *Penaeus japonicus* Bate (Crustacea, Penaeidae) in salt marsh ponds: role of halophilic entomofauna, 84 (1990) 125

Apparent digestibility coefficients for common feedstuffs in formulated diets for red swamp crayfish, *Procambarus clarkii*, 84 (1990) 321

Use of a new spray-dried algal product in penaeid larviculture, 86 (1990) 249

Evaluation of soybean meal as a replacement for marine animal protein in diets for shrimp (*Penaeus vannamei*), 87 (1990) 53

Pigmentation of prawn (*Penaeus japonicus*) with carotenoids. I. Effect of dietary astaxanthin, β-carotene and canthaxanthin on pigmentation, 87 (1990) 323

Consumption and apparent dry matter digestibility of aquatic macrophytes by male and female catfish (*Orconectes virilis*), 89 (1990) 55

Supplemental feeding of *Penaeus monodon* juveniles with diets containing various levels of defatted soybean meal, 89 (1990) 183

Polyunsaturated fatty acid profiles as a comparative tool in assessing maturation diets of *Penaeus vannamei*, 89 (1990) 287

Biochemical composition and energy reserves in *Crassostrea gigas* exposed to different levels of nutrition, 90 (1990) 157

Response of juvenile freshwater prawn, *Macrobrachium rosenbergii*, to different levels of a cod liver oil/corn oil mixture in a semi-purified diet, 93 (1991) 121

Apparent digestibility of diets with various carbohydrate levels and the growth response of *Penaeus monodon*, 95 (1991) 89

Biochemical composition of some prey species of *Penaeus esculentus* Haswell (Penaeidae: Decapoda), 96 (1991) 151

Combined effects of dietary phosphatidylcholine and cholesterol on the growth, survival and body lipid composition of marine shrimp, *Penaeus penicillatus*, 96 (1991) 167

The evaluation of fresh algae and stored algal concentrates as a food source for Sydney rock oyster, *Saccostrea commercialis* (Iredale and Roughley), larvae, 99 (1991) 277

Growth and pigmentation of marron (*Cherax tenuimanus*) fed a reference ration supplemented with the microalga *Dunaliella salina*, 99 (1991) 285

Effect of dehulling on the nutritive value of some leguminous seeds as protein sources for tiger prawn, *Penaeus monodon*, juveniles, 99 (1991) 297

Reproduction of ablated and unablated *Penaeus schmitti* in captivity using diets consisting of fresh-frozen natural and dried formulated feeds, 99 (1991) 387

Feeding and nutrition — economics

A method of economic comparisons for aquaculture diet development, 99 (1991) 127

Feeding and nutrition — fish, antibiotics

The effect of feeding antibiotics on growth and body composition of carp (*Cyprinus carpio*), 77 (1989) 211

Feeding and nutrition — fish, behaviour

A behavioural method to test feeding responses of fish to pelleted diets, 79 (1989) 303

Patterns of food intake in Arctic charr, *Salvelinus alpinus*, monitored by radiography, 81 (1989) 155

Investigation of food–growth relationships of Arctic charr, *Salvelinus alpinus* L., using radiography, 81 (1989) 367

The ingestion of bacteria in suspension by the tilapia *Oreochromis niloticus*, 81 (1989) 373

Daily food consumption and feeding rhythm of silver carp (*Hypophthalmichthys molitrix*) during fry to fingerling period, 83 (1989) 73

Feeding modes in Arctic charr, *Salvelinus alpinus* L.: the importance of bottom feeding for the maintenance of growth, 86 (1990) 379

Feeding stimulation in sea bream, *Pagrus major*, fed diets supplemented with Antarctic krill meals, 89 (1990) 43

Selective feeding and prediction of food consumption in turbot larvae (*Scophthalmus maximus* L.) reared on the rotifer *Brachionus plicatilis* and natural zooplankton, 93 (1991) 35

Effects of transfer to seawater on growth and feeding in Atlantic salmon smolts (*Salmo salar* L.), 94 (1991) 309

Growth, survival and cannibalism of cod juveniles (*Gadus morhua*): effects of feed type, starvation and fish size, 97 (1991) 41

Feeding and nutrition — fish, deficiencies

High mortality of rainbow trout (*Salmo gairdneri*) fry caused by deficiency of vitamins C and B_2 in commercial fish farms in Yugoslavia, 79 (1989) 245

High mortality of rainbow trout (*Salmo gairdneri*) in Yugoslavian fish farms caused by inadequate feed quality, 79 (1989) 391

Role of dietary ascorbic acid in vitellogenesis in rainbow trout (*Salmo gairdneri*), 80 (1989) 301

Availability of dietary magnesium to rainbow trout as determined by apparent retension, 86 (1990) 51

Feeding and nutrition — fish, diet composition

The interaction of vitamins, minerals and diet composition in the diet of fish, 79 (1989) 223

Effect of extrusion on efficiency of utilization of maize starch by rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 293

Ecology of feral rainbow trout that escaped from a cage culture site in Lac du Passage, Canada (Husbandry and Management — Poster Abstracts), 100 (1992) 169

The effect of fish weight on the optimum protein to energy ratio of diets for rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 233

Evaluation of undephytinized and dephytinized rapeseed protein concentrate as sources of dietary protein for juvenile rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 236

Feeding and nutrition — fish, diet quality

Stability of ascorbate-2-sulfate in trout feed measured by HPLC, 79 (1989) 249

Total volatile nitrogen — a quality criterion for fish silage?, 79 (1989) 311

Blue mussel in feed for rainbow trout, 81 (1989) 79

The nutritive value of boiled full-fat soybean in pelleted feed for Nile tilapia, 81 (1989) 303

Feeding and nutrition — fish, dietary requirements

Choline requirement of hatchery-produced juvenile white sturgeon (*Acipenser transmontanus*), 78 (1989) 183

Studies on the essential fatty acid requirement of channel catfish, *Ictalurus punctatus*, 79 (1989) 121

Lipid requirements of some warmwater species, 79 (1989) 145

The dietary protein requirements of young tilapia and an evaluation of the least cost dietary protein levels, 80 (1989) 271

Optimal dietary protein level for hybrid tilapia (*Oreochromis niloticus* × *O.aureus*) reared in seawater, 81 (1989) 119

Vitamin C requirement of the Mexican native cichlid *Cichlasoma urophthalmus* (Gunther), 86 (1990) 409

Vitamin E requirements of the blue tilapia, *Oreochromis aureus* (Steindachner), in relation to dietary lipid level, 87 (1990) 155

Quantitative lysine requirement of milkfish (*Chanos chanos*) juveniles, 87 (1990) 341

Growth, feed conversion and protein utilization of Florida red tilapia fed isocaloric diets with different protein levels in seawater pools, 88 (1990) 75

Riboflavin requirements in on-growing rainbow trout, *Oncorhynchus mykiss*, 88 (1990) 87

Dietary zinc requirement of the red drum, *Sciaenops ocellatus*, 92 (1991) 259

Total sulfur amino acid requirements of juvenile red drum, *Sciaenops ocellatus*, 95 (1991) 97

Choline–betaine requirements of rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 107

Optimal dietary lysine levels for growth and protein utilisation of fingerling sea bass (*Dicentrarchus labrax* L.) fed semipurified diets, 95 (1991) 297

Feeding systems for rainbow trout and other salmonids with reference to current estimates of energy and protein requirements, 100 (1992) 107

Nutrition: estimating requirements of rainbow trout, 100 (1992) 177

Protein nutrition of rainbow trout, 100 (1992) 191

Change in gross protein and lipid requirements of rainbow trout at elevated temperatures (Nutrition — Poster Abstracts), 100 (1992) 231

Feeding and nutrition — fish, dietary value

Effects of different diets on egg production and egg quality of Atlantic salmon (*Salmo salar* L.), 79 (1989) 275

The effect of bacterial additives on the production rate and dietary value of rotifers as food for Japanese flounder, *Paralichthys olivaceus*, 83 (1989) 39

The nutritive value of cassava leaf meal in pelleted feed for Nile tilapia, 83 (1989) 45

Long-term evaluation of cotton seed meal as a protein source for Nile tilapia, *Oreochromis niloticus* (Linn.), 84 (1990) 315

Growth responses of *Tilapia zillii* fed diets containing various levels of ascorbic acid and cobalt chloride, 88 (1990) 329

Influence of varying energy levels with two protein concentrations in diets for hybrid tilapia (*Oreochromis niloticus* × *O. aureus*) reared in seawater, 91 (1990) 143

Survival and growth of larval striped bass (*Morone saxatilis*) fed *Artemia* enriched with highly unsaturated fatty acids (HUFA), 99 (1991) 117

Poultry by-product meal as a dietary protein source in fall chinook salmon diets, 99 (1991) 309

Feeding and nutrition — fish, digestibility

Studies on nutrient digestibility in European sea bass (*Dicentrarchus labrax*). 1. Methodological aspects concerning faeces collection, 77 (1989) 61

Studies on nutrient digestibility in European sea bass (*dicentrarchus labrax*). 2. Effect of sodium alginate on protein and lipid digestibility, 77 (1989) 71

A simple in vitro method for measuring protein digestibility, 79 (1989) 111

Starch as an energy source in feed for cod (*Gadus morhua*): digestibility and retention, 80 (1989) 261

Digestibility and bioavailability of dietary selenium from fishmeal, selenite, selenomethionine and selenocystine in Atlantic salmon (*Salmo salar*), 81 (1989) 61

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Effects of dietary canthaxanthin level and lipid level on apparent digestibility coefficients for canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 88 (1990) 351

Effects of transfer to seawater on digestion and gut function in Atlantic salmon smolts (*Salmo salar* L.), 90 (1990) 85

Studies on the digestive enzymes of grass carp, *Ctenopharyngodon idella* (Val.), 92 (1991) 21

Hatchery-reared landlocked Arctic charr, *Salvelinus alpinus* (L.), from Lake Takvatn reared in fresh and sea water. II. The effect of salinity on the digestibility of protein, lipid and individual fatty acids in a capelin roe diet and commercial feed, 93 (1991) 135

Digestibility, tissue distribution and depletion kinetics of [^{14}C]-virginiamycin and related factors fed to rainbow trout, 97 (1991) 73

Apparent digestibility of canthaxanthin in rainbow trout: effect of dietary fat level, antibiotics and number of pyloric caeca, 99 (1991) 323

Oats as feed for rainbow trout: effects on growth and digestibility of nutrients (Nutrition — Poster Abstracts), 100 (1992) 231

The effect of antibiotics on the apparent digestibility of feed for rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 235

Feeding and nutrition — fish, economics

Bioeconomic analysis of fish growth: effects of dietary protein and ration size, 88 (1990) 223

Feeding and nutrition — fish, energy metabolism

Effects of dietary composition and energy content on the nutritional energetics of cod, *Gadus morhua*, 92 (1991) 243

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. II. Utilization of dietary non-protein energy by sturgeon, 93 (1991) 143

Optimum energy feeding of Finnish rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 236

Feeding and nutrition — fish, feed additives

Effects of various levels of dietary copper and zinc on channel catfish, 76 (1989) 127

Availability of various magnesium compounds to tilapia (*Oreochromis niloticus*), 76 (1989) 269

Supplementation of methionine to soy flour diets for fingerling carp, *Cyprinus carpio*, 77 (1989) 373

The relationship between diet and the immune response of fish, 79 (1989) 193

Disease resistance and humoral antibody production in rainbow trout fed high levels of vitamin C, 79 (1989) 207

Effect of supplemental phytate and/or tricalcium phosphate on weight gain, feed efficiency and zinc content in vertebrae of channel catfish, 80 (1989) 155

Dietary administration of an LHRH analogue induces spawning of spotted seatrout (*Synoscion nebulosus*), 80 (1989) 363

Dose response to astaxanthin and canthaxanthin pigmentation of rainbow trout fed various dietary carotenoid concentrations, 81 (1989) 69

Evaluation of L-ascorbyl-2-polyphosphate (AsPP) as a dietary ascorbic acid source for channel catfish, 81 (1989) 129

Studies on biotin supply to mirror carp (*Cyprinus carpio*, L.), 84 (1990) 49

Ascorbic acid status in the early life of whitefish (*Coregonus lavaretus* L.), 84 (1990) 61

Effect of dietary vitamin E levels on oxidative stability of trout fillets, 84 (1990) 145

Growth acceleration of coho salmon (*Oncorhynchus kisutch*) following oral administration of recombinant bovine somatotropin, 91 (1990) 197

Problems associated with the present use of menadione sodium bisulfite and vitamin A in diets for Atlantic salmon, 92 (1991) 351

Effects of dietary lactate and propionate on growth and digesta in Arctic charr, *Salvelinus alpinus* (L.), 96 (1991) 321

Bioavailability of oxolinic acid in Atlantic salmon (*Salmo salar* L.) from medicated feed, 97 (1991) 305

Relationship between diet and immune response in Atlantic salmon (*Salmo salar* L.) after feeding various levels of ascorbic acid and omega-3 fatty acids, 98 (1991) 363

Feeding and nutrition — fish, feed composition

Use of alkane yeast and methanol-grown bacterial biomass as protein sources in the diet of rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 235

Feeding and nutrition — fish, feed conversion

An evaluation of the growth of Indian and Chinese major carps in relation to the dietary protein content, 92 (1991) 237

Feeding and nutrition — fish, feed efficiency

Effect of dietary fat level on weight gain, digestibility, and fillet composition of Atlantic halibut, 99 (1991) 331

Feeding and nutrition — fish, feed evaluation

Hormonal content of commercial fish diets and of young coho salmon (*Oncorhynchus kisutch*) fed these diets, 86 (1990) 63

Feeding and nutrition — fish, feed formulation

Studies on the nutrition of Siberian sturgeon, *Acipenser baeri*. I. Utilization of digestible carbohydrates by sturgeon, 76 (1989) 97

Utilization of fish silage by rainbow trout (*Salmo gairdneri*), 76 (1989) 109

Effect of partially or totally replacing fish meal protein by soybean meal protein on growth, food utilization and proteolytic enzyme activities in rainbow trout (*Salmo gairdneri*). New in vivo test for exocrine pancreatic secretion, 77 (1989) 29

Potential of rapeseed meal as an alternative protein source in complete diets for tilapia (*Oreochromis mossambicus* Peters), 87 (1990) 145

Feeding and nutrition — fish, feed intake

Feed intake and growth of red tilapia at different stocking densities in ponds in Indonesia, 99 (1991) 83

Feeding and nutrition — fish, feed processing

Processing of soybean meals affects nutritive value for rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 234

Feeding and nutrition — fish, feed ration

Ration size in the feeding of cod (*Gadus morhua*): effect on skeletal muscle proteins, with special reference to myosin heavy chain, 79 (1989) 47

Effects of ration on protein turnover in cod, 79 (1989) 103

Effects of reduced feed ration levels on fat content and fatty acid composition in white and red muscle from rainbow trout, 79 (1989) 169

Growth and feed efficiency of white sturgeon (*Acipenser transmontanus*) sub-yearlings at different feeding rates, 80 (1989) 147

Feeding and nutrition — fish, feeding frequency

The effect of fish density and feeding regimes on individual growth rate and mortality in rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 225

Daily feeding rhythms in Atlantic salmon in sea cages, 92 (1991) 219

Effects of meal frequency on growth performance of hybrid tilapia, *Oreochromis niloticus* × *O. aureus*, fed different carbohydrate diets, 92 (1991) 343

Feeding and nutrition — fish, feeding systems

Demand-Feeding as a self-regulating feeding system for rainbow trout in net-pens (Husbandry and Management — Poster Abstracts), 100 (1992) 167

Feeding and nutrition — fish, food intake

Correlating food intake and specific growth rate of rainbow trout of different sizes (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 326

Feeding and nutrition — fish, general

Combined effects of quality and quantity of food on growth and body composition of the air-breathing fish *Channa gachua* (Ham.), 76 (1989) 79

Determination of nucleotide concentrations with high performance liquid chromatography (HPLC): application to fish, 76 (1989) 135

Interaction between dietary protein and magnesium level in tilapia (*Oreochromis niloticus*, 76 (1989) 277

The effect of different protein levels and temperatures on feed utilization, growth and body composition of *Clarias gariepinus* (Burchell 1822), 76 (1989) 293

Protein-to-energy ratios in production diets and growth, feed conversion and body composition of channel catfish, *Ictalurus punctatus*, 77 (1989) 21

Effect of dietary protein level on growth, feed conversion and body composition of shingi (*Heteropneustes fossilis* Bloch), 77 (1989) 175

Chronic cannulation of the hepatic portal vein in rainbow trout, *Salmo gairdneri*: a prerequisite to net absorption studies, 78 (1989) 195

Effect of dietary protein level and amount of plant ingredient (*Phaseolus aureus*) incorporated into the diets on consumption, growth performance and carcass composition in *Oreochromis niloticus* (L.) fry, 80 (1989) 121

The amino acid and fatty acid compositions of selected tissues of the dolphin fish (*Coryphaena hippurus*) and their nutritional implications, 80 (1989) 285

Feeding experiments with silver carp (*Hypophthalmichthys molitrix* Val.) fry, 83 (1989) 331

Stability in fish feed and bioavailability to rainbow trout of two ascorbic acid forms, 84 (1990) 335

Increased sea-water adaptability of non-smolting rainbow trout by salt feeding, 86 (1990) 259

Effects of diet and temperature on food consumption, growth rate and tissue fatty-acid composition of triploid grass carp, 88 (1990) 313

Survival and growth of milkfish (*Chanos chanos*) larvae in the hatchery. I. Feeding, 89 (1990) 233

Food consumption in 24 hours by Atlantic salmon (*Salmo salar* L.) in a sea cage, 90 (1990) 41

Dietary effects on tissue composition, oogenesis and the reproductive performance of female rainbow trout (*Oncorhynchus mykiss*), 90 (1990) 179

Appetite, gut transit, oxygen uptake and nitrogen excretion in captive Atlantic halibut, *Hippoglossus hippoglossus* L., and lemon sole, *Microstomus kitt* (Walbaum), 90 (1990) 267

Does oral administration of oxolinic acid or oxytetracycline affect feed intake to rainbow trout?, 92 (1991) 109

Evaluation of different supplemental feeds for milkfish (*Chanos chanos*) reared in brackishwater ponds, 93 (1991) 177

Effects of feeding supplementary diets containing varying levels of lipid on growth, food conversion, and body composition of Nile tilapia, *Oreochromis niloticus* (L.), 93 (1991) 323

Reconditioning of Atlantic salmon (*Salmo salar*) kelts with silage-based diets: growth and reproductive performance, 96 (1991) 43

Growth and reproductive performance of bighead carp (*Aristichthys nobilis*) reared with or without feeding in floating cages, 96 (1991) 109

Influence of feed ingredients on the flavor quality of farm-raised catfish, 96 (1991) 139

Feeding and nutrition — fish, larval rearing

Growth performance and nutrient utilization of fingerling *Clarias gariepinus* (Burchell) fed raw and cooked soybean diets, 76 (1989) 119

Growth of juvenile white sturgeon (*Acipenser transmontanus*) fed different proteins, 76 (1989) 303

An assessment of processing effects on the nutritive value of marine protein sources for juvenile chinook salmon (*Oncorhynchus tshawytscha*), 77 (1989) 181

Start-feeding and on-growing of wolffish (*Anarhichas lupus*) in the laboratory, 77 (1989) 221

Milkfish (*Chanos chanos*) fingerling production in freshwater ponds with the use of natural and artificial feeds, 77 (1989) 307

The effects of feeding rotifers (*Brachionus plicatilis typicus*) on the yield and growth of

tilapia (*Oreochromis spilurus*) fry, 77 (1989) 353

Rearing of Danube salmon (*Hucho hucho* L.) fry at different temperatures, with particular emphasis on freeze-dried zooplankton as dry feed additive, 77 (1989) 363

First feeding of Atlantic salmon (*Salmo salar* L.) fry as influenced by temperature regimes, 78 (1989) 35

Lipid and *n*-3 requirement of *Sparus aurata* larvae during starvation and feeding, 79 (1989) 185

Effects of sustained exercise on growth and body composition of first-feeding fry of Arctic charr, *Salvelinus alpinus* (L.), 79 (1989) 329

Experiences with wastewater-cultured *Daphnia* in the start-feeding of rainbow trout (*Salmo gairdneri*), 79 (1989) 337

Laboratory studies on the use of rotifers (*Brachionus plicatilis*) as start-feed for cod larvae (*Gadus morhua* L.), 79 (1989) 345

Fish roe as a major component in start-feed for marine fish larvae, 79 (1989) 353

Influence of diet and oxidative rancidity on fry of Atlantic and coho salmon, 79 (1989) 417

First feeding of marine fish larvae: are free amino acids the source of energy?, 80 (1989) 111

The use of fish silage as an ingredient for eel fingerling nutrition, 80 (1989) 135

Production of Florida red tilapia in seawater pools: nursery rearing with chicken manure and growout with prepared feed, 80 (1989) 247

Etude du développement larvaire de l'Éperlan, *Osmerus mordax*, en eau pure et dans deux milieux de matière organique, le glucose et l'acétate (A study of the larval development of smelt, *Osmerus mordax*, in pure water and in two organic media, glucose and acetate), 80 (1989) 351

Protein digestion in early turbot larvae, *Scophthalmus maximus* (L.), 81 (1989) 315

Effects of temperature and feeding on smolting and seawater survival of Atlantic salmon (*Salmo salar*), 82 (1989) 93

The effect of salinity and ration level on growth rate and conversion efficiency of Atlantic salmon (*Salmo salar*) smolts, 82 (1989) 173

Effects of dietary fatty acid composition on growth and smolting of underyearling masu salmon, *Oncorhynchus masou*, 82 (1989) 181

Effect of natural and artificial diets on seasonal changes in fatty acid composition and total body lipid content of wild and hatchery-reared Atlantic salmon (*Salmo salar* L.) parr–smolt, 82 (1989) 205

Weaning time in *Clarias gariepinus* (Burchell) larvae, 83 (1989) 81

Larval rearing of the gudgeon, *Gobio gobio* L., under optimal conditions of feeding with the rotifer, *Brachionus plicatilis* O.F. Müller, 83 (1989) 305

Effect of dietary protein and energy level on growth, protein utilization and carcass composition of rabbitfish, *Siganus guttatus*, 86 (1990) 41

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. II. Survival, growth and feeding of fry developing solely on their yolk reserves, 87 (1990) 183

Energy sources during the early larval development of the European sea bass, *Dicentrarchus labrax* (L.), 87 (1990) 361

The role of exogenous enzymes in digestion in cultured turbot larvae (*Scophthalmus maximus* L.), 88 (1990) 337

The continuous feeding of turbot larvae, *Scophthalmus maximus*, and control of the bacterial environment of rotifers, 89 (1990) 139

Influence of the timing of initial feeding on the survival and growth of hatchery-reared Atlantic salmon (*Salmo salar* L.), 89 (1990) 149

Response of striped bass larvae fed brine shrimp from different sources containing different fatty acid compositions, 90 (1990) 49

Improved larval survival at metamorphosis of Asian seabass (*Lates calcarifer*) using ω3-HUFA-enriched live food, 90 (1990) 63

Culture of Florida red tilapia in marine cages: the effect of stocking density and dietary protein on growth, 90 (1990) 123

Development of dry food for larvae of *Coregonus lavaretus* L. I. Growth, food digestion and fat absorption, 91 (1990) 101

Development of dry food for larvae of *Coregonus lavaretus* L. II. Liver histology, 91 (1990) 117

The effect of dietary (*n*-3) polyunsaturated fatty acids on growth, survival and swim bladder development in *Sparus aurata* larvae, 91 (1990) 131

The influence of maternal age and delayed initial feeding on the survival and growth of previously unfed *O. niloticus* (L.) and *O. mossambicus* (Peters) fry, 91 (1990) 295

Effects of dietary α-cellulose levels on the juvenile tilapia, *Oreochromis mossambicus* (Peters), 91 (1990) 311

Requirement and utilization of ascorbic acid and ascorbic sulfate in juvenile rainbow trout, 91 (1990) 317

Replacing live foods with microencapsulated diets in the rearing of seabass (*Lates calcarifer*) larvae: do the larvae ingest and digest protein-membrane microcapsules?, 92 (1991) 225

Plankton intake as a function of body weight by common carp fry in different feeding conditions, 93 (1991) 21

Optimum dietary protein level for growth of bighead carp (*Aristichthys nobilis*) fry in a static water system, 93 (1991) 155

Supplementation of artificial diets for common carp (*Cyprinus carpio* L.) larvae, 93 (1991) 167

Arginine and threonine requirements of milkfish (*Chanos chanos* Forsskal) juveniles, 93 (1991) 313

Functional response of Atlantic halibut larvae related to prey density and distribution, 94 (1991) 89

Purified diet development and re-evaluation of the dietary protein requirement of fingerling rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 57

Comparison of three live foods and two dry diets for intensive culture of grass carp and bighead carp larvae, 96 (1991) 269

Quantitative essential amino acid requirements for growth of catla, *Catla catla* (Hamilton), 96 (1991) 281

Fatty acid composition of start-feeding salmon (*Salmo salar*) larvae, 96 (1991) 305

The gastric evacuation rate of vendace (*Coregonus albula* L.) larvae predating on zooplankters in the laboratory, 96 (1991) 343

Feeding and nutrition — fish, metabolism

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

Influence of feeding on protein metabolism in Atlantic salmon (*Salmo salar*), 79 (1989) 29

Short-term responses of protein synthesis to re-feeding in rainbow trout, 79 (1989) 37

Utilization of dietary protein by the eel (*Anguilla anguilla*): optimum dietary protein levels, 79 (1989) 53

Effect of digestible carbohydrates on protein/energy utilization and on glucose metabolism in rainbow trout (*Salmo gairdneri* R.), 79 (1989) 63

Long-term effect of a high-protein/non-carbohydrate diet on the primary liver and kidney metabolism in rainbow trout (*Salmo gairdneri*), 79 (1989) 91

Different fats in feed for salmon: influence on sensory parameters, growth rate and fatty acids in muscle and heart, 79 (1989) 129

Dietary calcium, phytate and zinc interactions in channel catfish, 79 (1989) 259

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Feed intake, digestibility and brain neurotransmitters of rainbow trout under hypoxia, 79 (1989) 317

Pigmentation of salmonids: interactions of astaxanthin and canthaxanthin on pigment deposition in rainbow trout, 79 (1989) 363

Effects of pigments from different sources on colour changes and growth of red *Oreochromis niloticus*, 79 (1989) 375

The effect of feeding astaxanthin to *Oreochromis niloticus* and *Colisa labiosa* on the histology of the liver, 79 (1989) 381

Effects of diet on consumption, growth and fatty acid composition in young grass carp, 81 (1989) 47

Dynamics of dietary canthaxanthin utilization in sexually maturing female rainbow trout (*Salmo gairdneri* Rich.) compared to triploids, 83 (1989) 359

Control of maturation in cultured Atlantic salmon, *Salmo salar*, in pumped seawater tanks, by restricting food intake, 86 (1990) 315

Effects of dietary vegetable, animal and marine lipids on muscle lipid and hematology of rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 165

Survival and bioconversion of *n*-3 fatty acids during early development of dolphin (*Coryphaena hippurus*) larvae fed oil-enriched rotifers, 89 (1990) 273

Lipid malabsorption as a possible cause of anorexia in Zn-deficient juvenile common carp, *Cyprinus carpio*, 89 (1990) 327

Response to carotenoids by rainbow trout in the sea: resorption and metabolism of dietary astaxanthin and canthaxanthin, 91 (1990) 153

Binding of soybean agglutinin to small intestinal brush border membranes and brush border membrane enzyme activities in Atlantic salmon (*Salmo salar*), 91 (1990) 163

Changes with different diets in plasma enzymes (GOT, GPT, LDH, ALP) and plasma lipids (cholesterol, triglycerides) of sea-bass (*Dicentrarchus labrax*), 93 (1991) 63

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. I. Growth dynamics, 93 (1991) 335

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. III. Chemical composition, 93 (1991) 373

The effect of dietary vitamin C on the immune response of the Atlantic salmon (*Salmo salar* L.), 95 (1991) 201

Interactions of varying dietary protein and lipid levels in young red tilapia: evidence of protein sparing, 95 (1991) 305

The effect of dietary carbohydrate on the stress response in cod (*Gadus morhua*), 95 (1991) 319

Effects of dietary lipid and carbohydrate levels on growth and body composition of juvenile red drum, *Sciaenops ocellatus*, 97 (1991) 383

Effects of soybean proteinase inhibitor on trypsin activity and digestibilities of amino acids in rainbow trout measured in the proximal and distal intestine and in faeces (Nutrition — Poster Abstracts), 100 (1992) 232

Antibody production in relation to lipid composition in rainbow trout fed diets of different (*n*-3) polyunsaturated fatty acid content (Nutrition — Poster Abstracts), 100 (1992) 232

Intestinal absorption of macromolecular proteins in rainbow trout (Nutrition — Poster Abstracts), 100 (1992) 234

Feeding and nutrition — fish, new feeds

Feather meal as a dietary protein source during parr–smolt transformation in fall chinook salmon, 89 (1990) 301

Use of triticale as a replacement for wheat middlings in diets for Atlantic salmon, 90 (1990) 173

The use of alfalfa leaf protein concentrates as a protein source in diets for tilapia (*Oreochromis mossambicus*), 90 (1990) 291

Use of lupin flour as a replacement for full-fat soy in diets for rainbow trout (*Oncorhynchus mykiss*), 93 (1991) 57

Evaluation of distillers' grains with solubles as a protein source in diets for channel catfish, 96 (1991) 179

Feeding and nutrition — fish, nutrient budget

A total nutrient budget for an experimental intensive fishpond with circulary moving seawater, 83 (1989) 345

Feeding and nutrition — fish, nutrient partitioning

Nutrient partitioning in rainbow trout at different feeding rates, 96 (1991) 191

Feeding and nutrition — fish, organic waste

Concentrations of wild and escaped fishes immediately adjacent to fish farm cages, 90 (1990) 29

Feeding and nutrition — fish, pathogenic

Reversibility of artificial feed-induced hepatocyte disturbances in cultured juvenile sea bass (*Dicentrarchus labrax*): an ultrastructural study, 88 (1990) 363

Effects of soybean-containing diets on the proximal and distal intestine in Atlantic salmon (*Salmo salar*): a morphological study, 94 (1991) 297

Feeding and nutrition — fish, physiology

The effects of naturally occurring androgens in practical diets fed to normal-sired and jack-sired progeny of coho salmon (*Oncorhynchus kisutch*), 77 (1989) 51

Physiological changes in muscle of rainbow trout fed different ration levels, 79 (1989) 293

Hepatic and intestinal histology of juvenile white sturgeon fed different carbohydrates, 87 (1990) 349

Modified uptake of the protein antigen horseradish peroxidase (HRP), following oral delivery to rainbow trout, *Oncorhynchus mykiss*, 87 (1990) 373

Feeding and nutrition — fish, pigmentation

Absorption and distribution of ^{14}C-labeled canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 87 (1990) 331

Intestinal absorption of astaxanthin, plasma astaxanthin concentration, body weight, and metabolic rate as determinants of flesh pigmentation in salmonid fish, 90 (1990) 313

Utilization of microalgal astaxanthin by rainbow trout (*Oncorhynchus mykiss*), 94 (1991) 79

Flesh pigmentation of rainbow trout fed astaxanthin or canthaxanthin at different feeding rates in freshwater and saltwater, 95 (1991) 289

Feeding and nutrition — general

The nutritional regulation of muscle growth and protein turnover, 79 (1989) 1

Feeding and nutrition — invertebrates, general

The effect of enrichment diets on the fatty acid composition of the rotifer *Brachionus plicatilis*, 79 (1989) 157

The effect of bacterial additives on the production rate and dietary value of rotifers as food for Japanese flounder, *Paralichthys olivaceus*, 83 (1989) 39

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

The effect of three strains of lactic bacteria on the production rate of rotifers, *Brachionus plicatilis*, and their dietary value for larval turbot, *Scophthalmus maximus*, 96 (1991) 335

Influence of the biochemical composition of food on the biochemical composition of the rotifer *Brachionus plicatilis*, 97 (1991) 181

Feeding and nutrition — molluscs

Effects of temperature, algal food, feeding rate and density on the larval growth of the milk conch (*Strombus costatus*) in Mexico, 76 (1989) 361

Influence of algal diets on biochemical composition and energy reserves in *Patinopecten yessoensis* (Jay) larvae, 78 (1989) 333

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Nutritional value of spray-dried *Tetraselmis suecica* for juvenile bivalves, 92 (1991) 207

Observations on ingestion and digestion of unicellular algae by *Strombus gigas* larvae (Mollusca, Gastropoda) using epifluorescence microscopy, 92 (1991) 359

Effects of gelatin–acacia microcapsule and algal meal supplementation of algal diets on growth rates of Sydney rock oyster, *Saccostrea commercialis* (Iredale and Roughley), larvae, 94 (1991) 65

Nutrition of marine mussels: factors influencing the relative utilizations of protein and energy, 94 (1991) 177

Dried-algae diets and indoor nursery cultivation of Manila clam juveniles, 95 (1991) 75

The relationship between farmed mussels, *Perna canaliculus*, and available food in Pelorus–Kenepuru Sound, New Zealand, 1983–1985, 99 (1991) 49

Feeding and nutrition — plankton

Phytoplankton nutrient uptake dynamics in earthen marine fishponds under winter and summer conditions, 76 (1989) 237

Feeding and nutrition — reptiles

Dietary energy sources for the American alligator, *Alligator mississippiensis* (Daudin), 89 (1990) 245

Fertilization

Cytological observations on fertilization in the Chinese fresh-water crab, *Eriocheir sinensis*, by artificial insemination (in vitro) and incubation, 76 (1989) 347

Fertilizers

The effect of manures and chemical fertilizers on the production of *Oreochromis niloticus* in earthen ponds, 76 (1989) 37

Evaluation of organic and inorganic fertilizers in brackishwater milkfish ponds, 76 (1989) 227

Effects of nutrient availability on primary productivity and fish production in fertilized tropical ponds, 78 (1989) 303

Effects of fertilization and stocking rate on the performance of *Penaeus japonicus* (Bate) in pond culture, 83 (1989) 269

The dominance of algal-based food webs in fish ponds receiving chemical fertilizers plus organic manures, 86 (1990) 219

Effects of manuring regime and stocking rate on primary production and yield of tilapia using liquid swine manure, 88 (1990) 61

Response of tilapia yield and economics to varying rates of organic fertilization and season in two Central American countries, 90 (1990) 279

The effect of manure application rate and frequency upon fish yield in integrated fish farm ponds, 91 (1990) 233

Relationships among nutrient inputs, water nutrient concentrations, primary production, and yield of *Oreochromis niloticus* in ponds, 92 (1991) 323

Yield of *Penaeus monodon* Fabricius in brackishwater ponds given different fertilizer combinations, 94 (1991) 39

Nitrogen input, primary productivity and fish yield in fertilized freshwater ponds in Indonesia, 94 (1991) 49

Evaluation of three organic fertilizers for paddlefish, *Polyodon spathula*, production in nursery ponds, 99 (1991) 69

Fin erosion

Lower prevalence of fin erosion in mature than in immature Atlantic salmon (*Salmo salar*) parr, 80 (1989) 223

Fish feed

Stability in fish feed and bioavailability to rainbow trout of two ascorbic acid forms, 84 (1990) 335

Fish meal

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Defatted and full-fat soybean meal as partial replacements for fishmeal in tilapia (*Oreochromis niloticus* × *O. aureus*) diets at low protein level, 86 (1990) 401

Fish roe

Fish roe as a major component in start-feed for marine fish larvae, 79 (1989) 353

Flexibacter columnaris

Induction and development of bacterial gill disease in the eel (*Anguilla japonica*) experimentally infected with *Flexibacter columnaris*: pathological changes in the gill vascular structure and in cardiac performance, 78 (1989) 1

Flounder

see *Paralichthys* sp.

Flumequine

Plasma concentrations of flumequine after intra-arterial and oral administration to rainbow trout (*Salmo gairdneri*) exposed to low water temperatures, 84 (1990) 355

Disposition of flumequine in plasma of European eel (*Anguilla anguilla*) after a single intramuscular injection, 99 (1991) 213

Formalin

Tolerance level and histopathological response of milkfish (*Chanos chanos*) fingerlings to formalin, 78 (1989) 135

Acute toxicity of formalin and copper sulfate to striped bass fingerlings held in varying salinities, 87 (1990) 255

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

Fouling

Accumulation and persistence of tri-n-butyltin in pink and chum salmon fry cultured in marine net-pens, 96 (1991) 233

Furunculosis

Genetic variation in susceptibility of Atlantic salmon to furunculosis, 97 (1991) 1

G

Gadus morhua

Ration size in the feeding of cod (*Gadus morhua*): effect on skeletal muscle proteins, with special reference to myosin heavy chain, 79 (1989) 47

Effects of ration on protein turnover in cod, 79 (1989) 103

Haematological values and fatty acid composition of erythrocyte phospholipids in cod (*Gadus morhua*) fed at different water temperatures, 79 (1989) 137

Partial purification and characterization of a triglyceride lipase from cod (*Gadus morhua*), 79 (1989) 177

Laboratory studies on the use of rotifers (*Brachionus plicatilis*) as start-feed for cod larvae (*Gadus morhua* L.), 79 (1989) 345

Fish roe as a major component in start-feed for marine fish larvae, 79 (1989) 353

Starch as an energy source in feed for cod (*Gadus morhua*): digestibility and retention, 80 (1989) 261

Growth rates of large, sexually mature cod, *Gadus morhua*, in relation to condition and temperature during an annual cycle, 81 (1989) 161

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

New marine fish species for cold-water farming, 85 (1990) 235

Restriction endonuclease analysis of mitochondrial DNA from cod (*Gadus morhua*) (abstract), 85 (1990) 318

Effects of dietary composition and energy content on the nutritional energetics of cod, *Gadus morhua*, 92 (1991) 243

The effect of dietary carbohydrate on the stress response in cod (*Gadus morhua*), 95 (1991) 319

Growth, survival and cannibalism of cod juveniles (*Gadus morhua*): effects of feed type, starvation and fish size, 97 (1991) 41

Galjoen

see *Coracinus capensis*

Gametogenesis

Influence of selective breeding, geographic origin, and disease on gametogenesis and sex ratios of oysters, *Crassostrea virginica*, exposed to the parasite *Haplosporidium nelsoni* (MSX), 88 (1990) 285

Gel-coating

Use of low-salinity water and gel-coating to minimize handling mortality of spot, *Leiostomus xanthurus* (Perciformes: Sciaenidae), 90 (1990) 17

Gelatin–acacia microcapsules

Effects of gelatin–acacia microcapsule and algal meal supplementation of algal diets on growth rates of Sydney rock oyster, *Saccostrea commercialis* (Iredale and Roughley), larvae, 94 (1991) 65

Genetics

see also Special Issue "Genetics in Aquaculture III", 85 (1990) 1–340

Instantaneous growth rate of tilapia genotypes in undisturbed aquaculture systems. I. "Red" and "grey" morphs in Indonesia, 77 (1989) 295

Estimation of heritabilities for growth, body size, and processing traits in red swamp crawfish, *Procambarus clarkii* (Girard), 78 (1989) 21

Response to selection for early spawn date in rainbow trout, *Salmo gairdneri*, 78 (1989) 153

The 'YY' supermale in *Oreochromis niloticus* (L.) and its potential in aquaculture, 78 (1989) 237

Heritability of growth in larvae and juveniles of *Mytilus edulis*, 80 (1989) 1

Body traits in rainbow trout. II. Estimates of heritabilities and of phenotypic and genetic correlations, 80 (1989) 25

Application of an electrophoretically detectable genetic marker to ploidy testing in brown trout (*Salmo trutta* L.) triploidised by heat shock, 80 (1989) 231

Identification of anadromous and non-anadromous salmon stocks in Finland by mitochondrial DNA analysis, 81 (1989) 237

Genome analysis of rainbow trout and sturgeon with restriction enzymes and hybridization with a ZFY gene derived probe to identify sex, 81 (1989) 245

Genetic structure and allele frequency dynamics in the sockeye salmon population of Lake Dalneye, Kamchatka, 84 (1990) 13

Superior developmental stability of heterozygotes at enzyme loci in *Salmo salar* L., 84 (1990) 199

Heritability estimates of growth-related traits in Arctic charr (*Salvelinus alpinus*), 84 (1990) 211

Inheritance of red body coloration in Taiwanese tilapias and in *Oreochromis mossambicus*, 84 (1990) 219

Heritability and genetic correlations for flesh coloration in pen-reared coho salmon, 86 (1990) 181

Growth of different families of Atlantic salmon (*Salmo salar*) under three experimental photoperiods, 86 (1990) 271

Stability of genome size among stocks of the channel catfish, 87 (1990) 15

Karyological analysis of three strains of the African catfish, *Clarias gariepinus* (Clariidae), used in aquaculture, 87 (1990) 271

Genetic drift and effective population sizes of hatchery-propagated stocks of the Pacific oyster, *Crassostrea gigas*, 88 (1990) 21

Selection for larval freshwater tolerance in *Macrobrachium nipponense* (de Haan), 88 (1990) 151

Inheritance of allozymes in Atlantic salmon (*Salmo salar* L.), 88 (1990) 253

Comparison of electrophoretic allele frequencies and genetic variability of common carp stocks from Indonesia and Japan, 88 (1990) 263

Influence of selective breeding, geographic origin, and disease on gametogenesis and sex ratios of oysters, *Crassostrea virginica*,

exposed to the parasite *Haplosporidium nelsoni* (MSX), 88 (1990) 285

Chromosome study of *Oncorhynchus mykiss* kamloops, 89 (1990) 1

Survival in early life of Atlantic salmon and rainbow trout: estimates of heritabilities and genetic correlations, 89 (1990) 209

Restriction site polymorphism of mitochondrial DNA of the gilthead sea bream (*Sparus aurata*) broodstock in Eilat, Israel, 89 (1990) 217

Karyological and allozymic characterization of *Ruditapes philippinarum*, *R. aureus* and *R. decussatus* (Bivalvia, Veneridae), 90 (1990) 209

The heredity of sex determination in tilapias, 92 (1991) 143

DNA fingerprinting of tilapia, *Oreochromis niloticus*, and its application to aquaculture genetics, 92 (1991) 157

Differences in growth, morphometric traits, and male sexual maturity among Pacific white shrimp, *Penaeus vannamei*, from different commercial hatcheries, 92 (1991) 165

Realized heritability of growth rate in the hard clam *Mercenaria mercenaria*, 93 (1991) 109

Allozyme variation in natural populations of Atlantic salmon in Asturias (northern Spain), 93 (1991) 291

Genetic variation in growth rate of Atlantic salmon with different trypsin-like isozyme patterns, 93 (1991) 299

Hard clam *Mercenaria mercenaria*, broodstocks: growth of selected hatchery stocks and their reciprocal crosses, 94 (1991) 17

The genetics and taxonomy of species in the genus *Mytilis*, 94 (1991) 125

The application of DNA fingerprinting in the analysis of gynogenesis in tilapia, 95 (1991) 41

Selection for high and low cortisol stress response in Atlantic salmon (*Salmo salar*) and rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 53

Genetic testing of common carp in cages. 1. Communal versus separate testing, 95 (1991) 215

Polymerase chain reaction/direct sequence analysis of the cytochrome b gene in *Salmo salar*, 95 (1991) 225

Management implications of genetic differentiation between native and hatchery populations of brown trout (*Salmo trutta*) in Spain, 95 (1991) 235

Genetic difference in trypsin-like isozyme pattern between two strains of Arctic charr (*Salvelinus alpinus*), 96 (1991) 227

Genetic variation in susceptibility of Atlantic salmon to furunculosis, 97 (1991) 1

On the comparative karyomorphology of three Indian major carps, *Catla catla* (Hamilton), *Labeo rohita* (Hamilton) and *Cirrhinus mrigala* (Hamilton), 97 (1991) 7

Evaluation of genetic variation in a domestic population of *Penaeus vannamei* (Boone): a comparison with three natural populations, 97 (1991) 131

The characterization of *Ostrea denselamellosa* (Mollusca, Bivalvia) chromosomes: karyotype, constitutive heterochromatin and nucleolus organizer regions, 97 (1991) 317

Karyological studies on the freshwater prawn *Macrobrachium rosenbergii*, 97 (1991) 327

The genetic structure of salmon populations, 98 (1991) 11

Genetic origin of Norwegian farmed Atlantic salmon, 98 (1991) 41

Documentation of successful spawning of escaped farmed female Atlantic salmon, *Salmo salar*, in Norwegian rivers, 98 (1991) 151

Competition between hatchery and wild coho salmon (*Oncorhynchus kisutch*): genetic variation for agonistic behaviour in newly-emerged wild fry, 98 (1991) 161

Genetic characterisation of Atlantic salmon (*Salmo salar*) lines farmed in Ireland, 98 (1991) 209

Protein polymorphism in Atlantic salmon within a Scottish river: evidence for selection and estimates of gene flow between tributaries, 98 (1991) 217

Genetic protein variation in Atlantic salmon in Scotland: comparison of wild and farmed fish, 98 (1991) 231

Allele frequency variation at the *AAT-4* locus as a potential measure of the relative performance of native and introduced Atlantic salmon in the River Test, 98 (1991) 243

A mitochondrial DNA restriction fragment length polymorphism of potential use for discrimination of farmed Norwegian and wild Atlantic salmon populations in Scotland, 98 (1991) 249

Genetic effects of aquaculture on natural fish populations, 98 (1991) 259

Quantitative genetics and management of wild populations, 98 (1991) 263

One-generation effects of farmed fish immigration on the genetic differentiation of wild Atlantic salmon in Norway, 98 (1991) 267

Genetic variation in red cell membrane fragility in Atlantic salmon and rainbow trout, 98 (1991) 349

Genetic variability in rainbow trout populations, 100 (1992) 51

Breeding plans for rainbow trout, 100 (1992) 73

Application of genetic technologies to rainbow trout, 100 (1992) 85

Body weight analysis for individually tagged rainbow trout: males, females and precocious males (Genetics and Breeding — Poster Abstracts), 100 (1992) 99

Application of chromosome manipulation in aquaculture of rainbow trout in the Baltic Sea region, USSR (Genetics and Breeding — Poster Abstracts), 100 (1992) 99

Geographic Information Systems

Microcomputer spreadsheets for the implementation of geographic information systems in aquaculture: a case study on carp in Pakistan, 92 (1991) 199

Gill

Migratory behaviour of underyearling *Oncorhynchus tshawytscha* and survival to adulthood as related to prerelease gill (Na^+-K^+)-ATPase development, 82 (1989) 339

In vitro hormonal stimulation of Na^+, K^+-ATPase activity and ouabain binding in gill tissue of coho salmon (abstract), 82 (1989) 379

Fatty acid profiles of eyes and epaxial muscle of coho (*Oncorhynchus kisutch*) parr and smolts, and of gills of post-smolts and stunts (abstract), 82 (1989) 380

Saltwater-induced decreases in weight and length relative to seasonal gill Na^+-K^+ ATPase changes in coho salmon (*Oncorhynchus kisutch*): a test for saltwater adaptability, 86 (1990) 19

Glucose

Effect of digestible carbohydrates on protein/energy utilization and on glucose metabolism in rainbow trout (*Salmo gairdneri* R.), 79 (1989) 63

Effects of metformin on plasma insulin, glucose metabolism and protein synthesis in the common carp (*Cyprinus carpio* L.), 80 (1989) 175

Etude du développement larvaire de l'Éperlan, *Osmerus mordax*, en eau pure et dans deux milieux de matière organique, le glucose et l'acétate (A study of the larval development of smelt, *Osmerus mordax*, in pure water and in two organic media, glucose and acetate), 80 (1989) 351

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

GnRH

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

GnRHa

Effects of acute versus sustained administration of GnRHa on GtH release and ovulation in the rainbow trout, *Oncorhynchus mykiss*, 91 (1990) 373

Gobio gobio

Larval rearing of the gudgeon, *Gobio gobio* L., under optimal conditions of feeding with the rotifer, *Brachionus plicatilis* O.F. Müller, 83 (1989) 305

Goldfish

see *Carassius auratus*

Gonadal resorption

Effects of temperature on gonadal resorption and seawater adaptability among sexually mature Baltic salmon (*Salmo salar* L.) parr (abstract), 82 (1989) 384

***Gracilaria* sp.**

A review of *Gracilaria* farming, 78 (1989) 95

Economic assessment of a successful method for mass field cultivation of *Gracilaria* in Chile, 84 (1990) 101

Abundance, effects and management of epiphytism in intertidal cultures of *Gracilaria* (Rhodophyta) in southern Chile, 92 (1991) 7

Growth — algae

Biochemical composition and growth of the marine microalga *Dunaliella tertiolecta* (Butcher) with different ammonium nitrogen concentrations as chloride, sulphate, nitrate and carbonate, 83 (1989) 289

Growth of the seaweeds *Kappaphycus alvarezii*, *K. striatum* and *Eucheuma denticulatum* as affected by environment in Hawaii, 84 (1990) 245

Growth — crustaceans

The effect of two temperatures and salinities on growth and survival of bilaterally eyestalk ablated and intact juvenile American lobsters, *Homarus americanus*, fed brine shrimp, 76 (1989) 373

Effect of sodium phytate on growth and tissue mineralization of *Penaeus japonicus* and *Penaeus vannamei* juveniles, 77 (1989) 145

Estimation of heritabilities for growth, body size, and processing traits in red swamp crawfish, *Procambarus clarkii* (Girard), 78 (1989) 21

Social control of growth in *Macrobrachium rosenbergii*. I. The effect of claw ablation on survival and growth communally raised prawns, 80 (1989) 325

Growth characteristics and relationships among body length, body weight and tail weight of *Penaeus monodon* from a culture environment in Taiwan, 91 (1990) 253

Lethal levels of low dissolved oxygen and effects of short-term oxygen stress on subsequent growth of juvenile *Penaeus monodon*, 94 (1991) 27

Larval growth comparison of *Macrobrachium rosenbergii* (de Man) and *M. nipponense* (de Haan), 95 (1991) 251

The effect of water hardness on growth and carapace mineralization of juvenile freshwater prawns, *Macrobrachium rosenbergii* de Man, 95 (1991) 329

Social control of growth in *Macrobrachium rosenbergii*. II. The "leapfrog" growth pattern, 96 (1991) 353

Growth — echinoids

Paracentrotus lividus (Lamarck) in culture (larval and benthic phases): parameters of growth observed during two years following metamorphosis, 84 (1990) 173

Growth — fish

A comparison of the growth performance of rainbow trout (*Salmo gairdneri*) in fresh and brackish water in Yugoslavia, 77 (1989) 1

Instantaneous growth rate of tilapia genotypes in undisturbed aquaculture systems. I. "Red" and "grey" morphs in Indonesia, 77 (1989) 295

Observations on the growth of juvenile Atlantic halibut (*Hippoglossus hippoglossus* L.) in captivity, 80 (1989) 79

Growth rates of large, sexually mature cod, *Gadus morhua*, in relation to condition and temperature during an annual cycle, 81 (1989) 161

Effects of rearing conditions on growth and thyroid hormones during smolting of Atlantic salmon, *Salmon salar* L., 82 (1989) 29

Effect of photoperiod and various intensities of night illumination on growth and seawater adaptability of juvenile coho salmon (*Oncorhynchus kisutch*), 82 (1989) 39

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Effects of photoperiod on growth and smolting in juvenile Atlantic salmon (*Salmo salar*), 82 (1989) 103

Some influences of photoperiod and temperature on opportunity for growth in juvenile Atlantic salmon, *Salmo salar* L., 82 (1989) 119

The effect of constant 12-hour light and simulated natural light on growth, cardiac–somatic index and smolting in the Atlantic salmon (*Salmon salar*), 82 (1989) 127

The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages, 82 (1989) 155

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater, 82 (1989) 307

Delayed photoperiod, seapen survival and growth rate of 0-age coho salmon (*Oncorhynchus kisutch*), under intensive culture conditions (abstract), 82 (1989) 375

Relationships between smolt length and growth and maturation in the sea of individually tagged Atlantic salmon (*Salmo salar*), 83 (1989) 95

The effects of the synthetic steroid 17-alpha-methyltestosterone on the growth and organ morphology of the channel catfish (*Ictalurus punctatus*), 84 (1990) 81

Heritability estimates of growth-related traits in Arctic charr (*Salvelinus alpinus*), 84 (1990) 211

Genotype–environment interactions for growth of blue, channel and hybrid catfish in ponds and cages at varying densities, 85 (1990) 143

Correlated responses to selection for grilse length in Atlantic salmon, 85 (1990) 171

Phenotypic correlations among behaviour and growth variables in tilapia: implications for domestication selection, 85 (1990) 177

Genetic changes in the growth of coho salmon (*Oncorhynchus kisutch*) in marine net-pens, produced by ten years of selection, 85 (1990) 187

Response to mass selection for growth rate in *Oreochromis niloticus*, 85 (1990) 199

Variation in growth and survival between two anadromous strains of Canadian Arctic charr (*Salvelinus alpinus*) during long-term saltwater rearing, 85 (1990) 259

Family studies on genetic variability in growth and reproductive performance between and within test fish populations of the zebrafish, *Brachydanio rerio*, 85 (1990) 307

Relationships between growth and colour patterns genes in three strains of the guppy (*Poecilia reticulata*) under intra- and interstrain competition (abstract), 85 (1990) 319

Influence of the date and body size at smoltification and subsequent growth rate and photoperiod on desmoltification in underyearling masu salmon (*Oncorhynchus masou*), 86 (1990) 209

Growth of different families of Atlantic salmon (*Salmo salar*) under three experimental photoperiods, 86 (1990) 271

Suppression of maturation in male Atlantic salmon (*Salmo salar* L.) parr by reduction in feeding and growth during spring months, 86 (1990) 291

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. II. Survival, growth and feeding of fry developing solely on their yolk reserves, 87 (1990) 183

Effects of *Oreochromis niloticus* females on the growth and yield of male hybrids (*O. niloticus* female × *O. homorum* male) cultured in earthen ponds, 88 (1990) 55

Bioeconomic analysis of fish growth: effects of dietary protein and ration size, 88 (1990) 223

Growth and yield of mixed-sex, young-of-the-year *Oreochromis niloticus* raised at two densities in earthen ponds in Alabama, U.S.A., 89 (1990) 21

Growth of Atlantic salmon (*Salmo salar* L.) in a variable diel temperature regime, 90 (1990) 261

Stochastic model of carp fingerling growth, 91 (1990) 87

Growth acceleration of coho salmon (*Oncorhynchus kisutch*) following oral administration of recombinant bovine somatotropin, 91 (1990) 197

Genetic variation in growth rate of Atlantic salmon with different trypsin-like isozyme patterns, 93 (1991) 299

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. I. Growth dynamics, 93 (1991) 335

Effects of transfer to seawater on growth and feeding in Atlantic salmon smolts (*Salmo salar* L.), 94 (1991) 309

Maximum observed length as in indicator of growth rate in tropical fishes, 94 (1991) 327

Patterns of growth of maturing and immature Arctic charr, *Salvelinus alpinus*, in a hatchery population, 94 (1991) 343

Effects of water exchange on *Oreochromis niloticus* (L.) growth and water quality in outdoor concrete tanks, 95 (1991) 67

Size and age at transformation in red sea bream, *Pagrus major*, reared in the laboratory, 95 (1991) 117

Genetic testing of common carp in cages. 1. Communal versus separate testing, 95 (1991) 215

Early growth and survival of heat-shocked and tetraploid-derived triploid rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 97

The effect of salinity on the survival and growth of striped mullet (*Mugil cephalus*) larvae in the hatchery, 96 (1991) 249

Growth patterns of pike (*Esox lucius* L.) larvae and juveniles in small ponds under various natural temperature regimes, 97 (1991) 155

Atlantic salmon in duoculture with Arctic charr: decreased aggression enhances growth and stocking density potential, 98 (1991) 355

A comparison of growth between rainbow trout and Arctic charr in different temperatures (Husbandry and Management — Poster Abstracts), 100 (1992) 168

A growth model fitting procedure that simultaneously provides an accurate feeding table (Husbandry and Management — Poster Abstracts), 100 (1992) 168

Control of growth of rainbow trout (*Oncorhynchus mykiss*), 100 (1992) 299

Relationship between growth and initial weight of eggs and fish of rainbow trout (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 324

Growth — invertebrates, general

Rapid growth of the brine shrimp, *Artemia franciscana* Kellogg, in xenic cultures of *Chlorella* sp. (Chlorophyceae), 81 (1989) 185

Growth — molluscs

Heritability of growth in larvae and juveniles of *Mytilus edulis*, 80 (1989) 1

Environmental influences on growth and survival during the ocean-nursery rearing of giant clams, *Tridacna gigas* (L.), 80 (1989) 45

Production model for suspended culture of the Pacific oyster, *Crassostrea gigas*, 87 (1990) 35

Growth of tray-cultured oysters (*Crassostrea virginica* Gmelin) in Chesapeake Bay, 87 (1990) 289

Growth of *Crassostrea cucullata* Born (Bivalvia) at different levels in the intertidal zone, 88 (1990) 303

Realized heritability of growth rate in the hard clam *Mercenaria mercenaria*, 93 (1991) 109

Hard clam *Mercenaria mercenaria*, broodstocks: growth of selected hatchery stocks and their reciprocal crosses, 94 (1991) 17

The Iceland scallop, *Chlamys islandica* (O.F. Müller) in Breidafjördur, west Iceland. I. Spat collection and growth during the first year, 97 (1991) 13

Growth — reptiles

The effect of direct sunlight and temperature on growth and survival of captive young Nile crocodiles, *Crocodilus niloticus*, 94 (1991) 291

Growth hormone

Experimental administration of recombinant bovine growth hormone to juvenile rainbow trout (*Salmo gairdneri*) by injection or by immersion, 76 (1989) 145

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 279

Plasma levels of prolactin and growth hormone during parr–smolt transformation of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 382

Osmoregulation and circulating growth hormone and prolactin levels in hypophysectomized coho salmon (*Oncorhynchus kisutch*) after transfer to fresh water and seawater, 92 (1991) 33

Plasma kinetics of growth hormone in the Japanse eel, *Anguilla japonica*, 95 (1991) 179

Gudgeon

see *Gobio gobio*

Guppy

see *Poecilia reticulata*

Gusathion A

Effects of Gusathion A on the survival and shell quality of juvenile *Penaeus monodon*, 93 (1991) 9

Gynogenesis

Study of clones of commercial fish (abstract), 85 (1990) 327

Thermal induction of gynogenesis and triploidy in Atlantic salmon (*Salmo salar*) and their potential interest for aquaculture, 89 (1990) 351

Optimal thermal shocks for induced diploid gynogenesis in chinook salmon (*Oncorhynchus tshawytscha*), 90 (1990) 239

Gynogenesis in common carp (*Cyprinus carpio* L.). II. The production of homozygous gynogenetic clones and F_1 hybrids, 92 (1991) 127

The application of DNA fingerprinting in the analysis of gynogenesis in tilapia, 95 (1991) 41

Gyrodactylus salaris

The *Gyrodactylus* story in Norway, 98 (1991) 289

A review of the inter- and intraspecific variability in salmonid hosts to laboratory infections with *Gyrodactylus salaris* Malmberg, 98 (1991) 303

H

Haematology

Some properties of the blood of European eel (*Anguilla anguilla*) and the possible relationship with *Anguillicola crassus* infestations, 76 (1989) 203

Haematological values and fatty acid composition of erythrocyte phospholipids in cod

(*Gadus morhua*) fed at different water temperatures, 79 (1989) 137

Some physiological responses of Atlantic salmon (*Salmo salar*) exposed to soft, acidic water during smolting, 82 (1989) 229

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

Blood plasma parameters in farmed Atlantic salmon (*Salmo salar* L.) transferred to sea cages at age eight to ten months, 84 (1990) 159

The effect of different infection levels with infective larvae of *Anguillicola crassus* on haematological parameters of European eel (*Anguilla anguilla*), 87 (1990) 243

Effects of dietary vegetable, animal and marine lipids on muscle lipid and hematology of rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 165

Virus-like particles in erythrocytes of coho salmon (*Oncorhynchus kisutch*), 89 (1990) 377

Hemoglobins in smoltifying chinook salmon, *Oncorhynchus tshawytscha*, subjected to photoperiod control, 95 (1991) 359

Genetic variation in red cell membrane fragility in Atlantic salmon and rainbow trout, 98 (1991) 349

The effects of methods of immobilization on the haematology and tissue chemistry of rainbow trout (Husbandry and Management — Poster Abstracts), 100 (1992) 172

Halibut

see *Hippoglossus hippoglossus*

***Haliotis* spp.**

Disinfectants and therapeutic agents for controlling *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), an abalone pathogen, 78 (1989) 207

Handling mortality

Use of low-salinity water and gel-coating to minimize handling mortality of spot, *Leiostomus xanthurus* (Perciformes: Sciaenidae), 90 (1990) 17

Haplosporidium nelsoni

Influence of selective breeding, geographic origin, and disease on gametogenesis and sex ratios of oysters, *Crassostrea virginica*, exposed to the parasite *Haplosporidium nelsoni* (MSX), 88 (1990) 285

Hatching process

The effects of hypoxia, alkalinity and neurochemicals on hatching of Atlantic salmon (*Salmo salar*) eggs, 86 (1990) 417

HCG

Lack of antigenicity of human chorionic gonadotropin in silver carp (*Hypophthalmichthys molitrix*) and goldfish (*Carassius auratus*), 78 (1989) 81

Effects of LHRH-A and HCG on the steroid profiles of bisexual and mature male and female protandrous black porgy, *Acanthopagrus schlegeli*, 92 (1991) 83

Induced spawning of rabbitfish, *Siganus guttatus* (Bloch) using human chorionic gonadotropin (HCG), 95 (1991) 133

Heart

Different fats in feed for salmon: influence on sensory parameters, growth rate and fatty acids in muscle and heart, 79 (1989) 129

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Helminths

Diphyllobothrium sp. infections in freshwater-reared Atlantic salmon (*Salmo salar* L.), 95 (1991) 7

Herring

see *Clupea harengus*

Heteropneustes fossilis

Effect of dietary protein level on growth, feed conversion and body composition of shingi (*Heteropneustes fossilis* Bloch), 77 (1989) 175

Piscicidal plants of Nepal: toxicity to air-breathing predatory fish (*Ophiocephalus punctatus*, *Clarias batrachus* and *Heteropneustes fossilis*) and the duration of risk to cultivated fish, 78 (1989) 285

Hippoglossus hippoglossus

Observations on the growth of juvenile Atlantic halibut (*Hippoglossus hippoglossus* L.) in captivity, 80 (1989) 79

New marine fish species for cold-water farming, 85 (1990) 235

Freeze branding of Atlantic halibut, 89 (1990) 383

Appetite, gut transit, oxygen uptake and nitrogen excretion in captive Atlantic halibut, *Hippoglossus hippoglossus* L., and lemon sole, *Microstomus kitt* (Walbaum), 90 (1990) 267

Functional response of Atlantic halibut larvae related to prey density and distribution, 94 (1991) 89

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

Ovulatory rhythms and egg viability in the Atlantic halibut (*Hippoglossus hippoglossus*), 97 (1991) 365

Effect of dietary fat level on weight gain, digestibility, and fillet composition of Atlantic halibut, 99 (1991) 331

Homarus americanus

The effect of two temperatures and salinities on growth and survival of bilaterally eyestalk ablated and intact juvenile American lobsters, *Homarus americanus*, fed brine shrimp, 76 (1989) 373

Homarus gammarus

Lethal and sub-lethal effects of the salmon delousing agent dichlorvos on the larvae of the lobster (*Homarus gammarus* L.) and herring (*Clupea harengus* L.), 98 (1991) 331

Hucho hucho

Rearing of Danube salmon (*Hucho hucho* L.) fry at different temperatures, with particular emphasis on freeze-dried zooplankton as dry feed additive, 77 (1989) 363

Hybridization

Effects of *Oreochromis niloticus* females on the growth and yield of male hybrids (*O. niloticus* female × *O. hornorum* male) cultured in earthen ponds, 88 (1990) 55

Hybrids

Optimal dietary protein level for hybrid tilapia (*Oreochromis niloticus* × *O.aureus*) reared in seawater, 81 (1989) 119

11β-Hydroxyandrostenedione

Effects of 17α-methyltestosterone and 11β-hydroxyandrostenedione on gonad differentiation in the African catfish, *Clarias gariepinus*, 83 (1989) 179

Hypophthalmichthys molitrix

Lack of antigenicity of human chorionic gonadotropin in silver carp (*Hypophthalmichthys molitrix*) and goldfish (*Carassius auratus*), 78 (1989) 81

Daily food consumption and feeding rhythm of silver carp (*Hypophthalmichthys molitrix*) during fry to fingerling period, 83 (1989) 73

Feeding experiments with silver carp (*Hypophthalmichthys molitrix* Val.) fry, 83 (1989) 331

Hypophthalmichthys nobilis

Induced triploids and tetraploids in bighead carp, *Hypophthalmichthys nobilis*, verified by multi-embryo cytofluorometric analysis, 87 (1990) 121

Comparison of three live foods and two dry diets for intensive culture of grass carp and bighead carp larvae, 96 (1991) 269

Hypoxia

Feed intake, digestibility and brain neurotransmitters of rainbow trout under hypoxia, 79 (1989) 317

I

Ictalurus punctatus

Effects of various levels of dietary copper and zinc on channel catfish, 76 (1989) 127

Protein-to-energy ratios in production diets and growth, feed conversion and body composition of channel catfish, *Ictalurus punctatus*, 77 (1989) 21

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish (*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Studies on the essential fatty acid requirement of channel catfish, *Ictalurus punctatus*, 79 (1989) 121

Dietary calcium, phytate and zinc interactions in channel catfish, 79 (1989) 259

Effect of supplemental phytate and/or tricalcium phosphate on weight gain, feed efficiency and zinc content in vertebrae of channel catfish, 80 (1989) 155

Evaluation of L-ascorbyl-2-polyphosphate (AsPP) as a dietary ascorbic acid source for channel catfish, 81 (1989) 129

The effects of the synthetic steroid 17-alpha-methyltestosterone on the growth and organ morphology of the channel catfish (*Ictalurus punctatus*), 84 (1990) 81

Stability of genome size among stocks of the channel catfish, 87 (1990) 15

Bioeconomic analysis of fish growth: effects of dietary protein and ration size, 88 (1990) 223

Partial substitution of soybean meal with animal protein sources in diets for channel catfish, 90 (1990) 303

Seasonal levels of serum vitellogenin and oocyte growth in the channel catfish *Ictalurus punctatus*, 90 (1990) 353

Effects of feeding 17α-methyltestosterone, 11-ketotestosterone, 17β-estradiol, and 3,5,3'-triiodothyronine to channel catfish, *Ictalurus punctatus*, 92 (1991) 377

Production of sunfish (*Lepomis* spp.) and channel catfish (*Ictalurus punctatus*) in acidified ponds, 94 (1991) 381

Influence of feed ingredients on the flavor quality of farm-raised catfish, 96 (1991) 139

Evaluation of distillers' grains with solubles as a protein source in diets for channel catfish, 96 (1991) 179

Antibiotic resistance in Gram-negative bacteria from cultured catfish and aquaculture ponds, 99 (1991) 203

Survival and integration rate of channel catfish and common carp embryos microinjected with DNA at various developmental stages, 99 (1991) 249

***Ictalurus* spp.**

Genotype–environment interactions for growth of blue, channel and hybrid catfish in ponds and cages at varying densities, 85 (1990) 143

Immobilization

The effects of methods of immobilization on the haematology and tissue chemistry of rainbow trout (Husbandry and Management — Poster Abstracts), 100 (1992) 172

Immunology

The relationship between diet and the immune response of fish, 79 (1989) 193

Disease resistance and humoral antibody production in rainbow trout fed high levels of vitamin C, 79 (1989) 207

The appearance of soluble antigen, horseradish peroxidase (HRP), in tissues of the rainbow trout (*Salmo gairdneri* Richardson), subsequent to variable dip-immersion procedures, 79 (1989) 411

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

The genetic influence on serum haemolytic activity in rainbow trout, 85 (1990) 109

Characterization of new immunogenetic markers using carp alloantisera: evidence for the presence of major histocompatibility complex (MHC) molecules, 85 (1990) 119

The effect of vitamin E on the immune response of the Atlantic salmon (*Salmo salar* L.), 87 (1990) 1

Quantitative and qualitative differences in the antibodies produced by immunosuppressed rainbow trout, *Oncorhynchus mykiss*, to *Aeromonas salmonicida*, 88 (1990) 205

The effect of dietary vitamin C on the immune response of the Atlantic salmon (*Salmo salar* L.), 95 (1991) 201

Relationship between diet and immune response in Atlantic salmon (*Salmo salar* L.) after feeding various levels of ascorbic acid and omega-3 fatty acids, 98 (1991) 363

Infectious pancreatic necrosis virus

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Insulin

Effects of metformin on plasma insulin, glucose metabolism and protein synthesis in the common carp (*Cyprinus carpio* L.), 80 (1989) 175

Intestinal tract

Hepatic and intestinal histology of juvenile white sturgeon fed different carbohydrates, 87 (1990) 349

Intestine

Contractile mechanisms of rainbow trout intestine: transmurally stimulated contractions (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 321

Relationship of non-myelinated nerves and eosinophilic granule cells of rainbow trout intestine (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 328

Iron

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Isochrysis galbana

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Biochemical quality of marine unicellular algae with special emphasis on lipid composition. I. *Isochrysis galbana*, 97 (1991) 61

K

Kappaphycus alvarezii

Growth of the seaweeds *Kappaphycus alvarezii*, *K. striatum* and *Eucheuma denticulatum* as affected by environment in Hawaii, 84 (1990) 245

Kappaphycus striatum

Growth of the seaweeds *Kappaphycus alvarezii*, *K. striatum* and *Eucheuma denticulatum* as affected by environment in Hawaii, 84 (1990) 245

Ketamine hydrochloride

The physiologic effects of the anesthetic ketamine hydrochloride on two salmonid species, 90 (1990) 323

11-Ketotestosterone

Effects of feeding 17α-methyltestosterone, 11-ketotestosterone, 17β-estradiol, and 3,5,3'-triiodothyronine to channel catfish, *Ictalurus punctatus*, 92 (1991) 377

Kidney

Long-term effect of a high-protein/non-carbohydrate diet on the primary liver and kidney metabolism in rainbow trout (*Salmo gairdneri*), 79 (1989) 91

L

L-ascorbyl-2-polyphosphate

Evaluation of L-ascorbyl-2-polyphosphate (AsPP) as a dietary ascorbic acid source for channel catfish, 81 (1989) 129

Labeo rohita

Preliminary observations on induced polyploidy in Indian major carps, *Labeo rohita* (Ham.) and *Catla catla* (Ham.), 87 (1990) 279

On the comparative karyomorphology of three Indian major carps, *Catla catla* (Hamilton), *Labeo rohita* (Hamilton) and *Cirrhinus mrigala* (Hamilton), 97 (1991) 7

Offspring fitness and fecundity of an Indian major carp, *Labeo rohita* (Ham.), in relation to egg size, 97 (1991) 269

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Labyrinthuloides haliotidis

Resistance to ozone of zoospores of the thraustochytrid abalone parasite, *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), 78 (1989) 147

Disinfectants and therapeutic agents for controlling *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), an abalone pathogen, 78 (1989) 207

Lactate

Effects of dietary lactate and propionate on growth and digesta in Arctic charr, *Salvelinus alpinus* (L.), 96 (1991) 321

Lactobacillus

The effect of three strains of lactic bacteria on the production rate of rotifers, *Brachionus plicatilis*, and their dietary value for larval turbot, *Scophthalmus maximus*, 96 (1991) 335

Lates calcarifer

Dose-dependent spawning response of mature female sea bass, *Lates calcarifer* (Bloch), to pelleted luteinizing hormone-releasing hormone analogue (LHRHa), 77 (1989) 85

Development of an ovarian biopsy technique in the sea bass, *Lates calcarifer* (Bloch), 77 (1989) 97

Improved larval survival at metamorphosis of Asian seabass (*Lates calcarifer*) using ω3-HUFA-enriched live food, 90 (1990) 63

Replacing live foods with microencapsulated diets in the rearing of seabass (*Lates calcarifer*) larvae: do the larvae ingest and digest protein-membrane microcapsules?, 92 (1991) 225

Leiostomus xanthurus

Use of low-salinity water and gel-coating to minimize handling mortality of spot, *Leiostomus xanthurus* (Perciformes: Sciaenidae), 90 (1990) 17

Lepeophtheirus salmonis

The role of saithe, *Pollachius virens* L., as a host for the sea lice, *Lepeoptheirus salmonis* Krøyer and *Caligus elongatus* Nordmann, 89 (1990) 201

A study of dichlorvos (Nuvan; 2,2 dichloroethenyl dimethyl phosphate), a therapeutic agent for the treatment of salmonids infected with sea lice (*Lepeophtheirus salmonis*), 90 (1990) 101

A report on some metazoan parasites of wild marine salmon (*Salmo salar* L.) from the west coast of Norway with comments on their interactions with farmed salmon, 98 (1991) 311

***Lepomis* spp.**

Production of sunfish (*Lepomis* spp.) and channel catfish (*Ictalurus punctatus*) in acidified ponds, 94 (1991) 381

LHRHa

Dose-dependent spawning response of mature female sea bass, *Lates calcarifer* (Bloch), to pelleted luteinizing hormone-releasing hormone analogue (LHRHa), 77 (1989) 85

Dietary administration of an LHRH analogue induces spawning of spotted seatrout (*Synoscion nebulosus*), 80 (1989) 363

Induction of maturation and ovulation by pimozide–LHRH analogue treatment and resulting high quality egg production in the Asian catfish, *Clarias batrachus* (L.), 83 (1989) 193

Effects of LHRH-A and HCG on the steroid profiles of bisexual and mature male and female protandrous black porgy, *Acanthopagrus schlegeli*, 92 (1991) 83

LHRH-a and domperidone-induced oocyte maturation and ovulation in bighead carp, *Aristichthys nobilis* (Richardson), 93 (1991) 87

Effects of gonadotropin-releasing hormone agonists and dopamine antagonists on gonadotropin secretion and ovulation in Chinese loach, *Paramisgurnus dabryanus*, 95 (1991) 139

Effect of a synthetic LHRH analogue and dopamine antagonists on the maturation of bream, *Abramis brama* L., 95 (1991) 373

Spermiation response of mature rabbitfish, *Siganus guttatus* Bloch, to luteinizing hormone-releasing hormone analogue (LHRHa) injection, 97 (1991) 291

Linseed

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Liver

Long-term effect of a high-protein/non-carbohydrate diet on the primary liver and kidney metabolism in rainbow trout (*Salmo gairdneri*), 79 (1989) 91

The effect of feeding astaxanthin to *Oreochromis niloticus* and *Colisa labiosa* on the histology of the liver, 79 (1989) 381

Investigation of hepatic cytosolic proteins during parr-smolt transformation of Atlantic salmon (*Salmo salar*), 82 (1989) 1

Elevated liver potassium in juvenile, seawater-adapted coho salmon (abstract), 82 (1989) 378

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Hepatic and intestinal histology of juvenile white sturgeon fed different carbohydrates, 87 (1990) 349

Reversibility of artificial feed-induced hepatocyte disturbances in cultured juvenile sea bass (*Dicentrarchus labrax*): an ultrastructural study, 88 (1990) 363

Development of dry food for larvae of *Coregonus lavaretus* L. II. Liver histology, 91 (1990) 117

Copper levels in the muscle and liver tissue of farmed chinook salmon, *Oncorhynchus tshawytscha*, 99 (1991) 105

Response of epaxial muscle and liver to 17-β estradiol in fed and starved Atlantic salmon (*Salmo salar*), 99 (1991) 179

Lobster

see *Homarus* spp.

Loma salmonae

Loma salmonae (Protozoa: Microspora) infections in seawater reared coho salmon *Oncorhynchus kisutch*, 80 (1989) 211

Luminous bacterial disease

Occurrence of luminous bacterial disease of *Penaeus monodon* larvae in the Philippines, 91 (1990) 1

Lunar cycle

Thyroid hormones in migrating Atlantic salmon, 82 (1989) 319

Effect of lunar-phased releases on adult recovery of coho salmon from Trinity River and Iron Gate hatcheries in California, 82 (1989) 355

Lupin flour

Use of lupin flour as a replacement for full-fat soy in diets for rainbow trout (*Oncorhynchus mykiss*), 93 (1991) 57

Lymphoid organs

Comparative study of the ontogeny of the lymphoid organs in three species of marine fish, 99 (1991) 143

M

Macquaria novemaculeata

Initial swim bladder inflation in intensively reared Australian bass larvae, *Macquaria novemaculeata* (Steindachner) (Perciformes: Percichthyidae), 86 (1990) 431

Macrobrachium acanthurus

The respiratory requirements of *Macrobrachium acanthurus* (Weigman) at different temperatures and salinities, 93 (1991) 191

Macrobrachium nipponense

Selection for larval freshwater tolerance in *Macrobrachium nipponense* (de Haan), 88 (1990) 151

Larval growth comparison of *Macrobrachium rosenbergii* (de Man) and *M. nipponense* (de Haan), 95 (1991) 251

Macrobrachium rosenbergii

Effects of purified dietary fatty acids on the fatty acid composition of freshwater shrimp, *Macrobrachium rosenbergii*, 77 (1989) 157

Social control of growth in *Macrobrachium rosenbergii*. I. The effect of claw ablation on survival and growth communally raised prawns, 80 (1989) 325

Growth potentialities of the giant tropical prawn, *Macrobrachium rosenbergii* (De Man), in waste-heat discharge waters of a thermoelectric power station, 81 (1989) 111

A preliminary study on the aerobic heterotrophic bacterial flora in giant freshwater prawn, *Macrobrachium rosenbergii*, hatcheries in Malaysia, 81 (1989) 213

Freshwater prawn culture: a review, 88 (1990) 99

Response of juvenile freshwater prawn, *Macrobrachium rosenbergii*, to different levels of a cod liver oil/corn oil mixture in a semi-purified diet, 93 (1991) 121

Larval growth comparison of *Macrobrachium rosenbergii* (de Man) and *M. nipponense* (de Haan), 95 (1991) 251

The effect of water hardness on growth and carapace mineralization of juvenile freshwater prawns, *Macrobrachium rosenbergii* de Man, 95 (1991) 329

Spawning cycle and oocyte maturation in laboratory-maintained giant freshwater prawns (*Macrobrachium rosenbergii*), 95 (1991) 347

Social control of growth in *Macrobrachium rosenbergii*. II. The "leapfrog" growth pattern, 96 (1991) 353

Karyological studies on the freshwater prawn *Macrobrachium rosenbergii*, 97 (1991) 327

Magnesium

Responses of red drum (*Sciaenops ocellatus*) to calcium and magnesium concentrations in fresh and salt water, 76 (1989) 21

Availability of various magnesium compounds to tilapia (*Oreochromis niloticus*), 76 (1989) 269

Interaction between dietary protein and magnesium level in tilapia (*Oreochromis niloticus*, 76 (1989) 277

Whole body magnesium concentration as an indicator status in rainbow trout (*Salmo gairdneri*), 77 (1989) 201

Availability of dietary magnesium to rainbow trout as determined by apparent retension, 86 (1990) 51

Maize starch

Effect of extrusion on efficiency of utilization of maize starch by rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 293

Male reproductive tract degenerative syndrome

Characterization of male reproductive tract degenerative syndrome in captive penaeid shrimp (*Penaeus setiferus*), 78 (1989) 365

Manure

The effect of manures and chemical fertilizers on the production of *Oreochromis niloticus* in earthen ponds, 76 (1989) 37

Production of Florida red tilapia in seawater pools: nursery rearing with chicken manure and growout with prepared feed, 80 (1989) 247

Effects of manuring regime and stocking rate on primary production and yield of tilapia using liquid swine manure, 88 (1990) 61

Extending the limits of fish production in manured static-water ponds, 89 (1990) 27

The effect of manure application rate and frequency upon fish yield in integrated fish farm ponds, 91 (1990) 233

Potential benefits of manure in aquaculture: a note qualifying the conclusions from our paper on the dominance of algal-based food webs in fish ponds, 94 (1991) 307

Effects of manuring rate on ecology and fish performance in polyculture ponds, 96 (1991) 119

Marketing

The development of trout markets and marketing with particular reference to the European experience, 100 (1992) 11

Cultivation of rainbow trout in marine areas of the USSR (Economics and marketing — Poster Abstracts), 100 (1992) 47

Economics and marketing: Chairman's summary, 100 (1992) 49

Maturation

Suppression of maturation in male Atlantic salmon (*Salmo salar* L.) parr by reduction in feeding and growth during spring months, 86 (1990) 291

Control of maturation in cultured Atlantic salmon, *Salmo salar*, in pumped seawater tanks, by restricting food intake, 86 (1990) 315

Overwintering and sexual maturation of *Penaeus penicillatus* Alcock in an outdoor earth pond, 86 (1990) 327

Mebendazole

Anthelminthic activity of praziquantel, niclosamide, netobimin and mebendazole against *Bothriocephalus scorpii* naturally infecting turbot (*Scophthalmus maximus*), 76 (1989) 199

Mebendazole treatment of pseudodactylogyrosis in an intensive eel-culture system, 86 (1990) 139

Mebendazole treatment against *Pseudodactylogyrus* infections in eel (*Anguilla anguilla*), 91 (1990) 15

Menadione sodium bisulfite

Problems associated with the present use of menadione sodium bisulfite and vitamin A in diets for Atlantic salmon, 92 (1991) 351

Mercenaria mercenaria

Nutritional value of spray-dried *Tetraselmis suecica* for juvenile bivalves, 92 (1991) 207

Realized heritability of growth rate in the hard clam *Mercenaria mercenaria*, 93 (1991) 109

Hard clam *Mercenaria mercenaria*, broodstocks: growth of selected hatchery stocks and their reciprocal crosses, 94 (1991) 17

Mercury

Mercury levels in the sediment, water, and selected finfishes of Laguna Lake, The Philippines, 84 (1990) 277

Metabolism

Glucose metabolism in the common carp (*Cyprinus carpio* L.): the effects of cobalt and chromium, 76 (1989) 255

Influence of feeding on protein metabolism in Atlantic salmon (*Salmo salar*), 79 (1989) 29

Long-term effect of a high-protein/non-carbohydrate diet on the primary liver and kidney metabolism in rainbow trout (*Salmo gairdneri*), 79 (1989) 91

Comparative study of the energetic metabolism of Atlantic salmon (*Salmo salar*) parr and smolts, 82 (1989) 163

Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish, 82 (1989) 191

Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 279

Preliminary study on the effect of short-term carnitine treatment on nucleic acids and protein metabolism in sea bass (*Dicentrarchus labrax* L.) fry, 87 (1990) 85

Metabolic and osmoregulatory changes during temperature acclimation in the red sea bream, *Chrysophrys major*: implications for its culture in the subtropics, 87 (1990) 197

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. II. Activity of key enzymes in energy metabolism, 93 (1991) 357

Survival and aspects of metabolism in oysters, *Crassostrea gigas*, during and after prolonged air storage, 93 (1991) 389

Metapenaeus ensis

Chaetoceros gracilis as the exclusive feed for the larvae and postlarvae of the shrimp *Metapenaeus ensis*, 83 (1989) 281

Metapenaeus macleayi

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

Metformin

Effects of metformin on plasma insulin, glucose metabolism and protein synthesis in the common carp (*Cyprinus carpio* L.), 80 (1989) 175

Methanol

Cooling and freezing tolerances in embryos of the Pacific oyster, *Crassostrea gigas*: methanol and sucrose effects, 92 (1991) 43

Metomidate

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Micropogonias undulatus

Cryopreservation of Atlantic croaker spermatozoa, 94 (1991) 355

Micropterus salmoides

An aquacultural evaluation of Florida, northern, and hybrid largemouth bass, *Micropterus salmoides*, 85 (1990) 247

Microstomus kitt

Appetite, gut transit, oxygen uptake and nitrogen excretion in captive Atlantic halibut, *Hippoglossus hippoglossus* L., and lemon sole, *Microstomus kitt* (Walbaum), 90 (1990) 267

Migration

Migratory behaviour of underyearling *Oncorhynchus tshawytscha* and survival to adulthood as related to prerelease gill (Na^+-K^+)-ATPase development, 82 (1989) 339

Salmon ranching experiments in the River Imsa: effect of timing of Atlantic salmon (*Salmo salar*) smolt migration on survival to adults, 82 (1989) 367

The effect of timing of Atlantic salmon smolt and post-smolt release on the distribution of adult return, 98 (1991) 61

Differences in life history and migratory behaviour between wild and hatchery-reared Atlantic salmon in nature, 98 (1991) 69

Spawning migratory behaviour of coastal-released Baltic salmon (*Salmo salar*). Effects on straying frequency and time of river ascent, 98 (1991) 79

Milkfish

see *Chanos chanos*

Modelling

Production model for suspended culture of the Pacific oyster, *Crassostrea gigas*, 87 (1990) 35

Estimating the carrying capacity of a coastal inlet for mussel culture, 88 (1990) 39

Stochastic model of carp fingerling growth, 91 (1990) 87

A growth model fitting procedure that simultaneously provides an accurate feeding table (Husbandry and Management — Poster Abstracts), 100 (1992) 168

Molluscs, general

Estimating the carrying capacity of a coastal inlet for mussel culture, 88 (1990) 39

Mussels as biological indicators of pollution, 94 (1991) 225

Monodon baculovirus

The occurrence, development and histopathology of monodon baculovirus in *Penaeus monodon* in southern Thailand, 96 (1991) 205

Morone saxatilis

Comparative energetics of striped bass (*Morone saxatilis*) and hybrid (*M. saxatilis* × *M. chrysops*) juveniles, 86 (1990) 387

Acute toxicity of formalin and copper sulfate to striped bass fingerlings held in varying salinities, 87 (1990) 255

Response of striped bass larvae fed brine shrimp from different sources containing different fatty acid compositions, 90 (1990) 49

Physiological stress in striped bass: effect of acclimation temperature, 91 (1990) 349

Survival and growth of larval striped bass (*Morone saxatilis*) fed *Artemia* enriched with highly unsaturated fatty acids (HUFA), 99 (1991) 117

Mrigal

see *Cirrhinus mrigala*

MS-222

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Mudfish

see *Ophiocephalus punctatus*

Mugil cephalus

Factors affecting intensive larval rearing of striped mullet, *Mugil cephalus*, 91 (1990) 281

Steroid profiles during maturation and induced spawning of the striped mullet, *Mugil cephalus* L., 95 (1991) 149

The effect of salinity on the survival and growth of striped mullet (*Mugil cephalus*) larvae in the hatchery, 96 (1991) 249

Combined effects of temperature and salinity on embryonic development and hatching of striped mullet, *Mugil cephalus*, 97 (1991) 281

Mugil saliens

The effect of SDA, temperature and daily rhythm on the energy metabolism of the mullet *Mugil saliens*, 97 (1991) 353

Mullet

see *Mugil* spp.

Muscle

The nutritional regulation of muscle growth and protein turnover, 79 (1989) 1

Ration size in the feeding of cod (*Gadus morhua*): effect on skeletal muscle proteins, with special reference to myosin heavy chain, 79 (1989) 47

An evaluation of the isolated, in vitro, non-myotomal muscle preparation for the study of factors affecting protein synthesis in fish, 79 (1989) 75

Different fats in feed for salmon: influence on sensory parameters, growth rate and fatty acids in muscle and heart, 79 (1989) 129

Physiological changes in muscle of rainbow trout fed different ration levels, 79 (1989) 293

Fatty acid profiles of eyes and epaxial muscle of coho (*Oncorhynchus kisutch*) parr and smolts, and of gills of post-smolts and stunts (abstract), 82 (1989) 380

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. I. Growth dynamics, 93 (1991) 335

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. II. Activity of key enzymes in energy metabolism, 93 (1991) 357

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. III. Chemical composition, 93 (1991) 373

Copper levels in the muscle and liver tissue of farmed chinook salmon, *Oncorhynchus tshawytscha*, 99 (1991) 105

Response of epaxial muscle and liver to 17-β estradiol in fed and starved Atlantic salmon (*Salmo salar*), 99 (1991) 179

Mussel

see *Mytilus* spp., *Perna* sp.

Mustard oilcake

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Myosin

Ration size in the feeding of cod (*Gadus morhua*): effect on skeletal muscle proteins, with special reference to myosin heavy chain, 79 (1989) 47

Mytilus californianus

Mytilus californianus, a new aquaculture species?, 81 (1989) 275

Mytilus edulis

Domoic acid and the eastern Canadian molluscan shellfish industry, 77 (1989) 263

Heritability of growth in larvae and juveniles of *Mytilus edulis*, 80 (1989) 1

Blue mussel in feed for rainbow trout, 81 (1989) 79

Biological control of the mussel in shellfish culture, 81 (1989) 97

Energy budget of a *Mytilus edulis* L. population during its first year on bouchots in the bay of Marennes-Oléron, 91 (1990) 49

Mytilus galloprovincialis

The physiological energetics of mussels (*Mytilus galloprovincialis* Lmk) from different cultivation rafts in the Ria de Arosa (Galicia, N.W. Spain), 94 (1991) 197

Diseases and parasites of rafted mussels (*Mytilus galloprovincialis* Lmk): preliminary results, 99 (1991) 17

***Mytilus* sp.**

see Special Issue "The Biology and Cultivation of Mussels", 94 (1991) 121–278

Myxobolus cerebralis

Whirling disease: earliest susceptible age of rainbow trout to the triactinomyxid of *Myxobolus cerebralis*, 92 (1991) 1

N

Najas graminea

Preliminary results of feeding aquatic macrophytes to *Penaeus monodon* juveniles, 80 (1989) 189

Neomycin

Transfer of the gene for neomycin resistance into goldfish, *Carassius auratus*, 85 (1990) 21

Neuroendocrinology

Neuroendocrine regulation of ovarian maturation in the Indian white prawn *Penaeus indicus* H. Milne Edwards, 98 (1991) 381

Neurology

The neuroendocrinology of *Mytilus edulis*, 94 (1991) 213

Neurotransmitters

Feed intake, digestibility and brain neurotransmitters of rainbow trout under hypoxia, 79 (1989) 317

Niclosamide

Anthelminthic activity of praziquantel, niclosamide, netobimin and mebendazole against *Bothriocephalus scorpii* naturally infecting turbot (*Scophthalmus maximus*), 76 (1989) 199

Nitrogen

The effect of manures and chemical fertilizers on the production of *Oreochromis niloticus* in earthen ponds, 76 (1989) 37

Spatial and temporal variation of water column measurements in aquaculture ponds, 78 (1989) 253

Total volatile nitrogen — a quality criterion for fish silage?, 79 (1989) 311

Biochemical composition and growth of the marine microalga *Dunaliella tertiolecta* (Butcher) with different ammonium nitrogen concentrations as chloride, sulphate, nitrate and carbonate, 83 (1989) 289

Fixed film nitrification characteristics in seawater recirculation fish culture systems, 87 (1990) 133

Nitrogen input, primary productivity and fish yield in fertilized freshwater ponds in Indonesia, 94 (1991) 49

Loadings of nitrogen and phosphorus from a Northern Ireland fish farm, 96 (1991) 17

Fractionation of phosphorus and nitrogen loadings from a Northern Ireland fish farm, 96 (1991) 31

Nitrogenous compounds

Joint action of ammonia and nitrite on *Artemia* nauplii, 77 (1989) 329

Nycthemeral variations of ammonia excretion in *Penaeus japonicus* (Crustacea, Decapoda, Penaeidae), 84 (1990) 383

The comparison of two simple protocols designed to initiate and stimulate ammonia oxidation in closed aquaculture systems, 88 (1990) 179

Toxicities of ammonia and nitrite to *Penaeus monodon* adolescents, 89 (1990) 127

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

Nocardiosis

Investigation of the relationship between the presence of a Gram-positive bacterial infection and summer mortality of the Pacific oyster, *Crassostrea gigas* Thunberg, 94 (1991) 1

Nucella lapillus

Biological control of the mussel in shellfish culture, 81 (1989) 97

Nucleic acids

Biomass production and variation in the biochemical profile (total protein, carbohydrates, RNA, lipids and fatty acids) of seven species of marine microalgae, 83 (1989) 17

Nucleotides

Determination of nucleotide concentrations with high performance liquid chromatography (HPLC): application to fish, 76 (1989) 135

Comparative study of energetic nucleotides in young and adult trout (*Salmo gairdneri* R.), 81 (1989) 91

O

Ocyurus chrysurus

Spawning of yellowtail snapper (*Ocyurus chrysurus* Bloch 1791) in captivity, 77 (1989) 287

Oestradiol

Gonadal differentiation in coho salmon, *Oncorhynchus kisutch*, after a single treatment with androgen or estrogen at different stages during ontogenesis, 77 (1989) 251

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish (*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Effects of oral administration of 17α-methyltestosterone and 17β-estradiol on gonadal development in common carp, *Cyprinus carpio* L., 78 (1989) 349

Vitellogenin synthesis in Atlantic salmon (*Salmo salar*) at different acclimation temperatures, 79 (1989) 397

Production, and changes at smolting, of serum thyroxine, estradiol-17β and testosterone in cultivated masu salmon, *Oncorhynchus masou* (abstract), 82 (1989) 381

Release rates of steroids from silastic tube implants in vitro and in vivo with juvenile milkfish, *Chanos chanos*, 87 (1990) 91

Changes in ovarian unconjugated and conjugated steroid titers during vitellogenesis in *Penaeus monodon*, 89 (1990) 83

Effects of feeding 17α-methyltestosterone, 11-ketotestosterone, 17β-estradiol, and 3,5,3′-triiodothyronine to channel catfish, *Ictalurus punctatus*, 92 (1991) 377

Response of epaxial muscle and liver to 17-β estradiol in fed and starved Atlantic salmon (*Salmo salar*), 99 (1991) 179

Oncorhynchus clarki

Performance of rainbow trout and Snake River cutthroat trout reared in oxygen-supersaturated water, 90 (1990) 251

Oncorhynchus gairdneri

A survey on different procedures used for vaccinating salmonids against vibriosis in Norwegian fish-farming, 83 (1989) 217

Oncorhynchus gorbuscha

Sea ranching of pink (*Oncorhynchus gorbuscha*) and chum (*O. keta*) salmon in the western Atlantic, 87 (1990) 299

Accumulation and persistence of tri-n-butyltin in pink and chum salmon fry cultured in marine net-pens, 96 (1991) 233

Seawater adaptability of pink salmon (*Oncorhynchus gorbuscha*) fry: effects of size and temperature, 99 (1991) 355

Oncorhynchus keta

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Sea ranching of pink (*Oncorhynchus gorbuscha*) and chum (*O. keta*) salmon in the western Atlantic, 87 (1990) 299

Oncorhynchus kisutch

The role of learning and stress in predator avoidance of hatchery-reared coho salmon (*Oncorhynchus kisutch*) juveniles, 76 (1989) 209

The effects of naturally occurring androgens in practical diets fed to normal-sired and jack-sired progeny of coho salmon (*Oncorhynchus kisutch*), 77 (1989) 51

Gonadal differentiation in coho salmon, *Oncorhynchus kisutch*, after a single treatment with androgen or estrogen at different stages during ontogenesis, 77 (1989) 251

Influence of diet and oxidative rancidity on fry of Atlantic and coho salmon, 79 (1989) 417

Loma salmonae (Protozoa: Microspora) infections in seawater reared coho salmon *Oncorhynchus kisutch*, 80 (1989) 211

Transportation stress affects performance of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 15

Effect of photoperiod and various intensities of night illumination on growth and seawater adaptability of juvenile coho salmon (*Oncorhynchus kisutch*), 82 (1989) 39

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 279

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Effect of lunar-phased releases on adult recovery of coho salmon from Trinity River and Iron Gate hatcheries in California, 82 (1989) 355

Delayed photoperiod, seapen survival and growth rate of 0-age coho salmon (*Oncorhynchus kisutch*), under intensive culture conditions (abstract), 82 (1989) 375

Control of prolactin secretion from the developing pituitary of coho salmon (abstract), 82 (1989) 377

Elevated liver potassium in juvenile, seawater-adapted coho salmon (abstract), 82 (1989) 378

In vitro hormonal stimulation of Na^+, K^+-ATPase activity and ouabain binding in gill tissue of coho salmon (abstract), 82 (1989) 379

Fatty acid profiles of eyes and epaxial muscle of coho (*Oncorhynchus kisutch*) parr and smolts, and of gills of post-smolts and stunts (abstract), 82 (1989) 380

Asynchrony of changes in tissue and plasma thyroid hormone contents of coho salmon during parr-smolt transformation (abstract), 82 (1989) 380

Multihormonal control of the interrenal of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 381

Plasma levels of prolactin and growth hormone during parr–smolt transformation of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 382

Genetic changes in the growth of coho salmon (*Oncorhynchus kisutch*) in marine net-pens, produced by ten years of selection, 85 (1990) 187

Induced vitellogenesis in triploid coho salmon (*Oncorhynchus kisutch*) (abstract), 85 (1990) 318

Saltwater-induced decreases in weight and length relative to seasonal gill Na^+-K^+ ATPase changes in coho salmon (*Oncorhynchus kisutch*): a test for saltwater adaptability, 86 (1990) 19

Hormonal content of commercial fish diets and of young coho salmon (*Oncorhynchus kisutch*) fed these diets, 86 (1990) 63

Heritability and genetic correlations for flesh coloration in pen-reared coho salmon, 86 (1990) 181

Virus-like particles in erythrocytes of coho salmon (*Oncorhynchus kisutch*), 89 (1990) 377

Growth acceleration of coho salmon (*Oncorhynchus kisutch*) following oral administration of recombinant bovine somatotropin, 91 (1990) 197

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Osmoregulation and circulating growth hormone and prolactin levels in hypophysectomized coho salmon (*Oncorhynchus kisutch*) after transfer to fresh water and seawater, 92 (1991) 33

Competition between hatchery and wild coho salmon (*Oncorhynchus kisutch*): genetic variation for agonistic behaviour in newly-emerged wild fry, 98 (1991) 161

Concentrations of total dissolved copper in and near a copper-treated salmon net pen, 99 (1991) 269

Oncorhynchus masou

Physiological and behavioural changes in the accelerated underyearling broodstock masu salmon, *Oncorhynchus masou*, during smoltification, 82 (1989) 21

Effects of photoperiod on smolting and hormonal secretion in masu salmon, *Oncorhynchus masou*, 82 (1989) 63

Effects of dietary fatty acid composition on growth and smolting of underyearling masu salmon, *Oncorhynchus masou*, 82 (1989) 181

Production, and changes at smolting, of serum thyroxine, estradiol-17β and testosterone in cultivated masu salmon, *Oncorhynchus masou* (abstract), 82 (1989) 381

A successful rearing experiment with amago salmon (*Oncorhynchus masou rhodurus*) in floating cages in the Adriatic Sea, 86 (1990) 201

Influence of the date and body size at smoltification and subsequent growth rate and photoperiod on desmoltification in underyearling masu salmon (*Oncorhynchus masou*), 86 (1990) 209

Oncorhynchus mykiss

see also Special Issue 100 (1992) 1–331

Utilization of fish silage by rainbow trout (*Salmo gairdneri*), 76 (1989) 109

Experimental administration of recombinant bovine growth hormone to juvenile rainbow trout (*Salmo gairdneri*) by injection or by immersion, 76 (1989) 145

A comparison of the growth performance of rainbow trout (*Salmo gairdneri*) in fresh and brackish water in Yugoslavia, 77 (1989) 1

Effect of partially or totally replacing fish meal protein by soybean meal protein on growth, food utilization and proteolytic enzyme activities in rainbow trout (*Salmo gairdneri*). New in vivo test for exocrine pancreatic secretion, 77 (1989) 29

Whole body magnesium concentration as an indicator status in rainbow trout (*Salmo gairdneri*), 77 (1989) 201

Response to selection for early spawn date in rainbow trout, *Salmo gairdneri*, 78 (1989) 153

Chronic cannulation of the hepatic portal vein in rainbow trout, *Salmo gairdneri*: a prerequisite to net absorption studies, 78 (1989) 195

Short-term responses of protein synthesis to re-feeding in rainbow trout, 79 (1989) 37

Long-term effect of a high-protein/non-carbohydrate diet on the primary liver and kidney metabolism in rainbow trout (*Salmo gairdneri*), 79 (1989) 91

Effects of reduced feed ration levels on fat content and fatty acid composition in white and red muscle from rainbow trout, 79 (1989) 169

Disease resistance and humoral antibody production in rainbow trout fed high levels of vitamin C, 79 (1989) 207

High mortality of rainbow trout (*Salmo gairdneri*) fry caused by deficiency of vitamins C and B_2 in commercial fish farms in Yugoslavia, 79 (1989) 245

Physiological changes in muscle of rainbow trout fed different ration levels, 79 (1989) 293

Feed intake, digestibility and brain neurotransmitters of rainbow trout under hypoxia, 79 (1989) 317

Experiences with wastewater-cultured *Daphnia* in the start-feeding of rainbow trout (*Salmo gairdneri*), 79 (1989) 337

Pigmentation of salmonids: interactions of astaxanthin and canthaxanthin on pigment deposition in rainbow trout, 79 (1989) 363

High mortality of rainbow trout (*Salmo gairdneri*) in Yugoslavian fish farms caused by inadequate feed quality, 79 (1989) 391

The appearance of soluble antigen, horseradish peroxidase (HRP), in tissues of the rainbow trout (*Salmo gairdneri* Richardson), subsequent to variable dip-immersion procedures, 79 (1989) 411

Body traits in rainbow trout. I. Phenotypic means and standard deviations and sex effects, 80 (1989) 7

Body traits in rainbow trout. II. Estimates of heritabilities and of phenotypic and genetic correlations, 80 (1989) 25

Time pattern analysis of swimming activity and heart rate under the influence of chloramphenicol in carp (*Cyprinus carpio* L.) and rainbow trout (*Salmo gairdneri* R.), 80 (1989) 315

Dose response to astaxanthin and canthaxanthin pigmentation of rainbow trout fed various dietary carotenoid concentrations, 81 (1989) 69

Blue mussel in feed for rainbow trout, 81 (1989) 79

Comparative study of energetic nucleotides in young and adult trout (*Salmo gairdneri* R.), 81 (1989) 91

Genome analysis of rainbow trout and sturgeon with restriction enzymes and hybridization with a ZFY gene derived probe to identify sex, 81 (1989) 245

Dynamics of dietary canthaxanthin utilization in sexually maturing female rainbow trout (*Salmo gairdneri* Rich.) compared to triploids, 83 (1989) 359

A new sperm diluent for the artificial insemination of rainbow trout (*Salmo gairdneri*), 83 (1989) 367

Effect of dietary vitamin E levels on oxidative stability of trout fillets, 84 (1990) 145

Stability in fish feed and bioavailability to rainbow trout of two ascorbic acid forms, 84 (1990) 335

Plasma concentrations of flumequine after intra-arterial and oral administration to rainbow trout (*Salmo gairdneri*) exposed to low water temperatures, 84 (1990) 355

Temperature-related absorption and excretion of oxytetracycline in rainbow trout (*Salmo gairdneri* R.), 84 (1990) 363

Effect of temperature on utilization of endogenous energy reserves during embryonic development of diploid and triploid rainbow trout (*Salmo gairdneri* R.), 84 (1990) 373

Factors affecting survival and integration following microinjection of novel DNA into rainbow trout eggs, 85 (1990) 35

The genetic influence on serum haemolytic activity in rainbow trout, 85 (1990) 109

Androgenetic rainbow trout produced using sperm from tetraploid males show improved survival, 85 (1990) 215

Survival in the early fresh-water period in Atlantic salmon (*Salmo salar*) and rainbow trout (*Salmo gairdneri*): heritabilities for survival and genetic correlation between survival and growth (abstract), 85 (1990) 328

Expression of human growth hormone gene in fertilized eggs from Atlantic salmon and rainbow trout (abstract), 85 (1990) 329

Taxonomic names for northern Pacific trout species — editorial, 86 (1990) 1

Availability of dietary magnesium to rainbow trout as determined by apparent retension, 86 (1990) 51

Control of spawning activity in male and female rainbow trout (*Oncorhynchus mykiss*) by repeated foreshortened seasonal light cycles, 86 (1990) 93

Correlation of body weight and reproductive characteristics in rainbow trout, 86 (1990) 191

Increased sea-water adaptability of non-smolting rainbow trout by salt feeding, 86 (1990) 259

Effect of sire, diet and week of spawning on volume of eggs retained by artificially spawned rainbow trout, 87 (1990) 23

Absorption and distribution of ^{14}C-labeled canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 87 (1990) 331

Modified uptake of the protein antigen horseradish peroxidase (HRP), following oral delivery to rainbow trout, *Oncorhynchus mykiss*, 87 (1990) 373

Riboflavin requirements in on-growing rainbow trout, *Oncorhynchus mykiss*, 88 (1990) 87

Quantitative and qualitative differences in the antibodies produced by immunosuppressed rainbow trout, *Oncorhynchus mykiss*, to *Aeromonas salmonicida*, 88 (1990) 205

Electrophoretic comparison of the reproductive success of naturally spawning transplanted and wild steelhead trout through the returning adult stage, 88 (1990) 239

Effects of dietary canthaxanthin level and lipid level on apparent digestibility coefficients for canthaxanthin in rainbow trout (*Oncorhynchus mykiss*), 88 (1990) 351

Chromosome study of *Oncorhynchus mykiss* kamloops, 89 (1990) 1

Rainbow trout culture failure in a small lake as a result of massive parasitosis related to careless fish introductions, 89 (1990) 123

Effects of dietary vegetable, animal and marine lipids on muscle lipid and hematology of rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 165

Survival in early life of Atlantic salmon and rainbow trout: estimates of heritabilities and genetic correlations, 89 (1990) 209

The effect of fish density and feeding regimes on individual growth rate and mortality in rainbow trout (*Oncorhynchus mykiss*), 89 (1990) 225

Concentrations of wild and escaped fishes immediately adjacent to fish farm cages, 90 (1990) 29

Dietary effects on tissue composition, oogenesis and the reproductive performance of female rainbow trout (*Oncorhynchus mykiss*), 90 (1990) 179

Performance of rainbow trout and Snake River cutthroat trout reared in oxygen-supersaturated water, 90 (1990) 251

Distended, water-filled stomach in sea-farmed rainbow trout, 90 (1990) 333

Response to carotenoids by rainbow trout in the sea: resorption and metabolism of dietary astaxanthin and canthaxanthin, 91 (1990) 153

Effect of oxolinic acid on bacterial flora and hatching success rate of rainbow trout, *Oncorhynchus mykiss*, eggs, 91 (1990) 205

Requirement and utilization of ascorbic acid and ascorbic sulfate in juvenile rainbow trout, 91 (1990) 317

Effects of acute versus sustained administration of GnRHa on GtH release and ovulation in the rainbow trout, *Oncorhynchus mykiss*, 91 (1990) 373

Whirling disease: earliest susceptible age of rainbow trout to the triactinomyxid of *Myxobolus cerebralis*, 92 (1991) 1

Does oral administration of oxolinic acid or oxytetracycline affect feed intake to rainbow trout?, 92 (1991) 109

Distribution and elimination of oxolinic acid in rainbow trout (*Oncorhynchus mykiss* Walbaum) after a single rapid intravascular injection, 92 (1991) 297

Use of lupin flour as a replacement for full-fat soy in diets for rainbow trout (*Oncorhynchus mykiss*), 93 (1991) 57

Cryopreservation of rainbow trout semen in large straws, 93 (1991) 95

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. I. Growth dynamics, 93 (1991) 335

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. II. Activity of key enzymes in energy metabolism, 93 (1991) 357

Changes in the structure and function of the epaxial muscle of rainbow trout (*Oncorhynchus mykiss*) in relation to ration and age. III. Chemical composition, 93 (1991) 373

Utilization of microalgal astaxanthin by rainbow trout (*Oncorhynchus mykiss*), 94 (1991) 79

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

Selection for high and low cortisol stress response in Atlantic salmon (*Salmo salar*) and rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 53

Choline–betaine requirements of rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 107

Flesh pigmentation of rainbow trout fed astaxanthin or canthaxanthin at different feeding rates in freshwater and saltwater, 95 (1991) 289

Purified diet development and re-evaluation of the dietary protein requirement of fingerling rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 57

Early growth and survival of heat-shocked and tetraploid-derived triploid rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 97

Nutrient partitioning in rainbow trout at different feeding rates, 96 (1991) 191

Pharmacokinetic study of oxytetracycline in fish. I. Absorption, distribution and accumulation in rainbow trout in freshwater, 96 (1991) 219

Effect of extrusion on efficiency of utilization of maize starch by rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 293

Digestibility, tissue distribution and depletion kinetics of [^{14}C]-virginiamycin and related factors fed to rainbow trout, 97 (1991) 73

The influence of wave frequency and wave height on the behaviour of rainbow trout (*Oncorhynchus mykiss*) in cages, 97 (1991) 143

Pigmentation of rainbow trout with astaxanthin at different water temperatures, 97 (1991) 203

Genetic variation in red cell membrane fragility in Atlantic salmon and rainbow trout, 98 (1991) 349

Apparent digestibility of canthaxanthin in rainbow trout: effect of dietary fat level, antibiotics and number of pyloric caeca, 99 (1991) 323

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Oncorhynchus nerka

The saltwater adaptability of sympatric anadromous and non-anadromous sockeye salmon and their 'hybrids' (abstract), 82 (1989) 377

Genetic structure and allele frequency dynamics in the sockeye salmon population of Lake Dalneye, Kamchatka, 84 (1990) 13

Oncorhynchus spp.

Comparison of mechanical shock sensitivity of eggs of five Pacific salmon (*Oncorhynchus*) species and steelhead trout (*Salmo gairdneri*), 78 (1989) 163

Oncorhynchus tshawytscha

An assessment of processing effects on the nutritive value of marine protein sources for juvenile chinook salmon (*Oncorhynchus tshawytscha*), 77 (1989) 181

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Migratory behaviour of underyearling *Oncorhynchus tshawytscha* and survival to adulthood as related to prerelease gill (Na^+-K^+)-ATPase development, 82 (1989) 339

Hormones in early development of salmonid fishes (abstract), 82 (1989) 375

Temporal aspects of thyroid control of smolting in chinook salmon, *Oncorhynchus tshawytscha* (abstract), 82 (1989) 376

Genetic consequences of salmonid egg fertilization techniques (abstract), 85 (1990) 326

Feather meal as a dietary protein source during parr–smolt transformation in fall chinook salmon, 89 (1990) 301

Optimal thermal shocks for induced diploid gynogenesis in chinook salmon (*Oncorhynchus tshawytscha*), 90 (1990) 239

Polyculture of the Pacific oyster, *Crassostrea gigas* (Thunberg), with chinook salmon, *Oncorhynchus tshawytscha*, 92 (1991) 313

Hemoglobins in smoltifying chinook salmon, *Oncorhynchus tshawytscha*, subjected to photoperiod control, 95 (1991) 359

Copper levels in the muscle and liver tissue of farmed chinook salmon, *Oncorhynchus tshawytscha*, 99 (1991) 105

Poultry by-product meal as a dietary protein source in fall chinook salmon diets, 99 (1991) 309

Ophiocephalus punctatus

Piscicidal plants of Nepal: toxicity to air-breathing predatory fish (*Ophiocephalus punctatus*, *Clarias batrachus* and *Heteropneustes fossilis*) and the duration of risk to cultivated fish, 78 (1989) 285

Orconectes virilis

Consumption and apparent dry matter digestibility of aquatic macrophytes by male and female catfish (*Orconectes virilis*), 89 (1990) 55

Oreochromis aureus

Optimal dietary protein level for hybrid tilapia (*Oreochromis niloticus* × *O.aureus*) reared in seawater, 81 (1989) 119

Vitamin E requirements of the blue tilapia, *Oreochromis aureus* (Steindachner), in relation to dietary lipid level, 87 (1990) 155

The application of DNA fingerprinting in the analysis of gynogenesis in tilapia, 95 (1991) 41

Oreochromis mossambicus

Feminization of *Oreochromis mossambicus* by the administration of diethylstilbestrol, 80 (1989) 337

Production of all-female sterile-triploid *Oreochromis mossambicus*, 84 (1990) 117

Inheritance of red body coloration in Taiwanese tilapias and in *Oreochromis mossambicus*, 84 (1990) 219

Interaction between test and reference populations when tilapia strains are compared by the "internal control" technique, 85 (1990) 207

Potential of rapeseed meal as an alternative protein source in complete diets for tilapia (*Oreochromis mossambicus* Peters), 87 (1990) 145

The use of alfalfa leaf protein concentrates as a protein source in diets for tilapia (*Oreochromis mossambicus*), 90 (1990) 291

The influence of maternal age and delayed initial feeding on the survival and growth of previously unfed *O. niloticus* (L.) and *O. mossambicus* (Peters) fry, 91 (1990) 295

Effects of dietary α-cellulose levels on the juvenile tilapia, *Oreochromis mossambicus* (Peters), 91 (1990) 311

Oreochromis niloticus

The effect of manures and chemical fertilizers on the production of *Oreochromis niloticus* in earthen ponds, 76 (1989) 37

Availability of various magnesium compounds to tilapia (*Oreochromis niloticus*), 76 (1989) 269

Interaction between dietary protein and magnesium level in tilapia (*Oreochromis niloticus*, 76 (1989) 277

Prospects of selecting for late maturity in tilapia (*Oreochromis niloticus*). I. Family studies under laboratory conditions, 77 (1989) 113

Prospects of selecting for late maturity in tilapia (*Oreochromis niloticus*). II. Strain comparisons under laboratory and field conditions, 77 (1989) 123

The 'YY' supermale in *Oreochromis niloticus* (L.) and its potential in aquaculture, 78 (1989) 237

Energy metabolism in *Oreochromis niloticus*, 79 (1989) 283

Effects of pigments from different sources on colour changes and growth of red *Oreochromis niloticus*, 79 (1989) 375

The effect of feeding astaxanthin to *Oreochromis niloticus* and *Colisa labiosa* on the histology of the liver, 79 (1989) 381

Effect of dietary protein level and amount of plant ingredient (*Phaseolus aureus*) incorporated into the diets on consumption, growth performance and carcass composition in *Oreochromis niloticus* (L.) fry, 80 (1989) 121

Evaluation of edge seining for harvesting *Oreochromis niloticus* fry from spawning ponds, 80 (1989) 195

Optimal dietary protein level for hybrid tilapia (*Oreochromis niloticus* × *O.aureus*) reared in seawater, 81 (1989) 119

The nutritive value of boiled full-fat soybean in pelleted feed for Nile tilapia, 81 (1989) 303

The ingestion of bacteria in suspension by the tilapia *Oreochromis niloticus*, 81 (1989) 373

The nutritive value of cassava leaf meal in pelleted feed for Nile tilapia, 83 (1989) 45

Mercury levels in the sediment, water, and selected finfishes of Laguna Lake, The Philippines, 84 (1990) 277

Long-term evaluation of cotton seed meal as a protein source for Nile tilapia, *Oreochromis niloticus* (Linn.), 84 (1990) 315

Response to mass selection for growth rate in *Oreochromis niloticus*, 85 (1990) 199

Interaction between test and reference populations when tilapia strains are compared by the "internal control" technique, 85 (1990) 207

Investigations on sex ratio in *Oreochromis niloticus* (abstract), 85 (1990) 321

Development of research methods to evaluate Nile tilapia (*Oreochromis niloticus*) strains in The Philippines (abstract), 85 (1990) 324

Defatted and full-fat soybean meal as partial replacements for fishmeal in tilapia (*Oreochromis niloticus* × *O. aureus*) diets at low protein level, 86 (1990) 401

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. I. Gross embryology, temperature tolerance and rates of embryonic development, 87 (1990) 165

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. II. Survival, growth and feeding of fry developing solely on their yolk reserves, 87 (1990) 183

Effects of *Oreochromis niloticus* females on the growth and yield of male hybrids (*O. niloticus* female × *O. hornorum* male) cultured in earthen ponds, 88 (1990) 55

Effects of manuring regime and stocking rate on primary production and yield of tilapia using liquid swine manure, 88 (1990) 61

Growth and yield of mixed-sex, young-of-the-year *Oreochromis niloticus* raised at two densities in earthen ponds in Alabama, U.S.A., 89 (1990) 21

Response of tilapia yield and economics to varying rates of organic fertilization and season in two Central American countries, 90 (1990) 279

The influence of maternal age and delayed initial feeding on the survival and growth of previously unfed *O. niloticus* (L.) and *O. mossambicus* (Peters) fry, 91 (1990) 295

DNA fingerprinting of tilapia, *Oreochromis niloticus*, and its application to aquaculture genetics, 92 (1991) 157

Relationships among nutrient inputs, water nutrient concentrations, primary production, and yield of *Oreochromis niloticus* in ponds, 92 (1991) 323

Effects of feeding supplementary diets containing varying levels of lipid on growth, food conversion, and body composition of Nile tilapia, *Oreochromis niloticus* (L.), 93 (1991) 323

Nitrogen input, primary productivity and fish yield in fertilized freshwater ponds in Indonesia, 94 (1991) 49

The application of DNA fingerprinting in the analysis of gynogenesis in tilapia, 95 (1991) 41

Effects of water exchange on *Oreochromis niloticus* (L.) growth and water quality in outdoor concrete tanks, 95 (1991) 67

Feed intake and growth of red tilapia at different stocking densities in ponds in Indonesia, 99 (1991) 83

Disposition and elimination of 17α-methyltestosterone in Nile tilapia (*Oreochromis niloticus*), 99 (1991) 193

Oreochromis sp.

The viability of cryopreserved tilapia spermatozoa, 76 (1989) 335

Production of Florida red tilapia in seawater pools: nursery rearing with chicken manure and growout with prepared feed, 80 (1989) 247

The dietary protein requirements of young tilapia and an evaluation of the least cost dietary protein levels, 80 (1989) 271

Phenotypic correlations among behaviour and growth variables in tilapia: implications for domestication selection, 85 (1990) 177

Cold tolerance in maternal mouthbrooding tilapias: phenotypic variation among species and hybrids, 85 (1990) 271

Evaluation of the salinity tolerance of *Oreochromis mossambicus*, *O. niloticus* and their F_1 hybrids, 85 (1990) 281

Salinity tolerance and seawater survival vary ontogenically in Florida red tilapia, 87 (1990) 311

Growth, feed conversion and protein utilization of Florida red tilapia fed isocaloric diets with different protein levels in seawater pools, 88 (1990) 75

Selection of finfish species for aquaculture development in Martinique (F.W.I.), 89 (1990) 193

Clearance of 17α-ethynyltestosterone from muscle of sex-inversed tilapia hybrids treated for growth enhancement with two doses of the androgen, 89 (1990) 365

Culture of Florida red tilapia in marine cages: the effect of stocking density and dietary protein on growth, 90 (1990) 123

Influence of varying energy levels with two protein concentrations in diets for hybrid tilapia (*Oreochromis niloticus* × *O. aureus*) reared in seawater, 91 (1990) 143

Effects of meal frequency on growth performance of hybrid tilapia, *Oreochromis niloticus* × *O. aureus*, fed different carbohydrate diets, 92 (1991) 343

Interactions of varying dietary protein and lipid levels in young red tilapia: evidence of protein sparing, 95 (1991) 305

Oreochromis spilurus

The effects of feeding rotifers (*Brachionus plicatilis typicus*) on the yield and growth of tilapia (*Oreochromis spilurus*) fry, 77 (1989) 353

Production of the African freshwater tilapia *Oreochromis spilurus* (Günther) in seawater, 84 (1990) 41

Production of the tilapia *Oreochromis spilurus* Günther stocked at different densities in sea cages, 99 (1991) 95

Osmerus mordax

Etude du développement larvaire de l'Éperlan, *Osmerus mordax*, en eau pure et dans deux milieux de matière organique, le glucose et l'acétate (A study of the larval development of smelt, *Osmerus mordax*, in pure water and in two organic media, glucose and acetate), 80 (1989) 351

Osmoregulation

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater, 82 (1989) 219

Some physiological responses of Atlantic salmon (*Salmo salar*) exposed to soft, acidic water during smolting, 82 (1989) 229

Effect of low temperature on seawater tolerance in Atlantic salmon (*Salmo salar*) smolts, 84 (1990) 167

Increased sea-water adaptability of non-smolting rainbow trout by salt feeding, 86 (1990) 259

Metabolic and osmoregulatory changes during temperature acclimation in the red sea bream, *Chrysophrys major*: implications for its culture in the subtropics, 87 (1990) 197

Salinity tolerance and seawater survival vary ontogenically in Florida red tilapia, 87 (1990) 311

Cumulative acute physiological stress in Atlantic salmon smolts: the effect of osmotic imbalance and the presence of predators, 89 (1990) 337

Effects of transfer to seawater on digestion and gut function in Atlantic salmon smolts (*Salmo salar* L.), 90 (1990) 85

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Osmoregulation and circulating growth hormone and prolactin levels in hypophysectomized coho salmon (*Oncorhynchus kisutch*) after transfer to fresh water and seawater, 92 (1991) 33

Effects of transfer to seawater on growth and feeding in Atlantic salmon smolts (*Salmo salar* L.), 94 (1991) 309

Effects of rapid changes in salinity on the osmoregulation of postsmolt Atlantic salmon (*Salmo salar*), 96 (1991) 375

Adaptation of the brook trout, *Salvelinus fontinalis*, to direct transfer to sea water in spring and summer, 97 (1991) 217

Osmoregulation in rainbow trout exposed to different photoperiod regimes (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 326

Osteological abnormalities

Osteological abnormalities in laboratory reared sea-bass (*Dicentrarchus labrax*) fingerlings, 97 (1991) 169

Ostrea denselamellosa

The characterization of *Ostrea denselamellosa* (Mollusca, Bivalvia) chromosomes: karyotype, constitutive heterochromatin and nucleolus organizer regions, 97 (1991) 317

Ostrea edulis

A counting device for oyster larvae, 78 (1989) 379

Gametogenesis of the European flat oyster (*Ostrea edulis*) and Pacific oyster (*Crassostrea gigas*) in warm water in Israel, 80 (1989) 343

Biological control of the mussel in shellfish culture, 81 (1989) 97

The life cycle of the oyster pathogen *Bonamia ostreae* with a presumptive phase in the ovarian tissue of the European flat oyster, *Ostrea edulis*, 84 (1990) 189

Selection for growth rate in the European oyster, *Ostrea edulis*: a multivariate approach (abstract), 85 (1990) 333

Size structure and potential food value of the plankton community to *Ostrea edulis* L. in a traditional Norwegian "Østerspoll", 86 (1990) 231

Induced triploidy in the European flat oyster, *Ostrea edulis* L., 90 (1990) 229

Nutritional value of spray-dried *Tetraselmis suecica* for juvenile bivalves, 92 (1991) 207

Observations on bonamiasis in the stock of the European flat oyster, *Ostrea edulis*, in the Netherlands, with special reference to the recent developments in Lake Grevelingen, 93 (1991) 205

Bonamiasis in native flat oysters (*Ostrea edulis* L.) from two intertidal beds of the Ortigueira estuary (Galicia, N.W. Spain) with different histories of oyster culture, 93 (1991) 213

Bonamia status and its effects in cultured flat oysters in the Ria de Vigo, Galicia (N.W. Spain), 93 (1991) 225

Lag time for the infestation of flat oyster (*Ostrea edulis* L.) by *Bonamia ostreae* in estuaries of Galicia (N.W. Spain), 93 (1991) 235

Models for a *Bonamia ostreae* epidemic in a cohort of cultured European flat oysters, *Ostrea edulis*, 93 (1991) 253

Influence of *Crassostrea gigas* mixed with *Ostrea edulis* on the incidence of *Bonamia* disease, 93 (1991) 263

Impact and spread of bonamiasis in the UK, 93 (1991) 279

The detection of *Bonamia ostreae* (Pichot et al. 1980) in frozen oysters (*Ostrea edulis* L.) and the effect of the parasite on condition, 97 (1991) 311

Ostrea spp.

Variation of allozymic polymorphism in *Ostrea angasi* and *O. edulis* (abstract), 85 (1990) 331

The current status of *Bonamia* disease in Ireland, 93 (1991) 273

Overwintering

Overwintering and sexual maturation of *Penaeus penicillatus* Alcock in an outdoor earth pond, 86 (1990) 327

Condition indices and RNA:DNA ratio in overwintering European sea bass, *Dicentrarchus labrax*, in salt marshes along the Atlantic coast of France, 96 (1991) 367

Ovulation

Effects of acute versus sustained administration of GnRHa on GtH release and ovulation in the rainbow trout, *Oncorhynchus mykiss*, 91 (1990) 373

Ovulatory rhythms and egg viability in the Atlantic halibut (*Hippoglossus hippoglossus*), 97 (1991) 365

Oxolinic acid

Effect of oxolinic acid on fecal microflora of goldfish (*Carassius auratus*), 80 (1989) 163

Does oral administration of oxolinic acid or oxytetracycline affect feed intake to rainbow trout?, 92 (1991) 109

Distribution and elimination of oxolinic acid in rainbow trout (*Oncorhynchus mykiss* Walbaum) after a single rapid intravascular injection, 92 (1991) 297

Absorption, distribution and elimination of oxolinic acid in Atlantic salmon (*Salmo salar* L.) after various routes of administration, 95 (1991) 193

Residues of oxolinic acid and oxytetracycline in fish and sediments from fish farms, 97 (1991) 85

Bioavailability of oxolinic acid in Atlantic salmon (*Salmo salar* L.) from medicated feed, 97 (1991) 305

Oxygen

An improved flow-through respirometer for the automatic determination of oxygen consumption in aquatic invertebrates, 77 (1989) 271

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Daily oxygen variations in marine fish ponds, Elat, Israel, 84 (1990) 289

Combined influence of temperature and salinity on oxygen consumption of the larvae of the pink shrimp, *Palaemon serratus* (Pennant) (Crustacea, Decapoda, Palaemonidae), 86 (1990) 77

The effects of hypoxia, alkalinity and neurochemicals on hatching of Atlantic salmon (*Salmo salar*) eggs, 86 (1990) 417

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

The respiratory requirements of *Macrobrachium acanthurus* (Weigman) at different temperatures and salinities, 93 (1991) 191

Lethal levels of low dissolved oxygen and effects of short-term oxygen stress on subsequent growth of juvenile *Penaeus monodon*, 94 (1991) 27

Inhibition of acetylcholinesterase in rainbow trout following dichlorvos treatment at different water oxygen levels, 95 (1991) 33

The influence of stress on oxygen consumption of rainbow trout (Husbandry and Management — Poster Abstracts), 100 (1992) 172

Oxytetracycline

Degradation of oxytetracycline in seawater at two different temperatures and light intensities, and the persistence of oxytetracycline in the sediment from a fish farm, 83 (1989) 7

Temperature-related absorption and excretion of oxytetracycline in rainbow trout (*Salmo gairdneri* R.), 84 (1990) 363

Residues of oxytetracycline in wild fish and sediments from fish farms, 86 (1990) 359

Does oral administration of oxolinic acid or oxytetracycline affect feed intake to rainbow trout?, 92 (1991) 109

Pharmacokinetic study of oxytetracycline in fish. I. Absorption, distribution and accumulation in rainbow trout in freshwater, 96 (1991) 219

Residues of oxolinic acid and oxytetracycline in fish and sediments from fish farms, 97 (1991) 85

Oyster

see *Crassostrea* spp., *Ostrea* spp., *Pinctada* spp., *Saccostrea commercialis*

Ozone

Resistance to ozone of zoospores of the thraustochytrid abalone parasite, *Labyrinthuloides haliotidis* (Protozoa: Labyrinthomorpha), 78 (1989) 147

P

Pacifastacus leniusculus

Response of juvenile freshwater crayfish (*Pacifastacus leniusculus* Dana) to several fresh and artificially compounded diets, 76 (1989) 67

The crayfish pathogen *Psorospermium haeckeli* activates the prophenoloxidase activating system of freshwater crayfish in vitro, 99 (1991) 225

Paddlefish

see *Polyodon spathula*

Pagrus major

Feeding stimulation in sea bream, *Pagrus major*, fed diets supplemented with Antarctic krill meals, 89 (1990) 43

Observations on ovarian follicle ultrastructure in the marine teleost, *Pagrus major*, during vitellogenesis and oocyte maturation, 92 (1991) 67

Size and age at transformation in red sea bream, *Pagrus major*, reared in the laboratory, 95 (1991) 117

Comparative study of the ontogeny of the lymphoid organs in three species of marine fish, 99 (1991) 143

Palaemon serratus

Combined influence of temperature and salinity on oxygen consumption of the larvae of the pink shrimp, *Palaemon serratus* (Pennant) (Crustacea, Decapoda, Palaemonidae), 86 (1990) 77

Pancreas

Organogenesis of the exocrine pancreas in the sea bass, *Dicentrarchus labrax* L., reared extensively and intensively, 99 (1991) 339

Panulirus argus

Effect of temperature on survival, growth and feed intake of postlarval spiny lobsters, *Panulirus argus*, 90 (1990) 1

Paracentrotus lividus

Paracentrotus lividus (Lamarck) in culture (larval and benthic phases): parameters of growth observed during two years following metamorphosis, 84 (1990) 173

Paralichthys olivaceus

The effect of bacterial additives on the production rate and dietary value of rotifers as food for Japanese flounder, *Paralichthys olivaceus*, 83 (1989) 39

Comparative study of the ontogeny of the lymphoid organs in three species of marine fish, 99 (1991) 143

***Paramecium* sp.**

A technique for the intensive culture of *Paramecium* (group *caudatum*; Parameciidae) as a first food for ornamental fish fry, 95 (1991) 189

Paramisgurnus dabryanus

Effects of gonadotropin-releasing hormone agonists and dopamine antagonists on gonadotropin secretion and ovulation in Chinese loach, *Paramisgurnus dabryanus*, 95 (1991) 139

Pasteurella piscicida

Pasteurellosis in cultured gilthead seabream (*Sparus aurata*): first report in Spain, 99 (1991) 1

Patinopecten yessoensis

Influence of algal diets on biochemical composition and energy reserves in *Patinopecten yessoensis* (Jay) larvae, 78 (1989) 333

Pecten maximus

Biological control of the mussel in shellfish culture, 81 (1989) 97

Pecten ziczac

Induction of spawning by temperature and serotonin in the hermaphroditic tropical scallop, *Pecten ziczac*, 84 (1990) 307

Penaeus esculentus

Biochemical composition of some prey species of *Penaeus esculentus* Haswell (Penaeidae: Decapoda), 96 (1991) 151

Penaeus indicus

Influence du régime alimentaire sur la reproduction en captivité de *Penaeus indicus* (Influence of the diet on the reproduction of *Penaeus indicus* in captivity), 81 (1989) 337

Neuroendocrine regulation of ovarian maturation in the Indian white prawn *Penaeus indicus* H. Milne Edwards, 98 (1991) 381

Penaeus japonicus

Effect of squid extracts on time course appearance of glucose and free amino acids in haemolymph in *Penaeus japonicus* after feeding: preliminary results, 76 (1989) 57

Effect of sodium phytate on growth and tissue mineralization of *Penaeus japonicus* and *Penaeus vannamei* juveniles, 77 (1989) 145

Nutritional evaluation of crab protein for larval *Penaeus japonicus* fed microparticulate diets, 81 (1989) 145

Effects of fertilization and stocking rate on the performance of *Penaeus japonicus* (Bate) in pond culture, 83 (1989) 269

Feeding rhythms and food of *Penaeus japonicus* Bate (Crustacea, Penaeidae) in salt marsh ponds: role of halophilic entomofauna, 84 (1990) 125

Nycthemeral variations of ammonia excretion in *Penaeus japonicus* (Crustacea, Decapoda, Penaeidae), 84 (1990) 383

Pigmentation of prawn (*Penaeus japonicus*) with carotenoids. I. Effect of dietary astaxanthin, β-carotene and canthaxanthin on pigmentation, 87 (1990) 323

Penaeus monodon

Ovarian maturation stages of the wild giant tiger prawn, *Penaeus monodon* Fabricius, 77 (1989) 229

Culture of *Penaeus monodon* in an intensified system in Taiwan, 77 (1989) 319

Effect of storage temperature on the quality of diets for the prawn, *Penaeus monodon* Fabricius, 80 (1989) 87

Preliminary results of feeding aquatic macrophytes to *Penaeus monodon* juveniles, 80 (1989) 189

An energy budget for the larvae of *Penaeus monodon* (Fabricius), 81 (1989) 13

Comparative analysis of the growth and survival of *Penaeus monodon* (Fabricius) larvae, from protozoea 1 to postlarva 1, on live feeds, artificial diets and on combinations of both, 81 (1989) 27

Growth and mid-gut cells profile of *Penaeus monodon* juveniles fed water-soluble-vitamin deficient diets, 81 (1989) 137

Ingestion saturation and growth responses of *Penaeus monodon* larvae to food density, 81 (1989) 329

An evaluation of indigenous protein sources as potential component in the diet formulation for tiger prawn, *Penaeus monodon*, using essential amino acid index (EAAI), 83 (1989) 319

Lipid class distribution and fatty acid composition of wild and farmed prawn, *Penaeus monodon* (Fabricius), 89 (1990) 65

Changes in ovarian unconjugated and conjugated steroid titers during vitellogenesis in *Penaeus monodon*, 89 (1990) 83

Toxicities of ammonia and nitrite to *Penaeus monodon* adolescents, 89 (1990) 127

Supplemental feeding of *Penaeus monodon* juveniles with diets containing various levels of defatted soybean meal, 89 (1990) 183

Occurrence of luminous bacterial disease of *Penaeus monodon* larvae in the Philippines, 91 (1990) 1

Growth characteristics and relationships among body length, body weight and tail weight of *Penaeus monodon* from a culture environment in Taiwan, 91 (1990) 253

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

Effects of Gusathion A on the survival and shell quality of juvenile *Penaeus monodon*, 93 (1991) 9

Effects of unilateral eyestalk ablation on ovarian histology and oocyte size frequency of wild and pond-reared *Penaeus monodon* (Fabricius) broodstock, 93 (1991) 77

Lethal levels of low dissolved oxygen and effects of short-term oxygen stress on subsequent growth of juvenile *Penaeus monodon*, 94 (1991) 27

Yield of *Penaeus monodon* Fabricius in brackishwater ponds given different fertilizer combinations, 94 (1991) 39

Apparent digestibility of diets with various carbohydrate levels and the growth response of *Penaeus monodon*, 95 (1991) 89

The occurrence, development and histopathology of monodon baculovirus in *Penaeus monodon* in southern Thailand, 96 (1991) 205

Effect of dehulling on the nutritive value of some leguminous seeds as protein sources for tiger prawn, *Penaeus monodon*, juveniles, 99 (1991) 297

Penaeus penicillatus

Overwintering and sexual maturation of *Penaeus penicillatus* Alcock in an outdoor earth pond, 86 (1990) 327

Combined effects of dietary phosphatidylcholine and cholesterol on the growth, survival and body lipid composition of marine shrimp, *Penaeus penicillatus*, 96 (1991) 167

Penaeus schmitti

Reproduction of ablated and unablated *Penaeus schmitti* in captivity using diets consisting of fresh-frozen natural and dried formulated feeds, 99 (1991) 387

Penaeus semisulcatus

The effect of breeding two prey organisms, nauplii of *Artemia* and rotifers, *Brachionus plicatilis* (Muller), upon survival and growth of larval marine shrimp, *Penaeus semisulcatus* (de Haan), 77 (1989) 11

Penaeus setiferus

Characterization of male reproductive tract degenerative syndrome in captive penaeid shrimp (*Penaeus setiferus*), 78 (1989) 365

Penaeus stylirostris

Influence du régime alimentaire sur la reproduction en captivité de *Penaeus vannamei* et *Penaeus stylirostris* (Diets in relation to reproduction of *Penaeus vannamei* and *Penaeus stylirostris* in captivity), 80 (1989) 97

Penaeus vannamei

Intensive shrimp growout trials in a round pond, 76 (1989) 215

Effect of sodium phytate on growth and tissue mineralization of *Penaeus japonicus* and *Penaeus vannamei* juveniles, 77 (1989) 145

Influence du régime alimentaire sur la reproduction en captivité de *Penaeus vannamei* et *Penaeus stylirostris* (Diets in relation to reproduction of *Penaeus vannamei* and *Penaeus stylirostris* in captivity), 80 (1989) 97

Inheritance of size as estimated by principal component analysis at two temperatures in *Penaeus vannamei* (abstract), 85 (1990) 323

Electrophoresis of isozymes in cultured *Penaeus vannamei* (abstract), 85 (1990) 330

Use of a new spray-dried algal product in penaeid larviculture, 86 (1990) 249

Evaluation of soybean meal as a replacement for marine animal protein in diets for shrimp (*Penaeus vannamei*), 87 (1990) 53

Prevalence of *Baculovirus penaei* in experimentally infected white shrimp (*Penaeus vannamei*) relative to age, 87 (1990) 237

Polyunsaturated fatty acid profiles as a comparative tool in assessing maturation diets of *Penaeus vannamei*, 89 (1990) 287

In vitro stimulation of oocytes by presumptive mandibular organ secretions in the shrimp, *Penaeus vannamei*, 92 (1991) 59

Differences in growth, morphometric traits, and male sexual maturity among Pacific white shrimp, *Penaeus vannamei*, from different commercial hatcheries, 92 (1991) 165

Evaluation of genetic variation in a domestic population of *Penaeus vannamei* (Boone): a comparison with three natural populations, 97 (1991) 131

Perch

see *Lates calcarifer*

Perna canaliculus

The relationship between farmed mussels, *Perna canaliculus*, and available food in Pelorus–Kenepuru Sound, New Zealand, 1983–1985, 99 (1991) 49

Pest control

Biological control of the mussel in shellfish culture, 81 (1989) 97

Pesticides

Effects of Gusathion A on the survival and shell quality of juvenile *Penaeus monodon*, 93 (1991) 9

pH

Effects of acid water and aluminium on smolting and seawater tolerance in Atlantic salmon, *Salmo salar* (abstract), 82 (1989) 383

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Pharmacokinetics

Pharmacokinetic study of oxytetracycline in fish. I. Absorption, distribution and accumulation in rainbow trout in freshwater, 96 (1991) 219

Phaseolus aureus

Effect of dietary protein level and amount of plant ingredient (*Phaseolus aureus*) incorporated into the diets on consumption, growth performance and carcass composition in *Oreochromis niloticus* (L.) fry, 80 (1989) 121

Phenotype

Body traits in rainbow trout. I. Phenotypic means and standard deviations and sex effects, 80 (1989) 7

Body traits in rainbow trout. II. Estimates of heritabilities and of phenotypic and genetic correlations, 80 (1989) 25

Phenoxyethanol

Metomidate, a better anesthetic for cod (*Gadus morhua*) in comparison with benzocaine, MS-222, chlorobutanol, and phenoxyethanol, 83 (1989) 89

Pheromones

Observations on a possible pheromonal stimulation of milt production in carp (*Cyprinus carpio* L.), 77 (1989) 387

The chemical nature of sex attracting pheromones from the seminal vesicle of the African catfish, *Clarias gariepinus*, 83 (1989) 137

Steroid glucuronides of the seminal vesicle as olfactory stimuli in African catfish, *Clarias gariepinus*, 83 (1989) 153

Pheromonal stimulation of ovarian recrudescence in hatchery-raised adult African catfish, *Clarias gariepinus*, 90 (1990) 369

Plasma androgen levels in castrated adult male African catfish, *Clarias gariepinus*, in relation to pheromonal stimulation of ovarian growth in pubertal conspecifics, 97 (1991) 97

Phosphatidylcholine

Combined effects of dietary phosphatidylcholine and cholesterol on the growth, survival and body lipid composition of marine shrimp, *Penaeus penicillatus*, 96 (1991) 167

Phosphorus

The effect of manures and chemical fertilizers on the production of *Oreochromis niloticus* in earthen ponds, 76 (1989) 37

Spatial and temporal variation of water column measurements in aquaculture ponds, 78 (1989) 253

Loadings of nitrogen and phosphorus from a Northern Ireland fish farm, 96 (1991) 17

Fractionation of phosphorus and nitrogen loadings from a Northern Ireland fish farm, 96 (1991) 31

Photoperiod

Photoperiod and temperature effects on early development and reproductive investment in Atlantic salmon (*Salmo salar* L.), 79 (1989) 403

The effect of modifications in photoperiod on spawning time, ovarian development and egg quality in the sea brass (*Dicentrarchus labrax* L.), 81 (1989) 351

Effect of photoperiod and various intensities of night illumination on growth and seawater adaptability of juvenile coho salmon (*Oncorhynchus kisutch*), 82 (1989) 39

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

Effects of photoperiod on smolting and hormonal secretion in masu salmon, *Oncorhynchus masou*, 82 (1989) 63

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Effects of photoperiod on growth and smolting in juvenile Atlantic salmon (*Salmo salar*), 82 (1989) 103

Some influences of photoperiod and temperature on opportunity for growth in juvenile Atlantic salmon, *Salmo salar* L., 82 (1989) 119

The effect of constant 12-hour light and simulated natural light on growth, cardiac–somatic index and smolting in the Atlantic salmon (*Salmon salar*), 82 (1989) 127

Temperature and daylength as regulators of smolting in cultured Baltic salmon, *Salmo salar* L., 82 (1989) 137

The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages, 82 (1989) 155

Delayed photoperiod, seapen survival and growth rate of 0-age coho salmon (*Oncorhynchus kisutch*), under intensive culture conditions (abstract), 82 (1989) 375

Control of spawning activity in male and female rainbow trout (*Oncorhynchus mykiss*) by repeated foreshortened seasonal light cycles, 86 (1990) 93

Influence of the date and body size at smoltification and subsequent growth rate and photoperiod on desmoltification in underyearling masu salmon (*Oncorhynchus masou*), 86 (1990) 209

Growth of different families of Atlantic salmon (*Salmo salar*) under three experimental photoperiods, 86 (1990) 271

Continuous light increases growth rate of Atlantic salmon (*Salmo salar* L.) postsmolts in sea cages, 95 (1991) 281

Hemoglobins in smoltifying chinook salmon, *Oncorhynchus tshawytscha*, subjected to photoperiod control, 95 (1991) 359

Effects of constant photoperiod–temperature regimes on ovarian activity during the annual reproductive cycle in the murrel, *Channa punctatus* (Bloch), 96 (1991) 383

Short periods of continuous light provide a simple, cheap and predictable method for the production of out-of-season rainbow trout eggs (Husbandry and Management – Poster Abstracts), 100 (1992) 172

Absolute daylength and the entrainment of an endogenous clock controlling reproduction in the female rainbow trout (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 321

Osmoregulation in rainbow trout exposed to different photoperiod regimes (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 326

Photoperiod and the control of rainbow trout spawning time: endocrinological aspects (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 327

Phototaxis

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Phyllophora nervosa

Cultivation of *Phyllophora nervosa* (DC) Grev. on rope collectors in the Black Sea, 84 (1990) 257

Phytate

Dietary calcium, phytate and zinc interactions in channel catfish, 79 (1989) 259

Effect of supplemental phytate and/or tricalcium phosphate on weight gain, feed efficiency and zinc content in vertebrae of channel catfish, 80 (1989) 155

Phytoplankton

see also Algae

Phytoplankton nutrient uptake dynamics in earthen marine fishponds under winter and summer conditions, 76 (1989) 237

Mortality associated with phytoplankton blooms among farmed Atlantic salmon, *Salmo salar* L., in Scotland, 78 (1989) 217

Water quality conditions and particulate chlorophyll *a* of new intensive seawater fishponds in Eilat, Israel: daily and diel variations, 80 (1989) 63

Size structure and potential food value of the plankton community to *Ostrea edulis* L. in a traditional Norwegian "Østerspoll", 86 (1990) 231

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

Piaractus mesopotamicus

Pattern of oocyte diameter frequency distribution in females of the pacu, *Piaractus mesopotamicus* (Holmberg 1887) (= *Colossoma mitrei* Berg 1895), induced to spawn, 86 (1990) 105

Picorna-like virus

Viral infection (picorna-like virus) associated with mass mortalities in hatchery-reared sea-bass (*Dicentrarchus labrax*) larvae and juveniles, 97 (1991) 109

Pigmentation

Pigmentation of salmonids: interactions of astaxanthin and canthaxanthin on pigment deposition in rainbow trout, 79 (1989) 363

Effects of pigments from different sources on colour changes and growth of red *Oreochromis niloticus*, 79 (1989) 375

Dose response to astaxanthin and canthaxanthin pigmentation of rainbow trout fed various dietary carotenoid concentrations, 81 (1989) 69

Heritability and genetic correlations for flesh coloration in pen-reared coho salmon, 86 (1990) 181

Pigmentation of prawn (*Penaeus japonicus*) with carotenoids. I. Effect of dietary astaxanthin, β-carotene and canthaxanthin on pigmentation, 87 (1990) 323

Intestinal absorption of astaxanthin, plasma astaxanthin concentration, body weight, and metabolic rate as determinants of flesh pigmentation in salmonid fish, 90 (1990) 313

Flesh pigmentation of rainbow trout fed astaxanthin or canthaxanthin at different feeding rates in freshwater and saltwater, 95 (1991) 289

Pigmentation of rainbow trout with astaxanthin at different water temperatures, 97 (1991) 203

Growth and pigmentation of marron (*Cherax tenuimanus*) fed a reference ration supplemented with the microalga *Dunaliella salina*, 99 (1991) 285

Pigmentation of rainbow trout, 100 (1992) 209

Pike

see *Esox lucius*

Pimozide

Induction of maturation and ovulation by pimozide–LHRH analogue treatment and resulting high quality egg production in the Asian catfish, *Clarias batrachus* (L.), 83 (1989) 193

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Pinctada fucata

Detection of induced triploidy at different ages for larvae of the Japanese pearl oyster, *Pinctada fucata martensii*, by microfluorometry with DAPI staining, 76 (1989) 1

Triploid production in the Japanese pearl oyster, *Pinctada fucata martensii*, 76 (1989) 11

Triploid production in the Japanese pearl oyster, *Pinctada fucata martensii* (abstract), 85 (1990) 325

Inheritance of white coloration of the prismatic layer of shells in the Japanese pearl oyster, *Pinctada fucata martensii*, and its importance in the pearl culture industry (abstract), 85 (1990) 331

Pinctada margaritifera

Larval and juvenile rearing of black-lip pearl oyster, *Pinctada margaritifera* (Linnaeus), 76 (1989) 43

Piscinoodinium pillulare

Epizootics of Malaysian cultured freshwater pond fishes by *Piscinoodinium pillulare* (Schaperclaus 1954) Lom 1981, 86 (1990) 127

Plecoglossus altivelis

Genetic variation in quantitative characters of meiotic- and mitotic-gynogenetic diploid ayu, *Plecoglossus altivelis*, 85 (1990) 223

Pleuronectes platessa

Fish roe as a major component in start-feed for marine fish larvae, 79 (1989) 353

Poecilia reticulata

Packaging of the guppy, *Poecilia reticulata*, for air transport in a closed system, 78 (1989) 321

Quantitative male sexual behavior of guppy varieties (*Poecilia reticulata*) under competitive and non-competitive environments (abstract), 85 (1990) 319

Relationships between growth and colour patterns genes in three strains of the guppy (*Poecilia reticulata*) under intra- and inter-strain competition (abstract), 85 (1990) 319

Colour pattern inheritance in three domesticated varieties of guppy, *Poecilia reticulata* (abstract), 85 (1990) 320

Pollachius virens

The role of saithe, *Pollachius virens* L., as a host for the sea lice, *Lepeoptheirus salmonis* Krøyer and *Caligus elongatus* Nordmann, 89 (1990) 201

Concentrations of wild and escaped fishes immediately adjacent to fish farm cages, 90 (1990) 29

Pollution

Mussels as biological indicators of pollution, 94 (1991) 225

Polyculture

The Pacific oyster, *Crassostrea gigas*, as a biological filter for a marine fish aquaculture pond, 92 (1991) 187

Polyculture of the Pacific oyster, *Crassostrea gigas* (Thunberg), with chinook salmon, *Oncorhynchus tshawytscha*, 92 (1991) 313

Effects of manuring rate on ecology and fish performance in polyculture ponds, 96 (1991) 119

Polygonum hydropiper

Piscicidal plants of Nepal: ripe fruit of *Catunaregam spinosa* (Thunb.) (Rubiaceae) and leaves of *Polygonum hydropiper* L. (Polygonaceae) as fish poisons, 78 (1989) 293

Polyodon spathula

Evaluation of three organic fertilizers for paddlefish, *Polyodon spathula*, production in nursery ponds, 99 (1991) 69

Polyploidy

Detection of induced triploidy at different ages for larvae of the Japanese pearl oyster, *Pinctada fucata martensii*, by microfluorometry with DAPI staining, 76 (1989) 1

Triploid production in the Japanese pearl oyster, *Pinctada fucata martensii*, 76 (1989) 11

Triploidy induction in the black scallop (*Chlamys varia* L.) and its effect on larval growth and survival, 77 (1989) 103

Triploidy induction by thermal shock in the Manila clam, *Tapes semidecussatus*, 78 (1989) 223

Triploidy induction in recently fertilized Atlantic salmon ova using anaesthetics, 78 (1989) 229

Production of all-female sterile-triploid *Oreochromis mossambicus*, 84 (1990) 117

Effect of temperature on utilization of endogenous energy reserves during embryonic development of diploid and triploid rainbow trout (*Salmo gairdneri* R.), 84 (1990) 373

Induced triploids and tetraploids in bighead carp, *Hypophthalmichthys nobilis*, verified by multi-embryo cytofluorometric analysis, 87 (1990) 121

Preliminary observations on induced polyploidy in Indian major carps, *Labeo rohita* (Ham.) and *Catla catla* (Ham.), 87 (1990) 279

Problems associated with tetraploid induction and survival in grass carp, *Ctenopharyngodon idella*, 88 (1990) 273

Thermal induction of gynogenesis and triploidy in Atlantic salmon (*Salmo salar*) and their potential interest for aquaculture, 89 (1990) 351

Induced triploidy in the European flat oyster, *Ostrea edulis* L., 90 (1990) 229

Triploidy induced by heat shock in brook trout (*Salvelinus fontinalis*), 92 (1991) 305

Triploidy induced by cold shock in the Asian catfish, *Clarias batrachus* (L.), 94 (1991) 377

Early growth and survival of heat-shocked and tetraploid-derived triploid rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 97

Diploid/triploid rainbow trout chimeras produced by microinjecting isolated blastomeres into recipient blastulae (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 327

Population dynamics

Population dynamics of *Procambarus clarkii* (Girard) and *Procambarus acutus acutus* (Girard) (Decapoda: Cambaridae) in commercial ponds, 81 (1989) 253

Dynamics of exploited populations of the calanoid copepod, *Acartia tsuensis*, 84 (1990) 27

Effective population size and rate of inbreeding in aquaculture of Indian major carps, 85 (1990) 293

Distribution of adult recaptures from hatchery-reared Atlantic salmon (*Salmo salar*) smolts released in and off-shore of the River Surna, western Norway, 98 (1991) 89

The threat of extinction to native populations experiencing spawning intrusions by cultured Atlantic salmon, 98 (1991) 119

Occurrence of reared salmon in natural salmon rivers in Iceland, 98 (1991) 133

Farmed Atlantic salmon (*Salmo salar*) in fisheries and rivers in Norway, 98 (1991) 143

Expansion of cultured Pacific salmon into marine ecosystems, 98 (1991) 173

Porphyra carolinensis

Spheroplast isolation and propagation of *Porphyra carolinensis* Coll et Cox for mariculture, 81 (1989) 101

Potassium

Elevated liver potassium in juvenile, seawater-adapted coho salmon (abstract), 82 (1989) 378

Poultry by-product meal

Poultry by-product meal as a dietary protein source in fall chinook salmon diets, 99 (1991) 309

Prawn

see *Macrobrachium* spp., *Penaeus* spp.

Praziquantel

Anthelminthic activity of praziquantel, niclosamide, netobimin and mebendazole against *Bothriocephalus scorpii* naturally infecting turbot (*Scophthalmus maximus*), 76 (1989) 199

Predation

The role of learning and stress in predator avoidance of hatchery-reared coho salmon (*Oncorhynchus kisutch*) juveniles, 76 (1989) 209

Predation on larvae of the noble crayfish, *Astacus astacus* L., 86 (1990) 155

Cumulative acute physiological stress in Atlantic salmon smolts: the effect of osmotic imbalance and the presence of predators, 89 (1990) 337

Primary production

Effects of nutrient availability on primary productivity and fish production in fertilized tropical ponds, 78 (1989) 303

Nitrogen input, primary productivity and fish yield in fertilized freshwater ponds in Indonesia, 94 (1991) 49

Procambarus acutus

Population dynamics of *Procambarus clarkii* (Girard) and *Procambarus acutus acutus* (Girard) (Decapoda: Cambaridae) in commercial ponds, 81 (1989) 253

Procambarus clarkii

Estimation of heritabilities for growth, body size, and processing traits in red swamp crawfish, *Procambarus clarkii* (Girard), 78 (1989) 21

Population dynamics of *Procambarus clarkii* (Girard) and *Procambarus acutus acutus* (Girard) (Decapoda: Cambaridae) in commercial ponds, 81 (1989) 253

Apparent digestibility coefficients for common feedstuffs in formulated diets for red swamp crayfish, *Procambarus clarkii*, 84 (1990) 321

Prolactin

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Plasma prolactin levels during smolting in Atlantic salmon, *Salmo salar*, 82 (1989) 297

Control of prolactin secretion from the developing pituitary of coho salmon (abstract), 82 (1989) 377

Plasma levels of prolactin and growth hormone during parr–smolt transformation of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 382

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Osmoregulation and circulating growth hormone and prolactin levels in hypophysectomized coho salmon (*Oncorhynchus kisutch*) after transfer to fresh water and seawater, 92 (1991) 33

Serum prolactin and sex steroids in Atlantic salmon (*Salmo salar*) during sexual maturation, 95 (1991) 169

Proliferative kidney disease

A comparison of the susceptibility of *Salvelinus alpinus* and *Salmo salar ouananiche* to proliferative kidney disease, 96 (1991) 1

Propionate

Effects of dietary lactate and propionate on growth and digesta in Arctic charr, *Salvelinus alpinus* (L.), 96 (1991) 321

Proteins and amino acids

Effect of squid extracts on time course appearance of glucose and free amino acids in haemolymph in *Penaeus japonicus* after feeding: preliminary results, 76 (1989) 57

Interaction between dietary protein and magnesium level in tilapia (*Oreochromis niloticus*, 76 (1989) 277

The effect of different protein levels and temperatures on feed utilization, growth and body composition of *Clarias gariepinus* (Burchell 1822), 76 (1989) 293

Growth of juvenile white sturgeon (*Acipenser transmontanus*) fed different proteins, 76 (1989) 303

Protein-to-energy ratios in production diets and growth, feed conversion and body composition of channel catfish, *Ictalurus punctatus*, 77 (1989) 21

Studies on nutrient digestibility in European sea bass (*Dicentrarchus labrax*). 1. Methodological aspects concerning faeces collection, 77 (1989) 61

Studies on nutrient digestibility in European sea bass (*dicentrarchus labrax*). 2. Effect of sodium alginate on protein and lipid digestibility, 77 (1989) 71

Effect of dietary protein level on growth, feed conversion and body composition of shingi (*Heteropneustes fossilis* Bloch), 77 (1989) 175

An assessment of processing effects on the nutritive value of marine protein sources for juvenile chinook salmon (*Oncorhynchus tshawytscha*), 77 (1989) 181

Growth and $\omega 3$ fatty acids and amino acid composition of microalgae under different temperature regimes, 77 (1989) 337

Supplementation of methionine to soy flour diets for fingerling carp, *Cyprinus carpio*, 77 (1989) 373

Influence of feeding on protein metabolism in Atlantic salmon (*Salmo salar*), 79 (1989) 29

Short-term responses of protein synthesis to re-feeding in rainbow trout, 79 (1989) 37

Ration size in the feeding of cod (*Gadus morhua*): effect on skeletal muscle proteins, with special reference to myosin heavy chain, 79 (1989) 47

Utilization of dietary protein by the eel (*Anguilla anguilla*): optimum dietary protein levels, 79 (1989) 53

Effect of digestible carbohydrates on protein/energy utilization and on glucose metabolism in rainbow trout (*Salmo gairdneri* R.), 79 (1989) 63

An evaluation of the isolated, in vitro, non-myotomal muscle preparation for the study of factors affecting protein synthesis in fish, 79 (1989) 75

Estimation of protein synthesis in fish larvae using an in vitro polyribosome assay, 79 (1989) 85

Effects of ration on protein turnover in cod, 79 (1989) 103

A simple in vitro method for measuring protein digestibility, 79 (1989) 111

Feed intake, digestibility and brain neurotransmitters of rainbow trout under hypoxia, 79 (1989) 317

First feeding of marine fish larvae: are free amino acids the source of energy?, 80 (1989) 111

Effect of dietary protein level and amount of plant ingredient (*Phaseolus aureus*) incorporated into the diets on consumption, growth performance and carcass composition in *Oreochromis niloticus* (L.) fry, 80 (1989) 121

Effects of metformin on plasma insulin, glucose metabolism and protein synthesis in the common carp (*Cyprinus carpio* L.), 80 (1989) 175

The dietary protein requirements of young tilapia and an evaluation of the least cost dietary protein levels, 80 (1989) 271

The amino acid and fatty acid compositions of selected tissues of the dolphin fish (*Coryphaena hippurus*) and their nutritional implications, 80 (1989) 285

Optimal dietary protein level for hybrid tilapia (*Oreochromis niloticus* × *O.aureus*) reared in seawater, 81 (1989) 119

Nutritional evaluation of crab protein for larval *Penaeus japonicus* fed microparticulate diets, 81 (1989) 145

Anomalies de calcification chez la palourde japonaise *Ruditapes philippinarum*: caractérisation et comparaison des compositions en acides aminés de différentes parties de la coquille analysée par HPLC (Abnormal calcification in the shell of the Manila clam, *Ruditapes philippinarum*: characterization and comparison of amino acid content in different shell parts analysed by HPLC), 81 (1989) 169

Protein digestion in early turbot larvae, *Scophthalmus maximus* (L.), 81 (1989) 315

Investigation of hepatic cytosolic proteins during parr-smolt transformation of Atlantic salmon (*Salmo salar*), 82 (1989) 1

Biomass production and variation in the biochemical profile (total protein, carbohydrates, RNA, lipids and fatty acids) of seven species of marine microalgae, 83 (1989) 17

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

An evaluation of indigenous protein sources as potential component in the diet formulation for tiger prawn, *Penaeus monodon*, using essential amino acid index (EAAI), 83 (1989) 319

Long-term evaluation of cotton seed meal as a protein source for Nile tilapia, *Oreochromis niloticus* (Linn.), 84 (1990) 315

Effect of dietary protein and energy level on growth, protein utilization and carcass composition of rabbitfish, *Siganus guttatus*, 86 (1990) 41

Defatted and full-fat soybean meal as partial replacements for fishmeal in tilapia (*Oreochromis niloticus* × *O. aureus*) diets at low protein level, 86 (1990) 401

Preliminary study on the effect of short-term carnitine treatment on nucleic acids and protein metabolism in sea bass (*Dicentrarchus labrax* L.) fry, 87 (1990) 85

Potential of rapeseed meal as an alternative protein source in complete diets for tilapia (*Oreochromis mossambicus* Peters), 87 (1990) 145

Quantitative lysine requirement of milkfish (*Chanos chanos*) juveniles, 87 (1990) 341

Modified uptake of the protein antigen horseradish peroxidase (HRP), following oral delivery to rainbow trout, *Oncorhynchus mykiss*, 87 (1990) 373

Growth, feed conversion and protein utilization of Florida red tilapia fed isocaloric diets with different protein levels in seawater pools, 88 (1990) 75

Feather meal as a dietary protein source during parr–smolt transformation in fall chinook salmon, 89 (1990) 301

Culture of Florida red tilapia in marine cages: the effect of stocking density and dietary protein on growth, 90 (1990) 123

The use of alfalfa leaf protein concentrates as a protein source in diets for tilapia (*Oreochromis mossambicus*), 90 (1990) 291

Partial substitution of soybean meal with animal protein sources in diets for channel catfish, 90 (1990) 303

Influence of varying energy levels with two protein concentrations in diets for hybrid tilapia (*Oreochromis niloticus* × *O. aureus*) reared in seawater, 91 (1990) 143

Replacing live foods with microencapsulated diets in the rearing of seabass (*Lates calcarifer*) larvae: do the larvae ingest and digest protein-membrane microcapsules?, 92 (1991) 225

Hatchery-reared landlocked Arctic charr, *Salvelinus alpinus* (L.), from Lake Takvatn reared in fresh and sea water. II. The effect of salinity on the digestibility of protein, lipid and individual fatty acids in a capelin roe diet and commercial feed, 93 (1991) 135

Optimum dietary protein level for growth of bighead carp (*Aristichthys nobilis*) fry in a static water system, 93 (1991) 155

Arginine and threonine requirements of milkfish (*Chanos chanos* Forsskal) juveniles, 93 (1991) 313

Nutrition of marine mussels: factors influencing the relative utilizations of protein and energy, 94 (1991) 177

Total sulfur amino acid requirements of juvenile red drum, *Sciaenops ocellatus*, 95 (1991) 97

Optimal dietary lysine levels for growth and protein utilisation of fingerling sea bass (*Dicentrarchus labrax* L.) fed semipurified diets, 95 (1991) 297

Interactions of varying dietary protein and lipid levels in young red tilapia: evidence of protein sparing, 95 (1991) 305

Purified diet development and re-evaluation of the dietary protein requirement of fingerling rainbow trout (*Oncorhynchus mykiss*), 96 (1991) 57

Evaluation of distillers' grains with solubles as a protein source in diets for channel catfish, 96 (1991) 179

Quantitative essential amino acid requirements for growth of catla, *Catla catla* (Hamilton), 96 (1991) 281

Effect of dehulling on the nutritive value of some leguminous seeds as protein sources for tiger prawn, *Penaeus monodon*, juveniles, 99 (1991) 297

Feeding systems for rainbow trout and other salmonids with reference to current estimates of energy and protein requirements, 100 (1992) 107

Protein nutrition of rainbow trout, 100 (1992) 191

Pseudodactylogyrosis

Mebendazole treatment of pseudodactylogyrosis in an intensive eel-culture system, 86 (1990) 139

Pseudodactylogyrus spp.

Mebendazole treatment against *Pseudodactylogyrus* infections in eel (*Anguilla anguilla*), 91 (1990) 15

Pseudomonas

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Psorospermium haeckeli

The crayfish pathogen *Psorospermium haeckeli* activates the prophenoloxidase activating system of freshwater crayfish in vitro, 99 (1991) 225

Q

Quinaldine sulfate

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

R

Rabbitfish

see *Siganus guttanus*

Radioimmunoassay

Development of a homologous radioimmunoassay for a gonadotropin of the gilthead seabream, *Sparus aurata*, 88 (1990) 189

Ranging programs

Expansion of cultured Pacific salmon into marine ecosystems, 98 (1991) 173

Rapeseed meal

Potential of rapeseed meal as an alternative protein source in complete diets for tilapia (*Oreochromis mossambicus* Peters), 87 (1990) 145

Renibacterium salmoninarum

Comparison of western blot, direct fluorescent antibody and drop-plate culture methods for the detection of *Renibacterium salmoninarum* in Atlantic salmon (*Salmo salar* L.), 97 (1991) 117

Reproduction

see also Techniques (various keywords)

Reproduction — crustaceans

Cytological observations on fertilization in the Chinese fresh-water crab, *Eriocheir sinensis*, by artificial insemination (in vitro) and incubation, 76 (1989) 347

Ovarian maturation stages of the wild giant tiger prawn, *Penaeus monodon* Fabricius, 77 (1989) 229

Effect of indoor, culture conditions on maturation and fecundity of wild-caught female noble crayfish, *Astacus astacus* L., 81 (1989) 1

Changes in ovarian unconjugated and conjugated steroid titers during vitellogenesis in *Penaeus monodon*, 89 (1990) 83

In vitro stimulation of oocytes by presumptive mandibular organ secretions in the shrimp, *Penaeus vannamei*, 92 (1991) 59

Effects of unilateral eyestalk ablation on ovarian histology and oocyte size frequency of wild and pond-reared *Penaeus monodon* (Fabricius) broodstock, 93 (1991) 77

Spawning cycle and oocyte maturation in laboratory-maintained giant freshwater prawns (*Macrobrachium rosenbergii*), 95 (1991) 347

Neuroendocrine regulation of ovarian maturation in the Indian white prawn *Penaeus indicus* H. Milne Edwards, 98 (1991) 381

Reproduction of ablated and unablated *Penaeus schmitti* in captivity using diets consisting of fresh-frozen natural and dried formulated feeds, 99 (1991) 387

Reproduction — fish

The viability of cryopreserved tilapia spermatozoa, 76 (1989) 335

Preliminary studies on reproduction and larval rearing of common dentex, *Dentex dentex* (Linaeus 1758), 77 (1989) 75

Dose-dependent spawning response of mature female sea bass, *Lates calcarifer* (Bloch), to pelleted luteinizing hormone-releasing hormone analogue (LHRHa), 77 (1989) 85

Factors affecting the activation and duration of motility of the spermatozoa of the summer whiting (*Sillago ciliata*), 77 (1989) 243

Gonadal differentiation in coho salmon, *Oncorhynchus kisutch*, after a single treatment with androgen or estrogen at different stages during ontogenesis, 77 (1989) 251

Spawning of yellowtail snapper (*Ocyurus chrysurus* Bloch 1791) in captivity, 77 (1989) 287

Observations on a possible pheromonal stimulation of milt production in carp (*Cyprinus carpio* L.), 77 (1989) 387

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish

(*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Lack of antigenicity of human chorionic gonadotropin in silver carp (*Hypophthalmichthys molitrix*) and goldfish (*Carassius auratus*), 78 (1989) 81

Effects of oral administration of 17α-methyltestosterone and 17β-estradiol on gonadal development in common carp, *Cyprinus carpio* L., 78 (1989) 349

Effects of different diets on egg production and egg quality of Atlantic salmon (*Salmo salar* L.), 79 (1989) 275

Vitellogenin synthesis in Atlantic salmon (*Salmo salar*) at different acclimation temperatures, 79 (1989) 397

Photoperiod and temperature effects on early development and reproductive investment in Atlantic salmon (*Salmo salar* L.), 79 (1989) 403

The effect of stress on spawning of brood fish and survival of larvae of the rabbitfish, *Siganus guttatus* (Bloch), 80 (1989) 241

Role of dietary ascorbic acid in vitellogenesis in rainbow trout (*Salmo gairdneri*), 80 (1989) 301

Fatty acid analysis of fish eggs without solvent extraction, 80 (1989) 371

The effect of modifications in photoperiod on spawning time, ovarian development and egg quality in the sea brass (*Dicentrarchus labrax* L.), 81 (1989) 351

The chemical nature of sex attracting pheromones from the seminal vesicle of the African catfish, *Clarias gariepinus*, 83 (1989) 137

Steroid glucuronides of the seminal vesicle as olfactory stimuli in African catfish, *Clarias gariepinus*, 83 (1989) 153

Induction of gonadotropin release and ovulation by pheromones in the African catfish, *Clarias gariepinus*, 83 (1989) 167

Effects of 17α-methyltestosterone and 11β-hydroxyandrostenedione on gonad differentiation in the African catfish, *Clarias gariepinus*, 83 (1989) 179

Induction of maturation and ovulation by pimozide–LHRH analogue treatment and resulting high quality egg production in the Asian catfish, *Clarias batrachus* (L.), 83 (1989) 193

A new sperm diluent for the artificial insemination of rainbow trout (*Salmo gairdneri*), 83 (1989) 367

Studies on induced ovulation, embryonic development and larval rearing of the mudskipper (*Boleophthalmus pectinirostris*), 83 (1989) 375

Survival of pike (*Esox lucius* L.) broodstock in relation to type of reproduction, 83 (1989) 387

Studies on the evolution of bisexual reproduction in crucian carp (*Carassius auratus gibelio* Bloch), 84 (1990) 235

Androgenetic rainbow trout produced using sperm from tetraploid males show improved survival, 85 (1990) 215

Family studies on genetic variability in growth and reproductive performance between and within test fish populations of the zebrafish, *Brachydanio rerio*, 85 (1990) 307

Control of spawning activity in male and female rainbow trout (*Oncorhynchus mykiss*) by repeated foreshortened seasonal light cycles, 86 (1990) 93

Pattern of oocyte diameter frequency distribution in females of the pacu, *Piaractus mesopotamicus* (Holmberg 1887) (= *Colossoma mitrei* Berg 1895), induced to spawn, 86 (1990) 105

Egg fertility, early development and survival from crosses of diploid female × triploid male grass carp (*Ctenopharyngodon idella*), 86 (1990) 111

Correlation of body weight and reproductive characteristics in rainbow trout, 86 (1990) 191

Intergeneric hybridization in Sparidae. 1. *Sparus aurata* ♀ × *Diplodus puntazzo* ♂ and *Sparus aurata* ♀ × *Diplodus vulgaris* ♂, 86 (1990) 369

The effects of hypoxia, alkalinity and neurochemicals on hatching of Atlantic salmon (*Salmo salar*) eggs, 86 (1990) 417

Effect of sire, diet and week of spawning on volume of eggs retained by artificially spawned rainbow trout, 87 (1990) 23

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. I. Gross embryology, temperature tolerance and rates of embryonic development, 87 (1990) 165

Development of a homologous radioimmunoassay for a gonadotropin of the gilthead seabream, *Sparus aurata*, 88 (1990) 189

Electrophoretic comparison of the reproductive success of naturally spawning transplanted and wild steelhead trout through the returning adult stage, 88 (1990) 239

Hatchery techniques for egg and fry production of *Clarias batrachus* (Linnaeus), 89 (1990) 9

Dietary effects on tissue composition, oogenesis and the reproductive performance of female rainbow trout (*Oncorhynchus mykiss*), 90 (1990) 179

A diluent for sperm cryopreservation of gilthead seabream, *Sparus aurata*, 90 (1990) 345

Seasonal levels of serum vitellogenin and oocyte growth in the channel catfish *Ictalurus punctatus*, 90 (1990) 353

Pheromonal stimulation of ovarian recrudescence in hatchery-raised adult African catfish, *Clarias gariepinus*, 90 (1990) 369

Annual cycle of gonadal histology and steroid profiles in the juvenile males and adult females of the protandrous black porgy, *Acanthopagrus schlegeli*, 91 (1990) 179

Effect of oxolinic acid on bacterial flora and hatching success rate of rainbow trout, *Oncorhynchus mykiss*, eggs, 91 (1990) 205

Effects of acute versus sustained administration of GnRHa on GtH release and ovulation in the rainbow trout, *Oncorhynchus mykiss*, 91 (1990) 373

Observations on ovarian follicle ultrastructure in the marine teleost, *Pagrus major*, during vitellogenesis and oocyte maturation, 92 (1991) 67

Effects of LHRH-A and HCG on the steroid profiles of bisexual and mature male and female protandrous black porgy, *Acanthopagrus schlegeli*, 92 (1991) 83

Effects of temperature on egg and larval development of *Sparus aurata* L., 92 (1991) 367

LHRH-a and domperidone-induced oocyte maturation and ovulation in bighead carp, *Aristichthys nobilis* (Richardson), 93 (1991) 87

Cryopreservation of rainbow trout semen in large straws, 93 (1991) 95

Male-induced shifts in pattern of vitellogenesis during puberty and recrudescence of female African catfish, *Clarias gariepinus*, 94 (1991) 99

Cryopreservation of Atlantic croaker spermatozoa, 94 (1991) 355

Evaluation of milt quality of Atlantic salmon, 95 (1991) 125

Induced spawning of rabbitfish, *Siganus guttatus* (Bloch) using human chorionic gonadotropin (HCG), 95 (1991) 133

Effects of gonadotropin-releasing hormone agonists and dopamine antagonists on gonadotropin secretion and ovulation in Chinese loach, *Paramisgurnus dabryanus*, 95 (1991) 139

Steroid profiles during maturation and induced spawning of the striped mullet, *Mugil cephalus* L., 95 (1991) 149

Serum prolactin and sex steroids in Atlantic salmon (*Salmo salar*) during sexual maturation, 95 (1991) 169

Reconditioning of Atlantic salmon (*Salmo salar*) kelts with silage-based diets: growth and reproductive performance, 96 (1991) 43

Stimulation of pituitary gonadotropin and ovarian development by chronic administration of testosterone in female Japanese silver eel, *Anguilla japonica*, 96 (1991) 87

Growth and reproductive performance of bighead carp (*Aristichthys nobilis*) reared with or without feeding in floating cages, 96 (1991) 109

Effects of constant photoperiod–temperature regimes on ovarian activity during the annual reproductive cycle in the murrel, *Channa punctatus* (Bloch), 96 (1991) 383

Offspring fitness and fecundity of an Indian major carp, *Labeo rohita* (Ham.), in relation to egg size, 97 (1991) 269

Spermiation response of mature rabbitfish, *Siganus guttatus* Bloch, to luteinizing hormone-releasing hormone analogue (LHRHa) injection, 97 (1991) 291

A new method for electron-microscopical fixation of spermatozoa of freshwater teleosts, 97 (1991) 301

Ovulatory rhythms and egg viability in the Atlantic halibut (*Hippoglossus hippoglossus*), 97 (1991) 365

Induced spawning of Indian major carps and maturation of a perch and a catfish by murrel gonadotropin releasing hormone, pimozide and calcium, 97 (1991) 373

Documentation of successful spawning of escaped farmed female Atlantic salmon, *Salmo salar*, in Norwegian rivers, 98 (1991) 151

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Broodstock management, fecundity, egg quality and the timing of egg production in the rainbow trout (*Oncorhynchus mykiss*), 100 (1992) 141

Short periods of continuous light provide a simple, cheap and predictable method for the production of out-of-season rainbow trout eggs (Husbandry and Management — Poster Abstracts), 100 (1992) 172

Reproduction in rainbow trout: sex differentiation, dynamics of gametogenesis, biology and preservation of gamets, 100 (1992) 263

Absolute daylength and the entrainment of an endogenous clock controlling reproduction in the female rainbow trout (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 321

Morphological, histochemical and chromatographic changes related to over-ripening in rainbow trout eggs (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 323

Stimulation of maturation in rainbow trout females by metoclopramide, a dopamine receptor antagonist, and by LHRH analogue (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 324

Improved fertilization success of rainbow trout by means of sperm diluent (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 325

Subpopulations of rainbow trout spermatozoa within individual males as detected by a sperm-specific monoclonal antibody (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 329

Reproduction — molluscs

Gametogenesis of the European flat oyster (*Ostrea edulis*) and Pacific oyster (*Crassostrea gigas*) in warm water in Israel, 80 (1989) 343

Induction of spawning by temperature and serotonin in the hermaphroditic tropical scallop, *Pecten ziczac*, 84 (1990) 307

Cooling and freezing tolerances in embryos of the Pacific oyster, *Crassostrea gigas*: methanol and sucrose effects, 92 (1991) 43

Cellular biochemistry of the mantle tissue of the mussel *Mytilus edulis* L., 94 (1991) 165

Cryopreservation of the spermatozoa of *Crassostrea tulipa* and three other oysters, 97 (1991) 259

Respiration

Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater, 82 (1989) 219

Respiratory requirements

The respiratory requirements of *Macrobrachium acanthurus* (Weigman) at different temperatures and salinities, 93 (1991) 191

Riboflavin

Riboflavin requirements in on-growing rainbow trout, *Oncorhynchus mykiss*, 88 (1990) 87

Rohu

Salinity

Effects of salinity on egg swelling in Atlantic salmon (*Salmo salar*), 76 (1989) 317

The effect of two temperatures and salinities on growth and survival of bilaterally eyestalk ablated and intact juvenile American lobsters, *Homarus americanus*, fed brine shrimp, 76 (1989) 373

Effect of photoperiod and various intensities of night illumination on growth and seawater adaptability of juvenile coho salmon (*Oncorhynchus kisutch*), 82 (1989) 39

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook and chum salmon, 82 (1989) 51

The effect of salinity and ration level on growth rate and conversion efficiency of Atlantic salmon (*Salmo salar*) smolts, 82 (1989) 173

Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish, 82 (1989) 191

Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater, 82 (1989) 219

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater, 82 (1989) 307

The saltwater adaptability of sympatric anadromous and non-anadromous sockeye salmon and their 'hybrids' (abstract), 82 (1989) 377

Does the Arctic charr (*Salvelinus alpinus*) exhibit a seasonal change in seawater tolerance? (abstract), 82 (1989) 383

Effects of acid water and aluminium on smolting and seawater tolerance in Atlantic salmon, *Salmo salar* (abstract), 82 (1989) 383

Effects of temperature on gonadal resorption and seawater adaptability among sexually mature Baltic salmon (*Salmo salar* L.) parr (abstract), 82 (1989) 384

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Effect of low temperature on seawater tolerance in Atlantic salmon (*Salmo salar*) smolts, 84 (1990) 167

Variation in growth and survival between two anadromous strains of Canadian Arctic charr (*Salvelinus alpinus*) during long-term saltwater rearing, 85 (1990) 259

Evaluation of the salinity tolerance of *Oreochromis mossambicus*, *O. niloticus* and their F_1 hybrids, 85 (1990) 281

Saltwater-induced decreases in weight and length relative to seasonal gill Na^+-K^+ ATPase changes in coho salmon (*Oncorhynchus kisutch*): a test for saltwater adaptability, 86 (1990) 19

Combined influence of temperature and salinity on oxygen consumption of the larvae of the pink shrimp, *Palaemon serratus* (Pennant) (Crustacea, Decapoda, Palaemonidae), 86 (1990) 77

Acute toxicity of formalin and copper sulfate to striped bass fingerlings held in varying salinities, 87 (1990) 255

Salinity tolerance and seawater survival vary ontogenically in Florida red tilapia, 87 (1990) 311

Selection for larval freshwater tolerance in *Macrobrachium nipponense* (de Haan), 88 (1990) 151

Use of low-salinity water and gel-coating to minimize handling mortality of spot, *Leiostomus xanthurus* (Perciformes: Sciaenidae), 90 (1990) 17

The effects of salinity on the survival and growth of juvenile *Cichlasoma urophthalmus*, 91 (1990) 65

Plasma prolactin and cortisol concentrations during salinity challenges of coho salmon (*Oncorhynchus kisutch*) at smolt and post-smolt stages, 91 (1990) 359

Hatchery-reared landlocked Arctic charr, *Salvelinus alpinus* (L.), from Lake Takvatn reared in fresh and sea water. II. The effect of salinity on the digestibility of protein, lipid and individual fatty acids in a capelin roe diet and commercial feed, 93 (1991) 135

The respiratory requirements of *Macrobrachium acanthurus* (Weigman) at different temperatures and salinities, 93 (1991) 191

Effectiveness of formalin, benzocaine, and hypo- and hypersaline exposures against adults and eggs of *Entobdella hippoglossi* (Müller), an ectoparasite on Atlantic halibut (*Hippoglossus hippoglossus* L.). Laboratory studies, 94 (1991) 279

The effect of salinity on the survival and growth of striped mullet (*Mugil cephalus*) larvae in the hatchery, 96 (1991) 249

Effects of rapid changes in salinity on the osmoregulation of postsmolt Atlantic salmon (*Salmo salar*), 96 (1991) 375

Combined effects of temperature and salinity on embryonic development and hatching of striped mullet, *Mugil cephalus*, 97 (1991) 281

Influence of salinity on survival of fingerlings of the estuarine catfish *Chrysichthys nigrodigitatus* (Lacépède), 99 (1991) 157

Seawater adaptability of pink salmon (*Oncorhynchus gorbuscha*) fry: effects of size and temperature, 99 (1991) 355

Salmo salar

Effects of salinity on egg swelling in Atlantic salmon (*Salmo salar*), 76 (1989) 317

First feeding of Atlantic salmon (*Salmo salar* L.) fry as influenced by temperature regimes, 78 (1989) 35

Mortality associated with phytoplankton blooms among farmed Atlantic salmon, *Salmo salar* L., in Scotland, 78 (1989) 217

Triploidy induction in recently fertilized Atlantic salmon ova using anaesthetics, 78 (1989) 229

Influence of feeding on protein metabolism in Atlantic salmon (*Salmo salar*), 79 (1989) 29

Different fats in feed for salmon: influence on sensory parameters, growth rate and fatty acids in muscle and heart, 79 (1989) 129

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Effects of different diets on egg production and egg quality of Atlantic salmon (*Salmo salar* L.), 79 (1989) 275

A behavioural method to test feeding responses of fish to pelleted diets, 79 (1989) 303

Vitellogenin synthesis in Atlantic salmon (*Salmo salar*) at different acclimation temperatures, 79 (1989) 397

Photoperiod and temperature effects on early development and reproductive investment in Atlantic salmon (*Salmo salar* L.), 79 (1989) 403

Influence of diet and oxidative rancidity on fry of Atlantic and coho salmon, 79 (1989) 417

Lower prevalence of fin erosion in mature than in immature Atlantic salmon (*Salmo salar*) parr, 80 (1989) 223

Digestibility and bioavailability of dietary selenium from fishmeal, selenite, selenomethionine and selenocystine in Atlantic salmon (*Salmo salar*), 81 (1989) 61

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Identification of anadromous and non-anadromous salmon stocks in Finland by mitochondrial DNA analysis, 81 (1989) 237

Effects of tank colour on growth and smoltification of Atlantic salmon (*Salmo salar* L.), 81 (1989) 379

Investigation of hepatic cytosolic proteins during parr-smolt transformation of Atlantic salmon (*Salmo salar*), 82 (1989) 1

Effects of rearing conditions on growth and thyroid hormones during smolting of Atlantic salmon, *Salmon salar* L., 82 (1989) 29

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Effects of temperature and feeding on smolting and seawater survival of Atlantic salmon (*Salmo salar*), 82 (1989) 93

Effects of photoperiod on growth and smolting in juvenile Atlantic salmon (*Salmo salar*), 82 (1989) 103

Some influences of photoperiod and temperature on opportunity for growth in juvenile Atlantic salmon, *Salmo salar* L., 82 (1989) 119

The effect of constant 12-hour light and simulated natural light on growth, cardiac-somatic index and smolting in the Atlantic salmon (*Salmon salar*), 82 (1989) 127

Temperature and daylength as regulators of smolting in cultured Baltic salmon, *Salmo salar* L., 82 (1989) 137

The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages, 82 (1989) 155

Comparative study of the energetic metabolism of Atlantic salmon (*Salmo salar*) parr and smolts, 82 (1989) 163

The effect of salinity and ration level on growth rate and conversion efficiency of Atlantic salmon (*Salmo salar*) smolts, 82 (1989) 173

Effect of natural and artificial diets on seasonal changes in fatty acid composition and total

body lipid content of wild and hatchery-reared Atlantic salmon (*Salmo salar* L.) parr–smolt, 82 (1989) 205

Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater, 82 (1989) 219

Some physiological responses of Atlantic salmon (*Salmo salar*) exposed to soft, acidic water during smolting, 82 (1989) 229

Responses of juvenile and sexually mature two-summer-old salmon (*Salmo salar* L.) to prolonged swimming, 82 (1989) 245

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Plasma prolactin levels during smolting in Atlantic salmon, *Salmo salar*, 82 (1989) 297

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater, 82 (1989) 307

Thyroid hormones in migrating Atlantic salmon, 82 (1989) 319

Salmon ranching experiments in the River Imsa: effect of timing of Atlantic salmon (*Salmo salar*) smolt migration on survival to adults, 82 (1989) 367

Effects of acid water and aluminium on smolting and seawater tolerance in Atlantic salmon, *Salmo salar* (abstract), 82 (1989) 383

Effects of temperature on gonadal resorption and seawater adaptability among sexually mature Baltic salmon (*Salmo salar* L.) parr (abstract), 82 (1989) 384

Vaccination against *Vibrio salmonicida*. The effect of different routes of administration and of revaccination, 83 (1989) 1

Relationships between smolt length and growth and maturation in the sea of individually tagged Atlantic salmon (*Salmo salar*), 83 (1989) 95

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

A survey on different procedures used for vaccinating salmonids against vibriosis in Norwegian fish-farming, 83 (1989) 217

The use of a simulated redd for incubating Baltic salmon (*Salmo salar*) and trout (*Salmo trutta*) alevins, 83 (1989) 261

A field trial of vaccination against cold-water vibriosis in Atlantic salmon (*Salmo salar* L.), 84 (1990) 1

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Blood plasma parameters in farmed Atlantic salmon (*Salmo salar* L.) transferred to sea cages at age eight to ten months, 84 (1990) 159

Effect of low temperature on seawater tolerance in Atlantic salmon (*Salmo salar*) smolts, 84 (1990) 167

Superior developmental stability of heterozygotes at enzyme loci in *Salmo salar* L., 84 (1990) 199

Homeobox sequences of Atlantic salmon (*Salmo salar*) and zebrafish (*Brachydanio rerio*), 85 (1990) 51

Sources of family variability for maturation incidence in cultivated Atlantic salmon, 85 (1990) 153

Correlated responses to selection for grilse length in Atlantic salmon, 85 (1990) 171

Inheritance of age at smolting in hatchery-reared Atlantic salmon (*Salmo salar*) (abstract), 85 (1990) 317

Ranking of salmon sib groups under different environmental conditions and disease incidence (abstract), 85 (1990) 322

Survival in the early fresh-water period in Atlantic salmon (*Salmo salar*) and rainbow trout (*Salmo gairdneri*): heritabilities for survival and genetic correlation between survival and growth (abstract), 85 (1990) 328

Expression of human growth hormone gene in fertilized eggs from Atlantic salmon and rainbow trout (abstract), 85 (1990) 329

A comparison of allozyme and mitochondrial DNA variation in Atlantic salmon (*Salmo salar*) (abstract), 85 (1990) 330

Growth of different families of Atlantic salmon (*Salmo salar*) under three experimental photoperiods, 86 (1990) 271

Suppression of maturation in male Atlantic salmon (*Salmo salar* L.) parr by reduction in feeding and growth during spring months, 86 (1990) 291

Control of maturation in cultured Atlantic salmon, *Salmo salar*, in pumped seawater tanks, by restricting food intake, 86 (1990) 315

The effects of hypoxia, alkalinity and neurochemicals on hatching of Atlantic salmon (*Salmo salar*) eggs, 86 (1990) 417

The effect of vitamin E on the immune response of the Atlantic salmon (*Salmo salar* L.), 87 (1990) 1

Inheritance of allozymes in Atlantic salmon (*Salmo salar* L.), 88 (1990) 253

Influence of the timing of initial feeding on the survival and growth of hatchery-reared Atlantic salmon (*Salmo salar* L.), 89 (1990) 149

Survival in early life of Atlantic salmon and rainbow trout: estimates of heritabilities and genetic correlations, 89 (1990) 209

Cumulative acute physiological stress in Atlantic salmon smolts: the effect of osmotic imbalance and the presence of predators, 89 (1990) 337

Thermal induction of gynogenesis and triploidy in Atlantic salmon (*Salmo salar*) and their potential interest for aquaculture, 89 (1990) 351

Concentrations of wild and escaped fishes immediately adjacent to fish farm cages, 90 (1990) 29

Food consumption in 24 hours by Atlantic salmon (*Salmo salar* L.) in a sea cage, 90 (1990) 41

Effects of transfer to seawater on digestion and gut function in Atlantic salmon smolts (*Salmo salar* L.), 90 (1990) 85

Use of triticale as a replacement for wheat middlings in diets for Atlantic salmon, 90 (1990) 173

Growth of Atlantic salmon (*Salmo salar* L.) in a variable diel temperature regime, 90 (1990) 261

Binding of soybean agglutinin to small intestinal brush border membranes and brush border membrane enzyme activities in Atlantic salmon (*Salmo salar*), 91 (1990) 163

Vaccination of Atlantic salmon (*Salmo salar* L.) against cold-water vibriosis — duration of protection and effect on growth rate, 92 (1991) 99

Daily feeding rhythms in Atlantic salmon in sea cages, 92 (1991) 219

Problems associated with the present use of menadione sodium bisulfite and vitamin A in diets for Atlantic salmon, 92 (1991) 351

Allozyme variation in natural populations of Atlantic salmon in Asturias (northern Spain), 93 (1991) 291

Genetic variation in growth rate of Atlantic salmon with different trypsin-like isozyme patterns, 93 (1991) 299

Effects of soybean-containing diets on the proximal and distal intestine in Atlantic salmon (*Salmo salar*): a morphological study, 94 (1991) 297

Effects of transfer to seawater on growth and feeding in Atlantic salmon smolts (*Salmo salar* L.), 94 (1991) 309

Diphyllobothrium sp. infections in freshwater-reared Atlantic salmon (*Salmo salar* L.), 95 (1991) 7

Selection for high and low cortisol stress response in Atlantic salmon (*Salmo salar*) and rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 53

Evaluation of milt quality of Atlantic salmon, 95 (1991) 125

Serum prolactin and sex steroids in Atlantic salmon (*Salmo salar*) during sexual maturation, 95 (1991) 169

Absorption, distribution and elimination of oxolinic acid in Atlantic salmon (*Salmo salar* L.) after various routes of administration, 95 (1991) 193

The effect of dietary vitamin C on the immune response of the Atlantic salmon (*Salmo salar* L.), 95 (1991) 201

Polymerase chain reaction/direct sequence analysis of the cytochrome b gene in *Salmo salar*, 95 (1991) 225

Continuous light increases growth rate of Atlantic salmon (*Salmo salar* L.) postsmolts in sea cages, 95 (1991) 281

A comparison of the susceptibility of *Salvelinus alpinus* and *Salmo salar ouananiche* to proliferative kidney disease, 96 (1991) 1

Reconditioning of Atlantic salmon (*Salmo salar*) kelts with silage-based diets: growth and reproductive performance, 96 (1991) 43

Fatty acid composition of start-feeding salmon (*Salmo salar*) larvae, 96 (1991) 305

Effects of rapid changes in salinity on the osmoregulation of postsmolt Atlantic salmon (*Salmo salar*), 96 (1991) 375

Genetic variation in susceptibility of Atlantic salmon to furunculosis, 97 (1991) 1

Comparison of western blot, direct fluorescent antibody and drop-plate culture methods for the detection of *Renibacterium salmoninarum* in Atlantic salmon (*Salmo salar* L.), 97 (1991) 117

Effect of physiological condition and smoltification status at smolt release on subsequent catches of adult salmon, 97 (1991) 231

Bioavailability of oxolinic acid in Atlantic salmon (*Salmo salar* L.) from medicated feed, 97 (1991) 305

Historical development of salmon culture, 98 (1991) 1

Genetic origin of Norwegian farmed Atlantic salmon, 98 (1991) 41

Potential interaction between cultured and wild Atlantic salmon, 98 (1991) 51

The effect of timing of Atlantic salmon smolt and post-smolt release on the distribution of adult return, 98 (1991) 61

Differences in life history and migratory behaviour between wild and hatchery-reared Atlantic salmon in nature, 98 (1991) 69

Spawning migratory behaviour of coastal-released Baltic salmon (*Salmo salar*). Effects on straying frequency and time of river ascent, 98 (1991) 79

Distribution of adult recaptures from hatchery-reared Atlantic salmon (*Salmo salar*) smolts released in and off-shore of the River Surna, western Norway, 98 (1991) 89

The spawning behaviour of escaped farmed and wild adult Atlantic salmon (*Salmo salar* L.) in a northern Scottish river, 98 (1991) 97

The threat of extinction to native populations experiencing spawning intrusions by cultured Atlantic salmon, 98 (1991) 119

Occurrence of reared salmon in natural salmon rivers in Iceland, 98 (1991) 133

Farmed Atlantic salmon (*Salmo salar*) in fisheries and rivers in Norway, 98 (1991) 143

Documentation of successful spawning of escaped farmed female Atlantic salmon, *Salmo salar*, in Norwegian rivers, 98 (1991) 151

Genetic characterisation of Atlantic salmon (*Salmo salar*) lines farmed in Ireland, 98 (1991) 209

Protein polymorphism in Atlantic salmon within a Scottish river: evidence for selection and estimates of gene flow between tributaries, 98 (1991) 217

Genetic protein variation in Atlantic salmon in Scotland: comparison of wild and farmed fish, 98 (1991) 231

Allele frequency variation at the *sAAT-4* locus as a potential measure of the relative performance of native and introduced Atlantic salmon in the River Test, 98 (1991) 243

A mitochondrial DNA restriction fragment length polymorphism of potential use for discrimination of farmed Norwegian and wild Atlantic salmon populations in Scotland, 98 (1991) 249

One-generation effects of farmed fish immigration on the genetic differentiation of wild Atlantic salmon in Norway, 98 (1991) 267

The *Gyrodactylus* story in Norway, 98 (1991) 289

A report on some metazoan parasites of wild marine salmon (*Salmo salar* L.) from the west coast of Norway with comments on their interactions with farmed salmon, 98 (1991) 311

Attempts to reduce the impact of reared Atlantic salmon on wild in Norway, 98 (1991) 319

The effect of long term, low level *Eubothrium* sp. (Cestoda: Pseudophyllidea) infection on

growth in farmed salmon (*Salmo salar* L.), 98 (1991) 325

Genetic variation in red cell membrane fragility in Atlantic salmon and rainbow trout, 98 (1991) 349

Atlantic salmon in duoculture with Arctic charr: decreased aggression enhances growth and stocking density potential, 98 (1991) 355

Relationship between diet and immune response in Atlantic salmon (*Salmo salar* L.) after feeding various levels of ascorbic acid and omega-3 fatty acids, 98 (1991) 363

Prediction of carcass composition in Atlantic salmon by computerized tomography, 99 (1991) 35

Response of epaxial muscle and liver to 17-β estradiol in fed and starved Atlantic salmon (*Salmo salar*), 99 (1991) 179

Salmo trutta

Application of an electrophoretically detectable genetic marker to ploidy testing in brown trout (*Salmo trutta* L.) triploidised by heat shock, 80 (1989) 231

Smolting of two populations of *Salmo trutta*, 82 (1989) 147

The use of a simulated redd for incubating Baltic salmon (*Salmo salar*) and trout (*Salmo trutta*) alevins, 83 (1989) 261

Management implications of genetic differentiation between native and hatchery populations of brown trout (*Salmo trutta*) in Spain, 95 (1991) 235

Environment and development of benthos in earthen trout ponds in Central Scotland, 97 (1991) 335

Salmon

see *Oncorhynchus* spp., *Salmo salar*

Salmonids, general

Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish, 82 (1989) 191

Intestinal absorption of astaxanthin, plasma astaxanthin concentration, body weight, and metabolic rate as determinants of flesh pigmentation in salmonid fish, 90 (1990) 313

The physiologic effects of the anesthetic ketamine hydrochloride on two salmonid species, 90 (1990) 323

Salvelinus alpinus

Effects of sustained exercise on growth and body composition of first-feeding fry of Arctic charr, *Salvelinus alpinus* (L.), 79 (1989) 329

Patterns of food intake in Arctic charr, *Salvelinus alpinus*, monitored by radiography, 81 (1989) 155

Investigation of food–growth relationships of Arctic charr, *Salvelinus alpinus* L., using radiography, 81 (1989) 367

Does the Arctic charr (*Salvelinus alpinus*) exhibit a seasonal change in seawater tolerance? (abstract), 82 (1989) 383

Heritability estimates of growth-related traits in Arctic charr (*Salvelinus alpinus*), 84 (1990) 211

Variation in growth and survival between two anadromous strains of Canadian Arctic charr (*Salvelinus alpinus*) during long-term saltwater rearing, 85 (1990) 259

Feeding modes in Arctic charr, *Salvelinus alpinus* L.: the importance of bottom feeding for the maintenance of growth, 86 (1990) 379

Effect of size-sorting on biomass gain and individual growth rates in Arctic charr, *Salvelinus alpinus* L., 90 (1990) 11

Hatchery-reared landlocked Arctic charr, *Salvelinus alpinus* (L.), from Lake Takvatn reared in fresh and sea water. II. The effect of salinity on the digestibility of protein, lipid and individual fatty acids in a capelin roe diet and commercial feed, 93 (1991) 135

Patterns of growth of maturing and immature Arctic charr, *Salvelinus alpinus*, in a hatchery population, 94 (1991) 343

A comparison of the susceptibility of *Salvelinus alpinus* and *Salmo salar ouananiche* to proliferative kidney disease, 96 (1991) 1

Genetic difference in trypsin-like isozyme pattern between two strains of Arctic charr (*Salvelinus alpinus*), 96 (1991) 227

Effects of dietary lactate and propionate on growth and digesta in Arctic charr, *Salvelinus alpinus* (L.), 96 (1991) 321

Atlantic salmon in duoculture with Arctic charr: decreased aggression enhances growth and stocking density potential, 98 (1991) 355

Salvelinus fontinalis

High stocking density alters the energy metabolism of brook charr, *Salvelinus fontinalis*, 88 (1990) 371

Triploidy induced by heat shock in brook trout (*Salvelinus fontinalis*), 92 (1991) 305

Adaptation of the brook trout, *Salvelinus fontinalis*, to direct transfer to sea water in spring and summer, 97 (1991) 217

Salvelinus namaycush

Application of diallele crosses to lake trout (*Salvelinus namaycush*) stock evaluation (abstract), 85 (1990) 322

Saprolegnia parasitica

Isolation of *Saprolegnia parasitica* from the crayfish *Astacus leptodactylus*, 92 (1991) 121

Satellite cells

Satellite cells from rainbow trout: some factors that affect cell attachment and fusion in vitro (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 328

Scallop

see *Argopecten* sp., *Pecten* spp.

Scallop, general

An improved method for handling large numbers of juvenile scallops, 92 (1991) 389

Sciaenops ocellatus

Responses of red drum (*Sciaenops ocellatus*) to calcium and magnesium concentrations in fresh and salt water, 76 (1989) 21

Selection of finfish species for aquaculture development in Martinique (F.W.I.), 89 (1990) 193

Dietary zinc requirement of the red drum, *Sciaenops ocellatus*, 92 (1991) 259

Total sulfur amino acid requirements of juvenile red drum, *Sciaenops ocellatus*, 95 (1991) 97

Plasma cortisol and glucose stress responses of red drum (*Sciaenops ocellatus*) to handling and shallow water stressors and anesthesia with MS-222, quinaldine sulfate and metomidate, 96 (1991) 69

Effects of dietary lipid and carbohydrate levels on growth and body composition of juvenile red drum, *Sciaenops ocellatus*, 97 (1991) 383

Scophthalmus maximus

Protein digestion in early turbot larvae, *Scophthalmus maximus* (L.), 81 (1989) 315

Bacterial flora associated with a trophic chain consisting of microalgae, rotifers and turbot larvae: influence of bacteria on larval survival, 83 (1989) 237

The role of exogenous enzymes in digestion in cultured turbot larvae (*Scophthalmus maximus* L.), 88 (1990) 337

The continuous feeding of turbot larvae, *Scophthalmus maximus*, and control of the bacterial environment of rotifers, 89 (1990) 139

Selective feeding and prediction of food consumption in turbot larvae (*Scophthalmus maximus* L.) reared on the rotifer *Brachionus plicatilis* and natural zooplankton, 93 (1991) 35

The effect of three strains of lactic bacteria on the production rate of rotifers, *Brachionus plicatilis*, and their dietary value for larval turbot, *Scophthalmus maximus*, 96 (1991) 335

Scylla serrata

Economic feasibility analysis of the monoculture of mudcrab (*Scylla serrata*) Forsskal, 91 (1990) 223

SDA effect

The effect of SDA, temperature and daily rhythm on the energy metabolism of the mullet *Mugil saliens*, 97 (1991) 353

Seasonality

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish (*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Effect of natural and artificial diets on seasonal changes in fatty acid composition and total body lipid content of wild and hatchery-reared Atlantic salmon (*Salmo salar* L.) parr–smolt, 82 (1989) 205

Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater, 82 (1989) 219

Does the Arctic charr (*Salvelinus alpinus*) exhibit a seasonal change in seawater tolerance? (abstract), 82 (1989) 383

Saltwater-induced decreases in weight and length relative to seasonal gill Na^+-K^+ ATPase changes in coho salmon (*Oncorhynchus kisutch*): a test for saltwater adaptability, 86 (1990) 19

Seasonal levels of serum vitellogenin and oocyte growth in the channel catfish *Ictalurus punctatus*, 90 (1990) 353

Annual and daily variations of plasma cortisol in sea bass, *Dicentrarchus labrax* L., 91 (1990) 171

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Sediment analysis

Degradation of oxytetracycline in seawater at two different temperatures and light intensities, and the persistence of oxytetracycline in the sediment from a fish farm, 83 (1989) 7

Mercury levels in the sediment, water, and selected finfishes of Laguna Lake, The Philippines, 84 (1990) 277

Residues of oxytetracycline in wild fish and sediments from fish farms, 86 (1990) 359

Residues of oxolinic acid and oxytetracycline in fish and sediments from fish farms, 97 (1991) 85

Selection

Prospects of selecting for late maturity in tilapia (*Oreochromis niloticus*). I. Family studies under laboratory conditions, 77 (1989) 113

Prospects of selecting for late maturity in tilapia (*Oreochromis niloticus*). II. Strain comparisons under laboratory and field conditions, 77 (1989) 123

Response to selection for early spawn date in rainbow trout, *Salmo gairdneri*, 78 (1989) 153

Basis for evaluating breeding plans, 85 (1990) 125

Application of breeding schemes, 85 (1990) 163

Correlated responses to selection for grilse length in Atlantic salmon, 85 (1990) 171

Phenotypic correlations among behaviour and growth variables in tilapia: implications for domestication selection, 85 (1990) 177

Genetic changes in the growth of coho salmon (*Oncorhynchus kisutch*) in marine net-pens, produced by ten years of selection, 85 (1990) 187

Response to mass selection for growth rate in *Oreochromis niloticus*, 85 (1990) 199

Breeding designs for bivalve molluscs (abstract), 85 (1990) 321

Selection for growth rate in the European oyster, *Ostrea edulis*: a multivariate approach (abstract), 85 (1990) 333

Selenium

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Digestibility and bioavailability of dietary selenium from fishmeal, selenite, selenomethionine and selenocystine in Atlantic salmon (*Salmo salar*), 81 (1989) 61

Seriola dumerili

Epitheliocystis disease in the cultured amberjack, *Seriola dumerili* Risso (Carangidae), 90 (1990) 197

Epitheliocystis in the wild and cultured amberjack, *Seriola dumerili* Risso: ultrastructural observations, 95 (1991) 1

Seriola quinqueradiata

Comparative study of the ontogeny of the lymphoid organs in three species of marine fish, 99 (1991) 143

Serotonin

Induction of spawning by temperature and serotonin in the hermaphroditic tropical scallop, *Pecten ziczac*, 84 (1990) 307

Sesame meal

Studies on the protein, energy and amino acid digestibility of fish meal, mustard oilcake, linseed and sesame meal for common carp (*Cyprinus carpio* L.), 83 (1989) 59

Sex determination

The heredity of sex determination in tilapias, 92 (1991) 143

Effect of dietary protein and energy level on growth, protein utilization and carcass composition of rabbitfish, *Siganus guttatus*, 86 (1990) 41

Induced spawning of rabbitfish, *Siganus guttatus* (Bloch) using human chorionic gonadotropin (HCG), 95 (1991) 133

Spermiation response of mature rabbitfish, *Siganus guttatus* Bloch, to luteinizing hormone-releasing hormone analogue (LHRHa) injection, 97 (1991) 291

Sillago ciliata

Factors affecting the activation and duration of motility of the spermatozoa of the summer whiting (*Sillago ciliata*), 77 (1989) 243

Size-sorting

Effect of size-sorting on biomass gain and individual growth rates in Arctic charr, *Salvelinus alpinus* L., 90 (1990) 11

Skeletonema costatum

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Smelt

see *Osmerus mordax*

Smoltification

Investigation of hepatic cytosolic proteins during parr-smolt transformation of Atlantic salmon (*Salmo salar*), 82 (1989) 1

Physiological and behavioural changes in the accelerated underyearling broodstock masu salmon, *Oncorhynchus masou*, during smoltification, 82 (1989) 21

Effects of rearing conditions on growth and thyroid hormones during smolting of Atlantic salmon, *Salmon salar* L., 82 (1989) 29

Effects of photoperiod on smolting and hormonal secretion in masu salmon, *Oncorhynchus masou*, 82 (1989) 63

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Effects of temperature and feeding on smolting and seawater survival of Atlantic salmon (*Salmo salar*), 82 (1989) 93

Effects of photoperiod on growth and smolting in juvenile Atlantic salmon (*Salmo salar*), 82 (1989) 103

The effect of constant 12-hour light and simulated natural light on growth, cardiac–somatic index and smolting in the Atlantic salmon (*Salmon salar*), 82 (1989) 127

Temperature and daylength as regulators of smolting in cultured Baltic salmon, *Salmo salar* L., 82 (1989) 137

Smolting of two populations of *Salmo trutta*, 82 (1989) 147

The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages, 82 (1989) 155

Effects of dietary fatty acid composition on growth and smolting of underyearling masu salmon, *Oncorhynchus masou*, 82 (1989) 181

Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish, 82 (1989) 191

Some physiological responses of Atlantic salmon (*Salmo salar*) exposed to soft, acidic water during smolting, 82 (1989) 229

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 279

Plasma prolactin levels during smolting in Atlantic salmon, *Salmo salar*, 82 (1989) 297

Temporal aspects of thyroid control of smolting in chinook salmon, *Oncorhynchus tshawytscha* (abstract), 82 (1989) 376

Asynchrony of changes in tissue and plasma thyroid hormone contents of coho salmon during parr–smolt transformation (abstract), 82 (1989) 380

Production, and changes at smolting, of serum thyroxine, estradiol-17β and testosterone in cultivated masu salmon, *Oncorhynchus masou* (abstract), 82 (1989) 381

Plasma levels of prolactin and growth hormone during parr–smolt transformation of coho salmon, *Oncorhynchus kisutch* (abstract), 82 (1989) 382

Effects of acid water and aluminium on smolting and seawater tolerance in Atlantic salmon, *Salmo salar* (abstract), 82 (1989) 383

Inheritance of age at smolting in hatchery-reared Atlantic salmon (*Salmo salar*) (abstract), 85 (1990) 317

Effect of physiological condition and smoltification status at smolt release on subsequent catches of adult salmon, 97 (1991) 231

Sodium phytate

Effect of sodium phytate on growth and tissue mineralization of *Penaeus japonicus* and *Penaeus vannamei* juveniles, 77 (1989) 145

Soy flour

Supplementation of methionine to soy flour diets for fingerling carp, *Cyprinus carpio*, 77 (1989) 373

Soybean

The nutritive value of boiled full-fat soybean in pelleted feed for Nile tilapia, 81 (1989) 303

Soybean meal

Growth performance and nutrient utilization of fingerling *Clarias gariepinus* (Burchell) fed raw and cooked soybean diets, 76 (1989) 119

Defatted and full-fat soybean meal as partial replacements for fishmeal in tilapia (*Oreochromis niloticus* × *O. aureus*) diets at low protein level, 86 (1990) 401

Evaluation of soybean meal as a replacement for marine animal protein in diets for shrimp (*Penaeus vannamei*), 87 (1990) 53

Supplemental feeding of *Penaeus monodon* juveniles with diets containing various levels of defatted soybean meal, 89 (1990) 183

Partial substitution of soybean meal with animal protein sources in diets for channel catfish, 90 (1990) 303

Binding of soybean agglutinin to small intestinal brush border membranes and brush border membrane enzyme activities in Atlantic salmon (*Salmo salar*), 91 (1990) 163

Effects of soybean-containing diets on the proximal and distal intestine in Atlantic salmon (*Salmo salar*): a morphological study, 94 (1991) 297

Sparus aurata

Effect of environmental temperature on survival, growth and population structure in the mass rearing of the gilthead seabream, *Sparus aurata*, 78 (1989) 277

Lipid and *n*-3 requirement of *Sparus aurata* larvae during starvation and feeding, 79 (1989) 185

A total nutrient budget for an experimental intensive fishpond with circulary moving seawater, 83 (1989) 345

Improved rate of initial swim bladder inflation in intensively reared *Sparus auratus*, 84 (1990) 345

Intergeneric hybridization in Sparidae. 1. *Sparus aurata* ♀ × *Diplodus puntazzo* ♂ and *Sparus aurata* ♀ × *Diplodus vulgaris* ♂, 86 (1990) 369

Development of a homologous radioimmunoassay for a gonadotropin of the gilthead seabream, *Sparus aurata*, 88 (1990) 189

Restriction site polymorphism of mitochondrial DNA of the gilthead sea bream (*Sparus aurata*) broodstock in Eilat, Israel, 89 (1990) 217

A diluent for sperm cryopreservation of gilthead seabream, *Sparus aurata*, 90 (1990) 345

The effect of dietary (*n*-3) polyunsaturated fatty acids on growth, survival and swim bladder development in *Sparus aurata* larvae, 91 (1990) 131

Effects of temperature on egg and larval development of *Sparus aurata* L., 92 (1991) 367

Pasteurellosis in cultured gilthead seabream (*Sparus aurata*): first report in Spain, 99 (1991) 1

Spectral composition

The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages, 82 (1989) 155

Spermatozoa

The viability of cryopreserved tilapia spermatozoa, 76 (1989) 335

Factors affecting the activation and duration of motility of the spermatozoa of the summer whiting (*Sillago ciliata*), 77 (1989) 243

Spermiation response

Spermiation response of mature rabbitfish, *Siganus guttatus* Bloch, to luteinizing hormone-releasing hormone analogue (LHRHa) injection, 97 (1991) 291

Squid extracts

Effect of squid extracts on time course appearance of glucose and free amino acids in haemolymph in *Penaeus japonicus* after feeding: preliminary results, 76 (1989) 57

Starch

Starch as an energy source in feed for cod (*Gadus morhua*): digestibility and retention, 80 (1989) 261

Sterilization

Growth improvement in carp, *Cyprinus carpio* (Linnaeus), sterilized with 17α-methyltestosterone, 76 (1989) 157

Stocking density

The effects of water exchange rate and density on yield of the walking catfish, *Clarias fuscus*, 78 (1989) 267

Production of the tilapia *Oreochromis spilurus* Günther stocked at different densities in sea cages, 99 (1991) 95

Storage

Survival and aspects of metabolism in oysters, *Crassostrea gigas*, during and after prolonged air storage, 93 (1991) 389

Stress

The role of learning and stress in predator avoidance of hatchery-reared coho salmon (*Oncorhynchus kisutch*) juveniles, 76 (1989) 209

The effect of stress on spawning of brood fish and survival of larvae of the rabbitfish, *Siganus guttatus* (Bloch), 80 (1989) 241

Effect of indoor, culture conditions on maturation and fecundity of wild-caught female noble crayfish, *Astacus astacus* L., 81 (1989) 1

Transportation stress affects performance of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 15

Responses of juvenile and sexually mature two-summer-old salmon (*Salmo salar* L.) to prolonged swimming, 82 (1989) 245

Cumulative acute physiological stress in Atlantic salmon smolts: the effect of osmotic imbalance and the presence of predators, 89 (1990) 337

Physiological stress in striped bass: effect of acclimation temperature, 91 (1990) 349

Lethal levels of low dissolved oxygen and effects of short-term oxygen stress on subsequent growth of juvenile *Penaeus monodon*, 94 (1991) 27

Selection for high and low cortisol stress response in Atlantic salmon (*Salmo salar*) and rainbow trout (*Oncorhynchus mykiss*), 95 (1991) 53

The effect of dietary carbohydrate on the stress response in cod (*Gadus morhua*), 95 (1991) 319

Rainbow trout husbandry: management of the stress response, 100 (1992) 125

The influence of stress on oxygen consumption of rainbow trout (Husbandry and Management — Poster Abstracts), 100 (1992) 172

Strombus costatus

Effects of temperature, algal food, feeding rate and density on the larval growth of the milk conch (*Strombus costatus*) in Mexico, 76 (1989) 361

Strombus gigas

Pilot hatchery for the queen conch, *Strombus gigas*, shows potential for inexpensive and appropriate technology for larval aquaculture in the Bahamas, 77 (1989) 277

Observations on ingestion and digestion of unicellular algae by *Strombus gigas* larvae (Mollusca, Gastropoda) using epifluorescence microscopy, 92 (1991) 359

Sturgeon

see *Acipenser* spp.

Stylochus frontalis

Predation on cultivated oysters, *Crassostrea rhizophorae* (Guilding), by the polyclad turbellarian flatworm, *Stylochus (Stylochus) frontalis* Verrill, 88 (1990) 145

Sucrose

Cooling and freezing tolerances in embryos of the Pacific oyster, *Crassostrea gigas*: methanol and sucrose effects, 92 (1991) 43

Sulfuric acid

Production of sunfish (*Lepomis* spp.) and channel catfish (*Ictalurus punctatus*) in acidified ponds, 94 (1991) 381

Sunlight

The effect of direct sunlight and temperature on growth and survival of captive young Nile crocodiles, *Crocodilus niloticus*, 94 (1991) 291

Swim bladder

Influence des anomalies de développement de la vessie natatoire sur la mortalité de *Dicentrarchus labrax* au cours du sevrage (The effects of abnormalities in the development of the swim bladder on the mortality of *Dicentrarchus labrax* during weaning), 78 (1989) 55

Improved rate of initial swim bladder inflation in intensively reared *Sparus auratus*, 84 (1990) 345

Detection of larvae of *Anguillicola crassus* (an eel swimbladder nematode) in freshwater fish species, 87 (1990) 103

The effect of dietary (*n*-3) polyunsaturated fatty acids on growth, survival and swim bladder development in *Sparus aurata* larvae, 91 (1990) 131

Swimming capacity

Responses of juvenile and sexually mature two-summer-old salmon (*Salmo salar* L.) to prolonged swimming, 82 (1989) 245

T

Tapes philippinarum

Dried-algae diets and indoor nursery cultivation of Manila clam juveniles, 95 (1991) 75

Tapes semidecussatus

Triploidy induction by thermal shock in the Manila clam, *Tapes semidecussatus*, 78 (1989) 223

Production of triploid embryos of *Tapes semidecussatus* by the use of *cytochalasin* B (abstract), 85 (1990) 317

Triploidy induction by thermal shock in the Manila clam, *Tapes semidecussatus* (abstract), 85 (1990) 324

Propagation of the Manila clam (*Tapes semidecussatus*) in the effluent of fish aquaculture ponds in Eilat, Israel, 90 (1990) 113

***Tapes* spp.**

Nutritional value of spray-dried *Tetraselmis suecica* for juvenile bivalves, 92 (1991) 207

Taxonomy — *Mytilus* sp.

The genetics and taxonomy of species in the genus *Mytilis*, 94 (1991) 125

Taxonomy — *Oncorhynchus* spp.

Taxonomic names for northern Pacific trout species — editorial, 86 (1990) 1

Techniques — carcass composition

Prediction of carcass composition in Atlantic salmon by computerized tomography, 99 (1991) 35

Techniques — computer spreadsheets

Microcomputer spreadsheets for the implementation of geographic information systems in aquaculture: a case study on carp in Pakistan, 92 (1991) 199

Techniques — counting device

A counting device for oyster larvae, 78 (1989) 379

Techniques — culture methods, algae

Cultivation of *Phyllophora nervosa* (DC) Grev. on rope collectors in the Black Sea, 84 (1990) 257

An intensive continuous culture system using tubular photobioreactors for producing microalgae, 87 (1990) 381

Techniques — culture methods, crustaceans

Mass-culture of *Cancer irroratus* larvae (Crustacea, Decapoda): adaptation of a flow-through sea-water system, 97 (1991) 25

Techniques — culture methods, fish

Effects of tank colour on growth and smoltification of Atlantic salmon (*Salmo salar* L.), 81 (1989) 379

A successful rearing experiment with amago salmon (*Oncorhynchus masou rhodurus*) in floating cages in the Adriatic Sea, 86 (1990) 201

European eel (*Anguilla anguilla* L.) farming technologies in Europe and in Japan: application of a comparative analysis, 87 (1990) 209

Atlantic salmon in duoculture with Arctic charr: decreased aggression enhances growth and stocking density potential, 98 (1991) 355

Rainbow trout culture in submersible cages near offshore oil platforms (Husbandry and Management — Poster Abstracts), 100 (1992) 169

Husbandry and management of rainbow trout in sea-cages (Husbandry and Management — Poster Abstracts), 100 (1992) 170

The effects of rainbow trout cage aquaculture on the water quality, microfauna and sediments of Lac du Passage, Canada (Husbandry and Management — Poster Abstracts), 100 (1992) 170

The effects of cage culture of rainbow trout in South Africa on the water quality of three shallow impoundments with long retention times (Husbandry and Management — Poster Abstracts), 100 (1992) 171

Large-scale production of rainbow trout in open recirculation systems (Husbandry and Management — Poster Abstracts), 100 (1992) 173

Traditional rainbow trout culture and fish farming management at Louros River, Greece, 100 (1992) 174

Techniques — culture methods, molluscs

Estimating the carrying capacity of a coastal inlet for mussel culture, 88 (1990) 39

Use of saline ground water for intensive rearing of *Ruditapes philippinarum* juveniles in a nursery system, 88 (1990) 157

Nursery culture of the bay scallop, *Argopecten irradians irradians*, in suspended mesh nets, 99 (1991) 257

Techniques — culture methods, plankton

An intensive chemostat culture system for the production of rotifers for aquaculture, 81 (1989) 291

Techniques — disease detection and diagnosis

Detection of *Vibrio parahaemolyticus* biotype *alginolyticus* in penaeid shrimps using an amplified enzyme-linked immunosorbent assay, 93 (1991) 101

Comparison of western blot, direct fluorescent antibody and drop-plate culture methods for the detection of *Renibacterium salmoninarum* in Atlantic salmon (*Salmo salar* L.), 97 (1991) 117

The detection of *Bonamia ostreae* (Pichot et al. 1980) in frozen oysters (*Ostrea edulis* L.) and the effect of the parasite on condition, 97 (1991) 311

Techniques — DNA fingerprinting

DNA fingerprinting of tilapia, *Oreochromis niloticus*, and its application to aquaculture genetics, 92 (1991) 157

The application of DNA fingerprinting in the analysis of gynogenesis in tilapia, 95 (1991) 41

Techniques — embryo preservation

Cryopreservation of the euryhaline rotifer *Brachionus plicatilis* embryos, 91 (1990) 385

Cooling and freezing tolerances in embryos of the Pacific oyster, *Crassostrea gigas*: methanol and sucrose effects, 92 (1991) 43

Techniques — feeding and nutrition, crustaceans

Effect of storage temperature on the quality of diets for the prawn, *Penaeus monodon* Fabricius, 80 (1989) 87

Techniques — feeding and nutrition, fish

Determination of nucleotide concentrations with high performance liquid chromatography (HPLC): application to fish, 76 (1989) 135

Effect of partially or totally replacing fish meal protein by soybean meal protein on growth, food utilization and proteolytic enzyme activities in rainbow trout (*Salmo gairdneri*). New in vivo test for exocrine pancreatic secretion, 77 (1989) 29

Studies on nutrient digestibility in European sea bass (*Dicentrarchus labrax*). 1. Methodological aspects concerning faeces collection, 77 (1989) 61

Chronic cannulation of the hepatic portal vein in rainbow trout, *Salmo gairdneri*: a prerequisite to net absorption studies, 78 (1989) 195

A simple in vitro method for measuring protein digestibility, 79 (1989) 111

Stability of ascorbate-2-sulfate in trout feed measured by HPLC, 79 (1989) 249

A behavioural method to test feeding responses of fish to pelleted diets, 79 (1989) 303

Patterns of food intake in Arctic charr, *Salvelinus alpinus*, monitored by radiography, 81 (1989) 155

Investigation of food–growth relationships of Arctic charr, *Salvelinus alpinus* L., using radiography, 81 (1989) 367

The use of a simulated redd for incubating Baltic salmon (*Salmo salar*) and trout (*Salmo trutta*) alevins, 83 (1989) 261

Techniques — feeding and nutrition, molluscs

Observations on ingestion and digestion of unicellular algae by *Strombus gigas* larvae (Mollusca, Gastropoda) using epifluorescence microscopy, 92 (1991) 359

Techniques — feeding and nutrition, rotifers

Preparation of oils, enhanced in highly unsaturated fatty acid (HUFA) content, by low temperature crystallization separation, for rotifer (*Brachionus plicatilis*) enrichment, 88 (1990) 69

Techniques — genetics

Identification of anadromous and non-anadromous salmon stocks in Finland by mitochondrial DNA analysis, 81 (1989) 237

Genome analysis of rainbow trout and sturgeon with restriction enzymes and hybridization with a ZFY gene derived probe to identify sex, 81 (1989) 245

The application of gene manipulation to aquaculture, 85 (1990) 1

Factors affecting survival and integration following microinjection of novel DNA into rainbow trout eggs, 85 (1990) 35

Retrospects and prospects of fish genetics and breeding research in China, 85 (1990) 61

Strain differences in cultured fish — izozymes and performance traits as indicators, 85 (1990) 69

Interaction between test and reference populations when tilapia strains are compared by the "internal control" technique, 85 (1990) 207

Restriction endonuclease analysis of mitochondrial DNA from cod (*Gadus morhua*) (abstract), 85 (1990) 318

Polymerase chain reaction/direct sequence analysis of the cytochrome b gene in *Salmo salar*, 95 (1991) 225

Application of genetic technologies to rainbow trout, 100 (1992) 85

Techniques — harvesting

Evaluation of edge seining for harvesting *Oreochromis niloticus* fry from spawning ponds, 80 (1989) 195

Techniques — hybridization

Viable nuclear-cytoplasmic hybrids are obtained by electrofusion (abstract), 85 (1990) 328

Intergeneric hybridization in Sparidae. 1. *Sparus aurata* ♀ × *Diplodus puntazzo* ♂ and *Sparus aurata* ♀ × *Diplodus vulgaris* ♂, 86 (1990) 369

Techniques — marking

Freeze branding of Atlantic halibut, 89 (1990) 383

Techniques — oxygen determination

An improved flow-through respirometer for the automatic determination of oxygen consumption in aquatic invertebrates, 77 (1989) 271

Techniques — ploidy estimation

Detection of induced triploidy at different ages for larvae of the Japanese pearl oyster, *Pinctada fucata martensii*, by microfluorometry with DAPI staining, 76 (1989) 1

Application of an electrophoretically detectable genetic marker to ploidy testing in brown trout (*Salmo trutta* L.) triploidised by heat shock, 80 (1989) 231

Induced triploids and tetraploids in bighead carp, *Hypophthalmichthys nobilis*, verified by multi-embryo cytofluorometric analysis, 87 (1990) 121

Techniques — polyploidy induction

Triploidy induction in the black scallop (*Chlamys varia* L.) and its effect on larval growth and survival, 77 (1989) 103

Triploidy induction by thermal shock in the Manila clam, *Tapes semidecussatus*, 78 (1989) 223

Triploidy induction in recently fertilized Atlantic salmon ova using anaesthetics, 78 (1989) 229

Production of all-female sterile-triploid *Oreochromis mossambicus*, 84 (1990) 117

Production of triploid embryos of *Tapes semidecussatus* by the use of *cytochalasin* B (abstract), 85 (1990) 317

Triploidy induction by thermal shock in the Manila clam, *Tapes semidecussatus* (abstract), 85 (1990) 324

Triploid production in the Japanese pearl oyster, *Pinctada fucata martensii* (abstract), 85 (1990) 325

Preliminary observations on induced polyploidy in Indian major carps, *Labeo rohita* (Ham.) and *Catla catla* (Ham.), 87 (1990) 279

Problems associated with tetraploid induction and survival in grass carp, *Ctenopharyngodon idella*, 88 (1990) 273

Thermal induction of gynogenesis and triploidy in Atlantic salmon (*Salmo salar*) and their potential interest for aquaculture, 89 (1990) 351

Induced triploidy in the European flat oyster, *Ostrea edulis* L., 90 (1990) 229

Triploidy induced by heat shock in brook trout (*Salvelinus fontinalis*), 92 (1991) 305

Triploidy induced by cold shock in the Asian catfish, *Clarias batrachus* (L.), 94 (1991) 377

Diploid/triploid rainbow trout chimeras produced by microinjecting isolated blastomeres into recipient blastulae (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 327

Techniques — protein synthesis estimation

Estimation of protein synthesis in fish larvae using an in vitro polyribosome assay, 79 (1989) 85

Techniques — reproduction, crustaceans

In vitro stimulation of oocytes by presumptive mandibular organ secretions in the shrimp, *Penaeus vannamei*, 92 (1991) 59

Techniques — reproduction, fish

Development of an ovarian biopsy technique in the sea bass, *Lates calcarifer* (Bloch), 77 (1989) 97

Fatty acid analysis of fish eggs without solvent extraction, 80 (1989) 371

A method of obtaining large amounts of an active hatching liquid of fish embryos, 84 (1990) 193

Genetic consequences of salmonid egg fertilization techniques (abstract), 85 (1990) 326

Development of a homologous radioimmunoassay for a gonadotropin of the gilthead seabream, *Sparus aurata*, 88 (1990) 189

Hatchery techniques for egg and fry production of *Clarias batrachus* (Linnaeus), 89 (1990) 9

Induced spawning of rabbitfish, *Siganus guttatus* (Bloch) using human chorionic gonadotropin (HCG), 95 (1991) 133

Reproduction in rainbow trout: sex differentiation, dynamics of gametogenesis, biology and preservation of gamets, 100 (1992) 263

Improved fertilization success of rainbow trout by means of sperm diluent (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 325

Techniques — seed treatment

Effect of desiccation on *Tridacna derasa* seed: pure oxygen improves survival during transport, 76 (1989) 169

Techniques — sex control

Production of all-female carp and its applications in fish cultivation (abstract), 85 (1990) 327

Thermal induction of gynogenesis and triploidy in Atlantic salmon (*Salmo salar*) and their potential interest for aquaculture, 89 (1990) 351

Optimal thermal shocks for induced diploid gynogenesis in chinook salmon (*Oncorhynchus tshawytscha*), 90 (1990) 239

Gynogenesis in common carp (*Cyprinus carpio* L.). II. The production of homozygous gynogenetic clones and F_1 hybrids, 92 (1991) 127

Techniques — sex determination

Sex determination of live galjoen (*Coracinus capensis* Cuvier) using a biochemical technique, 86 (1990) 283

Techniques — spat collection

The Iceland scallop, *Chlamys islandica* (O.F. Müller) in Breidafjördur, west Iceland. I. Spat collection and growth during the first year, 97 (1991) 13

Techniques — spat handling

An improved method for handling large numbers of juvenile scallops, 92 (1991) 389

Techniques — sperm preservation

The viability of cryopreserved tilapia spermatozoa, 76 (1989) 335

A diluent for sperm cryopreservation of gilthead seabream, *Sparus aurata*, 90 (1990) 345

Cryopreservation of rainbow trout semen in large straws, 93 (1991) 95

Cryopreservation of Atlantic croaker spermatozoa, 94 (1991) 355

Cryopreservation of the spermatozoa of *Crassostrea tulipa* and three other oysters, 97 (1991) 259

Techniques — spermatozoa fixation

A new method for electron-microscopical fixation of spermatozoa of freshwater teleosts, 97 (1991) 301

Techniques — transport

Packaging of the guppy, *Poecilia reticulata*, for air transport in a closed system, 78 (1989) 321

Techniques — vaccination

The appearance of soluble antigen, horseradish peroxidase (HRP), in tissues of the rainbow trout (*Salmo gairdneri* Richardson), subsequent to variable dip-immersion procedures, 79 (1989) 411

Techniques — water quality

The effect of *Elodea densa* on aquaculture water quality, 84 (1990) 267

Temperature

Effects of temperature, algal food, feeding rate and density on the larval growth of the milk conch (*Strombus costatus*) in Mexico, 76 (1989) 361

The effect of two temperatures and salinities on growth and survival of bilaterally eyestalk ablated and intact juvenile American lobsters, *Homarus americanus*, fed brine shrimp, 76 (1989) 373

Growth and ω3 fatty acids and amino acid composition of microalgae under different temperature regimes, 77 (1989) 337

Rearing of Danube salmon (*Hucho hucho* L.) fry at different temperatures, with particular emphasis on freeze-dried zooplankton as dry feed additive, 77 (1989) 363

First feeding of Atlantic salmon (*Salmo salar* L.) fry as influenced by temperature regimes, 78 (1989) 35

Effect of environmental temperature on survival, growth and population structure in the mass rearing of the gilthead seabream, *Sparus aurata*, 78 (1989) 277

Haematological values and fatty acid composition of erythrocyte phospholipids in cod (*Gadus morhua*) fed at different water temperatures, 79 (1989) 137

Vitellogenin synthesis in Atlantic salmon (*Salmo salar*) at different acclimation temperatures, 79 (1989) 397

Photoperiod and temperature effects on early development and reproductive investment in Atlantic salmon (*Salmo salar* L.), 79 (1989) 403

Growth rates of large, sexually mature cod, *Gadus morhua*, in relation to condition and temperature during an annual cycle, 81 (1989) 161

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation, 82 (1989) 77

Effects of temperature and feeding on smolting and seawater survival of Atlantic salmon (*Salmo salar*), 82 (1989) 93

Some influences of photoperiod and temperature on opportunity for growth in juvenile Atlantic salmon, *Salmo salar* L., 82 (1989) 119

Temperature and daylength as regulators of smolting in cultured Baltic salmon, *Salmo salar* L., 82 (1989) 137

Effects of temperature on gonadal resorption and seawater adaptability among sexually mature Baltic salmon (*Salmo salar* L.) parr (abstract), 82 (1989) 384

Degradation of oxytetracycline in seawater at two different temperatures and light intensities, and the persistence of oxytetracycline in the sediment from a fish farm, 83 (1989) 7

Influence of environmental variables on haematology, and compendium of normal haematological ranges of milkfish, *Chanos chanos* (Forskal), in brackishwater culture, 83 (1989) 123

Fatty acid composition of muscle, heart and liver lipids in Atlantic salmon, *Salmo salar*, at extremely low environmental temperature, 84 (1990) 71

Effect of low temperature on seawater tolerance in Atlantic salmon (*Salmo salar*) smolts, 84 (1990) 167

Induction of spawning by temperature and serotonin in the hermaphroditic tropical scallop, *Pecten ziczac*, 84 (1990) 307

Plasma concentrations of flumequine after intra-arterial and oral administration to rainbow trout (*Salmo gairdneri*) exposed to low water temperatures, 84 (1990) 355

Temperature-related absorption and excretion of oxytetracycline in rainbow trout (*Salmo gairdneri* R.), 84 (1990) 363

Effect of temperature on utilization of endogenous energy reserves during embryonic development of diploid and triploid rainbow trout (*Salmo gairdneri* R.), 84 (1990) 373

Cold tolerance in maternal mouthbrooding tilapias: phenotypic variation among species and hybrids, 85 (1990) 271

Inheritance of size as estimated by principal component analysis at two temperatures in *Penaeus vannamei* (abstract), 85 (1990) 323

Combined influence of temperature and salinity on oxygen consumption of the larvae of the pink shrimp, *Palaemon serratus* (Pennant) (Crustacea, Decapoda, Palaemonidae), 86 (1990) 77

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. I. Gross embryology, temperature tolerance and rates of embryonic development, 87 (1990) 165

Influence of incubation temperature on *Oreochromis niloticus* (L.) eggs and fry. II. Survival, growth and feeding of fry developing solely on their yolk reserves, 87 (1990) 183

Effects of diet and temperature on food consumption, growth rate and tissue fatty-acid composition of triploid grass carp, 88 (1990) 313

Effect of temperature on survival, growth and feed intake of postlarval spiny lobsters, *Panulirus argus*, 90 (1990) 1

Growth of Atlantic salmon (*Salmo salar* L.) in a variable diel temperature regime, 90 (1990) 261

Physiological stress in striped bass: effect of acclimation temperature, 91 (1990) 349

Effects of temperature on egg and larval development of *Sparus aurata* L., 92 (1991) 367

The respiratory requirements of *Macrobrachium acanthurus* (Weigman) at different temperatures and salinities, 93 (1991) 191

The effect of direct sunlight and temperature on growth and survival of captive young Nile crocodiles, *Crocodilus niloticus*, 94 (1991) 291

Effects of constant photoperiod–temperature regimes on ovarian activity during the annual reproductive cycle in the murrel, *Channa punctatus* (Bloch), 96 (1991) 383

Growth patterns of pike (*Esox lucius* L.) larvae and juveniles in small ponds under various natural temperature regimes, 97 (1991) 155

Pigmentation of rainbow trout with astaxanthin at different water temperatures, 97 (1991) 203

Combined effects of temperature and salinity on embryonic development and hatching of striped mullet, *Mugil cephalus*, 97 (1991) 281

The effect of SDA, temperature and daily rhythm on the energy metabolism of the mullet *Mugil saliens*, 97 (1991) 353

Influence of starvation at low temperatures on utilization of energy reserves, appetite recovery and growth character in sea bass, *Dicentrarchus labrax*, 99 (1991) 167

Seawater adaptability of pink salmon (*Oncorhynchus gorbuscha*) fry: effects of size and temperature, 99 (1991) 355

A comparison of growth between rainbow trout and Arctic charr in different temperatures (Husbandry and Management — Poster Abstracts), 100 (1992) 168

Effect of recombinant trout growth hormone on rainbow trout at growth-inhibiting temperatures (Physiology and Endocrinology — Poster Abstracts), 100 (1992) 322

Testosterone

Growth improvement in carp, *Cyprinus carpio* (Linnaeus), sterilized with 17α-methyltestosterone, 76 (1989) 157

The effects of naturally occurring androgens in practical diets fed to normal-sired and jack-sired progeny of coho salmon (*Oncorhynchus kisutch*), 77 (1989) 51

Gonadal differentiation in coho salmon, *Oncorhynchus kisutch*, after a single treatment with androgen or estrogen at different stages during ontogenesis, 77 (1989) 251

Seasonal changes in thyroid and reproductive steroid hormones in female channel catfish (*Ictalurus punctatus*) in pond culture, 78 (1989) 63

Effects of oral administration of 17α-methyltestosterone and 17β-estradiol on gonadal development in common carp, *Cyprinus carpio* L., 78 (1989) 349

Production, and changes at smolting, of serum thyroxine, estradiol-17β and testosterone in cultivated masu salmon, *Oncorhynchus masou* (abstract), 82 (1989) 381

Effects of 17α-methyltestosterone and 11β-hydroxyandrostenedione on gonad differentiation in the African catfish, *Clarias gariepinus*, 83 (1989) 179

The effects of the synthetic steroid 17-alpha-methyltestosterone on the growth and organ morphology of the channel catfish (*Ictalurus punctatus*), 84 (1990) 81

Release rates of steroids from silastic tube implants in vitro and in vivo with juvenile milkfish, *Chanos chanos*, 87 (1990) 91

Effects of feeding 17α-methyltestosterone, 11-ketotestosterone, 17β-estradiol, and 3,5,3′-triiodothyronine to channel catfish, *Ictalurus punctatus*, 92 (1991) 377

Stimulation of pituitary gonadotropin and ovarian development by chronic administration of testosterone in female Japanese silver eel, *Anguilla japonica*, 96 (1991) 87

Disposition and elimination of 17α-methyltestosterone in Nile tilapia (*Oreochromis niloticus*), 99 (1991) 193

***Tetraselmis* sp.**

Ingestion saturation and growth responses of *Penaeus monodon* larvae to food density, 81 (1989) 329

Continuous culture of the marine microalga *Tetraselmis* sp. — productivity analysis, 90 (1990) 75

Tetraselmis suecica

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Use of a new spray-dried algal product in penaeid larviculture, 86 (1990) 249

Inhibition of prawn pathogenic *Vibrio* spp. by a commercial spray-dried preparation of *Tetraselmis suecica*, 90 (1990) 389

Thalassiosira pseudonana

Nutritional condition of rock scallop, *Crassadoma gigantea* (Gray), larvae fed mixed algal diets, 86 (1990) 25

Thiourea

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Thyronine

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Thyroxine

Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater, 82 (1989) 257

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater, 82 (1989) 307

Thyroid hormones in migrating Atlantic salmon, 82 (1989) 319

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Effect of lunar-phased releases on adult recovery of coho salmon from Trinity River and Iron Gate hatcheries in California, 82 (1989) 355

Temporal aspects of thyroid control of smolting in chinook salmon, *Oncorhynchus tshawytscha* (abstract), 82 (1989) 376

Asynchrony of changes in tissue and plasma thyroid hormone contents of coho salmon during parr–smolt transformation (abstract), 82 (1989) 380

Production, and changes at smolting, of serum thyroxine, estradiol-17β and testosterone in cultivated masu salmon, *Oncorhynchus masou* (abstract), 82 (1989) 381

Seasonal fluctuations in plasma thyroid hormones, in two strains of rainbow trout (*Oncorhynchus mykiss*), during the first and second reproductive cycle: relation with their photoperiodically altered spawning time, 99 (1991) 365

Tilapia

see *Oreochromis* spp.

Tilapia, general

Instantaneous growth rate of tilapia genotypes in undisturbed aquaculture systems. I. "Red" and "grey" morphs in Indonesia, 77 (1989) 295

The heredity of sex determination in tilapias, 92 (1991) 143

Tilapia zillii

The dietary protein requirements of young tilapia and an evaluation of the least cost dietary protein levels, 80 (1989) 271

Growth responses of *Tilapia zillii* fed diets containing various levels of ascorbic acid and cobalt chloride, 88 (1990) 329

Tiostrea chilensis

The annual pattern of infection by *Bonamia* sp. in New Zealand flat oysters, *Tiostrea chilensis*, 93 (1991) 241

Toxicity

Piscicidal plants of Nepal: toxicity to air-breathing predatory fish (*Ophiocephalus punctatus*, *Clarias batrachus* and *Heteropneustes fossilis*) and the duration of risk to cultivated fish, 78 (1989) 285

Piscicidal plants of Nepal: ripe fruit of *Catunaregam spinosa* (Thunb.) (Rubiaceae) and leaves of *Polygonum hydropiper* L. (Polygonaceae) as fish poisons, 78 (1989) 293

Acute toxicity of formalin and copper sulfate to striped bass fingerlings held in varying salinities, 87 (1990) 255

Toxicities of ammonia and nitrite to *Penaeus monodon* adolescents, 89 (1990) 127

A study of dichlorvos (Nuvan; 2,2 dichloroethenyl dimethyl phosphate), a therapeutic agent for the treatment of salmonids infected with sea lice (*Lepeophtheirus salmonis*), 90 (1990) 101

Binding of soybean agglutinin to small intestinal brush border membranes and brush border membrane enzyme activities in Atlantic salmon (*Salmo salar*), 91 (1990) 163

Acute and chronic toxicity of ammonia to juvenile *Metapenaeus macleayi* and *Penaeus monodon* and the influence of low dissolved-oxygen levels, 91 (1990) 265

Effects of Gusathion A on the survival and shell quality of juvenile *Penaeus monodon*, 93 (1991) 9

Accumulation and persistence of tri-n-butyltin in pink and chum salmon fry cultured in marine net-pens, 96 (1991) 233

Lethal and sub-lethal effects of the salmon delousing agent dichlorvos on the larvae of the lobster (*Homarus gammarus* L.) and herring (*Clupea harengus* L.), 98 (1991) 331

Toxicology

Domoic acid and the eastern Canadian molluscan shellfish industry, 77 (1989) 263

Trachinotus goodei

Selection of finfish species for aquaculture development in Martinique (F.W.I.), 89 (1990) 193

Transportation

Packaging of the guppy, *Poecilia reticulata*, for air transport in a closed system, 78 (1989) 321

Transportation stress affects performance of coho salmon, *Oncorhynchus kisutch*, 82 (1989) 15

Cold storage effects on setting of larvae of the Sydney rock oyster, *Saccostrea commercialis*, and the Pacific oyster, *Crassostrea gigas*, 92 (1991) 179

Tri-*n*-butyltin

Accumulation and persistence of tri-n-butyltin in pink and chum salmon fry cultured in marine net-pens, 96 (1991) 233

Tricalcium phosphate

Effect of supplemental phytate and/or tricalcium phosphate on weight gain, feed efficiency and zinc content in vertebrae of channel catfish, 80 (1989) 155

Tridacna derasa

Effect of desiccation on *Tridacna derasa* seed: pure oxygen improves survival during transport, 76 (1989) 169

Tridacna gigas

Environmental influences on growth and survival during the ocean-nursery rearing of giant clams, *Tridacna gigas* (L.), 80 (1989) 45

Triiodothyronine

Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water, 82 (1989) 269

Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles, 82 (1989) 329

Hormones in early development of salmonid fishes (abstract), 82 (1989) 375

Asynchrony of changes in tissue and plasma thyroid hormone contents of coho salmon during parr–smolt transformation (abstract), 82 (1989) 380

Effects of feeding 17α-methyltestosterone, 11-ketotestosterone, 17β-estradiol, and 3,5,3′-triiodothyronine to channel catfish, *Ictalurus punctatus*, 92 (1991) 377

Triploidy

Application of an electrophoretically detectable genetic marker to ploidy testing in brown trout (*Salmo trutta* L.) triploidised by heat shock, 80 (1989) 231

Triticale

Use of triticale as a replacement for wheat middlings in diets for Atlantic salmon, 90 (1990) 173

Trout

see *Salmo* spp.

Turbot

see *Scophthalmus maximus*

Tyrosine

An evaluation of the isolated, in vitro, non-myotomal muscle preparation for the study of factors affecting protein synthesis in fish, 79 (1989) 75

V

Vaccination

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Vaccination against *Vibrio salmonicida*. The effect of different routes of administration and of revaccination, 83 (1989) 1

A survey on different procedures used for vaccinating salmonids against vibriosis in Norwegian fish-farming, 83 (1989) 217

A cost-effectiveness study on three different methods of vaccination against vibriosis in salmonids, 83 (1989) 227

A field trial of vaccination against cold-water vibriosis in Atlantic salmon (*Salmo salar* L.), 84 (1990) 1

Vaccination of Atlantic salmon (*Salmo salar* L.) against cold-water vibriosis — duration of protection and effect on growth rate, 92 (1991) 99

Vendace

see *Coregonus albula*

Vibrio alginolyticus

The continuous feeding of turbot larvae, *Scophthalmus maximus*, and control of the bacterial environment of rotifers, 89 (1990) 139

Vibrio anguillarum

The effects of *Vibrio anguillarum* extracellular products on Japanese eels, 80 (1989) 201

A survey on different procedures used for vaccinating salmonids against vibriosis in Norwegian fish-farming, 83 (1989) 217

Circulating antibodies against *Vibrio anguillarum* O1 antigen from rainbow trout farmed in the Baltic (Diseases — Poster Abstracts), 100 (1992) 331

Vibrio parahaemolyticus

Detection of *Vibrio parahaemolyticus* biotype *alginolyticus* in penaeid shrimps using an amplified enzyme-linked immunosorbent assay, 93 (1991) 101

Vibrio salmonicida

Vaccination against *Vibrio salmonicida*. The effect of different routes of administration and of revaccination, 83 (1989) 1

Cortisol-induced increase in susceptibility of Atlantic salmon, *Salmo salar*, to *Vibrio salmonicida*, together with effects on the blood cell pattern, 83 (1989) 201

A field trial of vaccination against cold-water vibriosis in Atlantic salmon (*Salmo salar* L.), 84 (1990) 1

Vaccination of Atlantic salmon (*Salmo salar* L.) against cold-water vibriosis — duration of protection and effect on growth rate, 92 (1991) 99

***Vibrio* spp.**

Vibriosis outbreak among cultured seabream (*Acanthopagrus cuvieri*) broodstock in Kuwait, 76 (1989) 189

Inhibition of prawn pathogenic *Vibrio* spp. by a commercial spray-dried preparation of *Tetraselmis suecica*, 90 (1990) 389

Virginiamycin

Digestibility, tissue distribution and depletion kinetics of [^{14}C]-virginiamycin and related factors fed to rainbow trout, 97 (1991) 73

Viruses

Viral infection associated with rotifer mortalities in mass culture, 93 (1991) 1

Viral infection (picorna-like virus) associated with mass mortalities in hatchery-reared sea-bass (*Dicentrarchus labrax*) larvae and juveniles, 97 (1991) 109

Vitamins

Disease resistance and humoral antibody production in rainbow trout fed high levels of vitamin C, 79 (1989) 207

The interaction of vitamins, minerals and diet composition in the diet of fish, 79 (1989) 223

High mortality of rainbow trout (*Salmo gairdneri*) fry caused by deficiency of vitamins C and B_2 in commercial fish farms in Yugoslavia, 79 (1989) 245

Role of dietary ascorbic acid in vitellogenesis in rainbow trout (*Salmo gairdneri*), 80 (1989) 301

Evaluation of L-ascorbyl-2-polyphosphate (AsPP) as a dietary ascorbic acid source for channel catfish, 81 (1989) 129

Growth and mid-gut cells profile of *Penaeus monodon* juveniles fed water-soluble-vitamin deficient diets, 81 (1989) 137

Ascorbic acid status in the early life of whitefish (*Coregonus lavaretus* L.), 84 (1990) 61

Effect of dietary vitamin E levels on oxidative stability of trout fillets, 84 (1990) 145

Stability in fish feed and bioavailability to rainbow trout of two ascorbic acid forms, 84 (1990) 335

Vitamin C requirement of the Mexican native cichlid *Cichlasoma urophthalmus* (Gunther), 86 (1990) 409

The effect of vitamin E on the immune response of the Atlantic salmon (*Salmo salar* L.), 87 (1990) 1

Liquid chromatographic determination of a combined form of L-ascorbic acid (L-ascorbate 2-sulfate) in fish tissue by release of L-ascorbic acid, 87 (1990) 65

Vitamin E requirements of the blue tilapia, *Oreochromis aureus* (Steindachner), in relation to dietary lipid level, 87 (1990) 155

Riboflavin requirements in on-growing rainbow trout, *Oncorhynchus mykiss*, 88 (1990) 87

Growth responses of *Tilapia zillii* fed diets containing various levels of ascorbic acid and cobalt chloride, 88 (1990) 329

Requirement and utilization of ascorbic acid and ascorbic sulfate in juvenile rainbow trout, 91 (1990) 317

The vitamin B_{12}-producing ability of the intestinal microflora of freshwater fish, 92 (1991) 267

Problems associated with the present use of menadione sodium bisulfite and vitamin A in diets for Atlantic salmon, 92 (1991) 351

The effect of dietary vitamin C on the immune response of the Atlantic salmon (*Salmo salar* L.), 95 (1991) 201

Vitellogenesis

Role of dietary ascorbic acid in vitellogenesis in rainbow trout (*Salmo gairdneri*), 80 (1989) 301

Induced vitellogenesis in triploid coho salmon (*Oncorhynchus kisutch*) (abstract), 85 (1990) 318

Observations on ovarian follicle ultrastructure in the marine teleost, *Pagrus major*, during vitellogenesis and oocyte maturation, 92 (1991) 67

Male-induced shifts in pattern of vitellogenesis during puberty and recrudescence of female African catfish, *Clarias gariepinus*, 94 (1991) 99

W

Wastewater

Growth potentialities of the giant tropical prawn, *Macrobrachium rosenbergii* (De Man), in waste-heat discharge waters of a thermoelectric power station, 81 (1989) 111

Water hardness

The effect of water hardness on growth and carapace mineralization of juvenile freshwater prawns, *Macrobrachium rosenbergii* de Man, 95 (1991) 329

Water quality

Responses of red drum (*Sciaenops ocellatus*) to calcium and magnesium concentrations in fresh and salt water, 76 (1989) 21

Spatial and temporal variation of water column measurements in aquaculture ponds, 78 (1989) 253

The effects of water exchange rate and density on yield of the walking catfish, *Clarias fuscus*, 78 (1989) 267

Water quality conditions and particulate chlorophyll α of new intensive seawater fishponds in Eilat, Israel: daily and diel variations, 80 (1989) 63

The effect of *Elodea densa* on aquaculture water quality, 84 (1990) 267

Fixed film nitrification characteristics in seawater recirculation fish culture systems, 87 (1990) 133

The comparison of two simple protocols designed to initiate and stimulate ammonia oxidation in closed aquaculture systems, 88 (1990) 179

Effects of water exchange on *Oreochromis niloticus* (L.) growth and water quality in outdoor concrete tanks, 95 (1991) 67

The effects of rainbow trout cage aquaculture on the water quality, microfauna and sediments of Lac du Passage, Canada (Husbandry and Management — Poster Abstracts), 100 (1992) 170

The effects of cage culture of rainbow trout in South Africa on the water quality of three shallow impoundments with long retention times (Husbandry and Management — Poster Abstracts), 100 (1992) 171

Waves

The influence of wave frequency and wave height on the behaviour of rainbow trout (*Oncorhynchus mykiss*) in cages, 97 (1991) 143

Whirling disease

Whirling disease: earliest susceptible age of rainbow trout to the triactinomyxid of *Myxobolus cerebralis*, 92 (1991) 1

Wild salmonids

Electrophoretic comparison of the reproductive success of naturally spawning transplanted and wild steelhead trout through the returning adult stage, 88 (1990) 239

Wolf fish

see *Anarhichas lupus*

Y

Yeast

Carbohydrate and fatty acid composition of the rotifer, *Brachionus plicatilis*, fed monospecific diets of yeast or phytoplankton, 89 (1990) 263

Yellowtail

see *Seriola* spp.

Yersinia ruckeri

Immunity in Atlantic salmon, *Salmo salar* L., fry following vaccination against *Yersinia ruckeri*, and the influence of body weight and infectious pancreatic necrosis virus (IPNV) on the detection of carriers, 81 (1989) 205

Z

Zinc

Effects of various levels of dietary copper and zinc on channel catfish, 76 (1989) 127

Dietary calcium, phytate and zinc interactions in channel catfish, 79 (1989) 259

A comparison of growth rate and trace element accumulation in Atlantic salmon (*Salmo salar*) fry fed four different commercial diets, 79 (1989) 267

Effect of supplemental phytate and/or tricalcium phosphate on weight gain, feed efficiency and zinc content in vertebrae of channel catfish, 80 (1989) 155

Lipid malabsorption as a possible cause of anorexia in Zn-deficient juvenile common carp, *Cyprinus carpio*, 89 (1990) 327

Dietary zinc requirement of the red drum, *Sciaenops ocellatus*, 92 (1991) 259

Zooplankton

Selective feeding and prediction of food consumption in turbot larvae (*Scophthalmus maximus* L.) reared on the rotifer *Brachionus plicatilis* and natural zooplankton, 93 (1991) 35

Functional response of Atlantic halibut larvae related to prey density and distribution, 94 (1991) 89
